"Video: Israel Destroys Gaza to Control World's Most Important Shipping Lane? The Ben Gurion Canal Linking the Eastern Mediterranean to the Gulf of Aqaba"*

(Excerpts:) "Incisive and carefully documented geopolitical analysis by Richard Medhurst pertaining to the building of the Ben Gurion Canal linking the Eastern Mediterranean to the Gulf of Aqaba. The Ben Gurion Canal Project was initially a 'secret' (classified) U.S. project formulated in 1963 by the Lawrence Livermore National Laboratory LLNG, a strategic think tank (focussing on nuclear radiation) on contract with the U.S Department of Energy." - *Imo, very self-explanatory as to why so few of the Arab governments (with their mammon-gorged mouths drool at the prospect of how much more money they dream will come their way) came to the aid of the Palestinians, and watched while tens of thousands of innocent woman and children get blown up to smithereens! "Enter ye in at THE strait gate [Jesus Christ!]: for wide is the gate, and broad is the way, that leadeth to destruction, and many there be which go in thereat: because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it."* (Mat.7:13-14):

(Excerpts:) "Vietnam is the latest country to start implementing a mandatory biometric digital ID system. The Vietnamese Law on Identity went into effect July 1 and will establish a detailed digital citizen identification system that will touch every citizen. The iris biometric details [Yep, right between the eyes!] of citizens will be collected along with fingerprints and facial images when citizens apply for an ID card, according to an article by [BiometricUpdate.com](https://biometricupdate.com), a website that tracks the global movement toward digitization of all things, including human beings. Vietnam's Identity Law introduces several key changes, including the mandatory collection of biometric information for citizens applying for ID cards. A clause in the law mandates that assigned state agencies will collect identification data, including facial images, fingerprints, and irises, from applicants. The government says the move is designed to bolster security and accuracy of identity verification processes." - *The delites always say it's in the name of safety and security, which are code names for cabalic control and surreptitious surveillance!*

> 🙄 ***Pridemonth*** may have been last month, but the demons are growing in gruesome gall to flaunt their fetishes without compunction! "And we know that we are of God, and the whole world lieth in wickedness." (1Jn.5:19) As nauseating as this subject is and the photos included in these 2 articles, in looking them over, honestly, if you can believe it, it strengthened my faith to re-know that we are truly in the Last Days as outlined in the Word, with people enthusiastically en masse being given over to, applauding, celebrating and proliferating a reprobate mind! Urinating and wagging their penises in front of the whole world in broad daylight! "And likewise also the men, leaving the natural use of the woman, burned in their lust one toward another; men with men working that which is unseemly, and receiving in themselves that recompense of their error which was meet. And even as they did not like to retain God in their knowledge, God gave them over to a reprobate mind, to do those things which are not convenient" (Rom.1:27-28) and the whole chapter is well worth a read/review! (Excerpts:) "In 2017, Mr. Russell, the Berkeley A.I. researcher, released an online film, 'Slaughterbots', warning of the dangers of autonomous weapons...What the companies are creating is technology that makes human judgment about targeting and firing increasingly tangential. The widespread availability of off-the-shelf devices, easy-to-design software, powerful automation algorithms and specialized artificial intelligence microchips has pushed a deadly innovation race into uncharted territory, fueling a potential new era of killer robots...The most advanced versions of the technology that allows drones and other machines to act autonomously have been made possible by deep learning, a form of A.I. that uses large amounts of data to identify patterns and make decisions. Deep learning has helped generate popular large language models, like OpenAI's GPT-4, but it also helps make models interpret and respond in real time to video and camera footage...Officials have spent more than a decade debating rules about the use of autonomous weapons, but few expect any international deal to set new regulations, especially as the United States, China, Israel, Russia and others race to develop even more advanced weapons...'The geopolitics makes it impossible', said Alexander Kmentt, Austria's top negotiator on autonomous weapons at the U.N. 'These weapons will be used, and they'll be used in the military arsenal of pretty much everybody.' Nobody expects countries to accept

an outright ban of such weapons, he said, 'but they should be regulated in a way that we don't end up with an absolutely nightmare scenario.'":

(Excerpts:) "Yes, you read it right. One of the emails in the US State Department's FOIA release contains the following request [see screen shot within this article]: 'Requesting documents pertaining to the resurrection chamber of Gilgamesh, the location of his body, and the location of the buried Nephilim.' 'For nothing is secret, that shall not be made manifest; neither any thing hid, that shall not be known and come abroad. - Luke 8:17...' Many prophecy scholars equate Nimrod with Gilgamesh, the hero of the ancient Sumerian creation story composed circa 2000 BC. Gilgamesh claimed to be two-thirds "god", which seemed impossible until today, when babies are born every day with three parents (a process where one "parent" is a woman who donates her enucleated ovum as carrier for the DNA of the other two parents). But Genesis refers to Nimrod as a man who "began to be a mighty one in the earth" (Genesis 10:8 emphasis added). The Hebrew word translated as "began to be" is khalal, which implies sexual profanity or genetic pollution—and a process. Nimrod was becoming a Gibbor (mighty one), which is most often used when referring to giants. Nimrod most likely was a product of a profane mating