(Excerpts:) "We have individuals and groups today that have mass-casualty intent and increasingly express interest in biology as a weapon...There are a lot of reasons why countries are going to want to make autonomous weapons. One of the reasons we're seeing is in Ukraine, which is this kind of petri dish of autonomous weapons. The radio jamming that's used makes it very tempting to want to have autonomous weapons that no longer need to phone home...[Referring to China:] The US hasn't faced a strategic competitor with more than two-thirds of our GDP since the War of 1812. So we need an accurate assessment of net strengths and net weaknesses in various areas of competition, whether it's in economic, industrial, military, human capital, education, or talent.":

Trust in the Lord, and do good; so shalt thou dwell in the land, and verily thou shalt be fed. Delight thyself also in the Lord: and He shall give thee the desires of thine heart. Commit thy way unto the Lord; trust also in Him; and He shall bring it to pass. And He shall bring forth thy righteousness as the light, and thy judgment as the noonday. (Excerpts:) "...the Natural Family Foundation, came up with the idea of celebrating 'Natural Family Month' — from Mother's Day to Father's Day. The first week would be a celebration of Mother's Day. The second week would be a celebration of children. The third week would be a celebration of grandparents. The next week would be a celebration of extended family, and it would all culminate in a celebration of Dads on Father's Day....website, NaturalFamilyStrong.com, where he lays out the plan, and offers a pledge people can sign to affirm their support of God's ordained design for the NATURAL family: one biological man married to one biological woman united in a monogamous marriage for life, bearing and raising Godly children in the fear and admonition of the Lord. There's overwhelming scientific evidence showing that children thrive within the Natural Family. There's much less poverty, mental illness, drug use, rage and rebellion, and children grow up to be much happier and well-adjusted adults when raised within the Natural Family. Last June, I came up with an idea, but it was too late to put into action then. This year, thanks to other ministry friends, the idea is coming to fruition — and God has greatly blessed this plan, which focuses on 'lighting a candle' instead of cursing the darkness.":

(Excerpts:) "Whatever happened to the WEF? One minute they were everywhere in the media and now they have all but disappeared from public discourse...Much of their discussions now focus on issues like climate change or DEI (Diversity, Equity, Inclusion), but one vital subject continues to pop up in the white papers of global think tanks and it's a program that was introduced very publicly during

covid. Every person that cares about economic freedom should be wary of Central Bank Digital Currencies (CBDCs) as perhaps the biggest threat to human liberty since the attempted introduction of vaccine passports...A cashless society would be the end game for economic anonymity and freedom in trade. Unless alternative physical currencies are widely adopted in protest, CBDCs would make all transactions traceable and easily interrupted by governments and banks. Imagine a world in which all trade is monitored, all revenues are monitored and transactions can be blocked...these things do happen today, but with physical cash they can be circumvented. Imagine a world where your ability to spend money can be limited to certain retailers...services...products...chosen regions based on your politics...social credit score...background. The control that comes with CBDCs is immense and allows for complete micromanagement of the population. The fact that 98% of central banks are already adopting this technology should be one of the biggest news stories of the decade, yet, it goes almost completely ignored.":

*Whilst viewing this vid, I felt led to look into the meaning of the Egyptian god, Set. Here's a brief description (DYOR for more info): Set was the god of storms and chaos. He represented the desert and all its terrors, from its punishing hot winds to the savage beasts; always associated with terrifying and destructive things. He was also seen as a sort of trickster god, and associated with all things foreign, such as foreign gods, even to the point of being romantically linked with foreign goddesses.

> 🌟 **"Lawfare on Journalism"** - *Imo, very eye-opening 1.24.30 hr vid! (Took it in while darning socks.)*

(Blurb on richplanet:) "Award winning journalist [and testifying Christian!], Gemma O'Doherty joins Richard to talk about her career in Ireland and how she parted company with her employer, who demanded that she cease reporting on corruption within the Irish state. Since leaving mainstream journalism she has continued to lead her field as a fully independent 'proper' investigative journalist, uncovering many serious injustices in Ireland. In recent years she has suffered, what appear to be, orchestrated legal attacks, which are being supported by the mainstream media. 'Lawfare' seems to be the price that investigative journalists are now paying, for searching for and reporting on uncomfortable truths. The parallels with Richard D. Hall's case in the UK are striking. (Link provided to Gemma's documentary about Mary Boyle.)"

(From blurb on tapnewswire:) "Gemma is a savvy lady, She knows all about how the Irish Constitution was subverted by the globalists when they took over Ireland for their own benefit earlier this century. The European Headquarters of lots of big global tech, and pharma corporations are in Ireland. The local politicians [puppeticians!] are just placemen with no real power, and even less intelligence. So Ireland is run by foreigners, in effect. There is a sting in the tail, too; towards the end she has some very harsh words to say about The [UK] Light newspaper and UK Column.":
