"Turkey Expected to Become US' Largest Supplier of Artillery"

(Excerpts:) "Turkey is set to become the United States' largest supplier of artillery shells as NATO allies have exhausted their stocks and now struggle to ship ammunition to Ukraine. Turkey's indirect support for Ukraine is also supplemented by direct support, such as producing drones and warships, yet Turkish President Recep Tayyip Erdogan offers himself as a viable partner in searching for peace...Although Erdogan claims to have contributed as much as possible to ending the war through negotiations, his country has also contributed to prolonging it. It is also recalled that during Zelensky's visit to Turkey, he visited the shipyard where the two corvettes are being built for the Ukrainian Navy. At the same time, Turkey is providing drones to the Ukrainian military and is now replenishing the US' artillery stocks. This is even though Ukraine has no chance of winning the war, meaning Turkey is not an honest broker for peace.":

> 🧑 "Now KIDS are going to get Ozempic! NHS-affiliated trial will give dozens of fat children as young as SIX the powerful slimming jabs" - *And how they got that way isn't due to some sort of errorism?: Problem (crap, ultra-processed food and drinks industrially designed to lure and appear yummy) - Reaction (parents and children fall for the scam) - Solution (pump the victims full of drugs). This is, again, a playing out of the Hegelian dialectic*! (*The "problem, reaction, solution" strategy is often referred to as the "Hegelian dialectic" because it is thought to be based on the philosophical framework developed by Georg Wilhelm Friedrich Hegel. Hegel's dialectical method involves the resolution of contradictions through a process of thesis, antithesis, and synthesis. In the context of the "problem, reaction, solution" strategy, this process is said to involve the creation or exacerbation of a problem, the manipulation of public reaction to the problem, and the implementation of a pre-determined solution. While there may be debate about the extent to which this strategy actually reflects Hegel's philosophical ideas, the connection is made due to the perceived similarities in the underlying process.)*

(Excerpts:) "Children as young as six will get powerful slimming jabs in a new trial...Slimming jabs have been linked to cancer, gallstones and suicidal thoughts...nausea, constipation and diarrhoea, fatigue, stomach pain, headaches and dizziness. Weirder and much rarer side effects, like hair loss...Officials also recommend they are taken for life, otherwise users may simply pile the pounds back on. Critics have also said such a move, while tackling the problem of childhood obesity, fails to address the drivers which are making British children

fat in the first place...The latest childhood obesity data for England shows one in 10 children are too fat by the time they start primary school, rising to about one in four among Year 6.":

(Excerpts:) "The Ministry of Defence (MoD) is refusing to disclose the nationalities of pilots trained...The school has close relationships with weapons manufacturers...Based at MoD Boscombe Down in Wiltshire, the ETPS is an initiative that barely any MP has ever asked any questions about. There are hardly any mentions of the ETPS in the official record...used to be part of the MoD but is now operated by QinetiQ as part of a 25-year contract which came into effect in April 2003. It has a total estimated cost of £5.6bn. QinetiQ is a secretive military research and development company and a major government contractor. The UK has no qualms about training militaries belonging to repressive regimes or countries engaged in war. In addition to operating the ETPS, QinetiQ provides the MoD with electronic warfare and is one of its main cyber defence suppliers...War in Ukraine and Palestine, and tension with China, have been great for business, with QinetiQ's CEO saying late last year: 'We are doing really, really well'. The fact that ETPS is run by QinetiQ, now a private company, means that the British government can refuse to answer freedom of information questions about the school's costs.":

"Lift up a standard on the mountain of the plain, exalt the voice to them, beckon with the hand, open the gates, ye rulers. I give command, and I bring them: giants are coming to fulfil My wrath, rejoicing at the same time and insulting. A voice of many nations on the mountains, even like to that of many nations; a voice of kings and nations gathered together: the Lord of hosts has given command to a war-like nation, to come from a land afar off, from the utmost foundation of heaven; the Lord and His warriors are coming to destroy all the world. Howl ye, for the day of the Lord is near, and destruction from God shall arrive. Therefore every hand shall become powerless, and every soul of man shall be dismayed. The elders shall be troubled, and pangs shall seize them, as of a woman in travail: and they shall mourn one to another, and shall be amazed, and shall change their countenance as a flame. For behold! The day of the Lord is coming which cannot be escaped, a day of wrath and anger, to make the world desolate, and to destroy sinners out of it. For the stars of heaven, and Orion, and all the host of heaven, shall not give their light; and it shall be dark at sunrise, and the moon shall not give her light. And I will command evils for the whole world, and will visit their sins on the ungodly: and I will destroy the pride of transgressors, and will bring low the pride of the haughty." (Isa. 13:2-11 Septuagint)

🙏 "Few find that courageous humility within themselves to acknowledge their complicity in totalitarianism. And so they will swathe themselves in soothing denial and lash out at anyone who tries to puncture it. But you will keep trying, anyway. Because that's what truth-tellers do. That's what people who care about saving lives do. That's what people of integrity do, whether or not anyone ever recognizes it. You know in your heart what is true, and you speak it. And no one can ever shut you up again. Even if they kill you. Your bravery will outlive you. Your words will remain like candles, lighting the path for future truth-droppers. And you will be at peace, in life and beyond." - Margaret Anna Alice 💕

Adams speculates that the plans the powers that be have for April 8 point towards something very ugly and ominous for humanity, including by harvesting the energy of stars for the purpose of opening up portals to the dark underworld. 'On April 8, everything changes!' one of our readers and viewers speculated about what he thinks will happen...Another noted that, for those who have been saved by Jesus Christ, there is no need to fear what appears to be on the verge of happening, as marked by this eclipse.":

The survey found that 1 in 4 Gen Z taxpayers said they'll need a therapist to deal with the stress of tax-filing season. "Hmmm. And how about some honest-to-God, truly Bible-based theology to help deal with the spiritual battle?", I thought. Then this article came across my path.*

"Rude Awakening"

(Excerpts:) "This cohort of young people has been intentionally created by the enemies of our society in order to neutralise us and make us easy to overthrow. Usually, when a culture is invaded, it is the young who fight back - both physically and culturally. They have the stamina, energy, and drive to respond to the threat and defend their society. But this drive has been intentionally drained out of them by the poisonous indoctrinating regime of universities *[And a myriad of demonic influence covering the whole gambit of humanity!]*. The Woke have been cruelly created to be the way they are - to despise everything about their own culture and to have no desire or capacity to defend it - by devious social architects who infiltrated all the universities starting in the 1960s, to bring us to the point we are now. *[And it was during that very time, in the late '60's that God sent to the world the Jesus Revolution! The call to come out, get out, drop out into full-time service and an all-out living for Jesus in preparation for the coming, and now here, Great Confusion!]* To make sure hordes of young people - any culture's first line of defense - are too weak, flabby, solipsistic, and inflexible to deal effectively with any threat to, or change in, their circumstances. We know that the overlords desire to drastically reduce the population, if not by outright killing people, then by making them so ineffectual that they don't represent any threat. One very effective way of doing this is to plunge people into a crisis they can't handle - see: Covid. So many people who'd previously thought of themselves as strong-minded, autonomous, and even rebellious, immediately fell into line when they were scared and didn't know what to do. So-called 'liberals' were some of the most conformist of all. *[So many of my friends, whom I never imagined would have, fell for it, hook, line and sinker!]* That is why it has had to resort to utterly absurd, Orwellian 'hate crime laws' - and that is why, ultimately, it is doomed: because those who survive in the face of crises don't do so because they are the strongest or most intelligent, but rather, because (as we learned so well through Covid) they are the most adaptable to change." - *You gotta know when to hang on and when to let go! You gotta know when to stay and when to go! You gotta know what to hide and what to show! You gotta know when to suppress and when to blow! You gotta keep God at the steering wheel! I never learned how to drive; guess I knew God is real! He said, "Cathy, I've got you; it's been all prearranged! Keep adaptable, flexible, and ready for **change!**" PTL! As that beautiful song "Through It All", written in 1971 by Andraé Crouch, says, "Through it all, through it all, I've learned to trust in Jesus, learned to trust in God!" "Jesus Christ the same yesterday, and to day, and for ever. Be not carried about with divers and strange doctrines." (Heb. 13:8,9a):*

> 🌟 **"'Lavender': The AI machine directing Israel's bombing spree in Gaza - The Israeli army has marked tens of thousands of Gazans as suspects for assassination, using an AI targeting system with little human oversight and a permissive policy for casualties, +972 and Local Call reveal" - NWO = New War Ogre! A raw, disturbing look at the NWO's reality! Christian Zionists, meet**

your AI god! The word "lavender" comes from the Latin "lavare" ("to wash") and purple is the colour of royalty (in this cabalistic case, false, wicked, anti-Christ "royalty"! - "And the woman was arrayed in purple and scarlet colour, and decked with gold and precious stones and pearls, having a golden cup in her hand full of abominations and filthiness of her fornication" - Rev.17:4); hence, the genociders' high and mighty, poisonousness, pompous justification to wash away, rid whatever, whenever, however!

(Excerpts:) "In 2021, a book titled 'The Human-Machine Team: How to Create Synergy Between Human and Artificial Intelligence That Will Revolutionize Our World' was released in English under the pen name 'Brigadier General Y.S.'. In it, the author — a man who we confirmed to be the current commander of the elite Israeli intelligence unit 8200 — makes the case for designing a special machine that could rapidly process massive amounts of data to generate thousands of potential 'targets' for military strikes in the heat of a war. Such technology, he writes, would resolve what he described as a 'human bottleneck for both locating the new targets and decision-making to approve the targets'. Such a machine, it turns out, actually exists. A new investigation by +972 Magazine and Local Call reveals that the Israeli army has developed an artificial intelligence-based program known as 'Lavender,' unveiled here for the first time. According to six Israeli intelligence officers, who have all served in the army during the current war on the Gaza Strip and had first-hand involvement with the use of AI to generate targets for assassination, Lavender has played a central role in the unprecedented bombing of Palestinians, especially during the early stages of the war. In fact, according to the sources, its influence on the military's operations was such that they essentially treated the outputs of the AI machine 'as if it were a human decision'...The result, as the sources testified, is that thousands of Palestinians — most of them women and children or people who were not involved in the fighting — were wiped out by Israeli airstrikes, especially during the first weeks of the war, because of the AI program's decisions...'There was no "zero-error" policy. Mistakes were treated statistically', said a source who used Lavender. 'Because of the scope and magnitude, the protocol was that even if you don't know for sure that the machine is right, you know that statistically it's fine. So you go for it.'...The predetermined and fixed collateral damage degree helped accelerate the mass creation of targets using the Lavender machine, sources said, because it saved time...'There were regulations, but they were just very lenient', said E., another intelligence source. 'We've killed people with collateral damage in the high double-digits, if not low triple-digits. These are

things that haven't happened before.'...B., the senior intelligence source, said that in retrospect, he believes this "'disproportionate' policy of killing Palestinians in Gaza also endangers Israelis, and that this was one of the reasons he decided to be interviewed.":

P.S. 😊 In closing, how about a **let's-stay-healthy segment!** Knowing how much we like our chickpeas (cheap as chips protein; I make my own hummus, and chickpea loaf), my husband found this chickpea tofu recipe! I'm gonna try it out for sure! Watch the 7.16 min vid below for more ideas on how to prepare it!

Chickpea Tofu (makes 2-4 servings)

2 cups chickpea flour

3 cups water, divided

3/4 tsp garlic powder

3/4 tsp onion powder

1/2 tsp salt

Optional: liquid smoke, seasonings of your choice

Directions:

1. In a large bowl whisk together chickpea flour with 2 cups of water and seasonings. Make sure there are little to no lumps.
2. Bring 1 cup of water to a boil in a large saucepan.
3. Once the water comes to a boil, pour in the flour mixture, turn down to a simmer and stir well for approx 5-7 minutes or until the flour mixture is very thick.
4. Pour into a glass baking dish and smooth over. Put in fridge to completely cool.
5. Once cooled, cut chickpea tofu into squares or strips and bake in the oven or airfryer (until crispy), or sauté (until brown on all sides). This tofu can be marinated before cooking, or cooked plain, and served with sauce or dressing.
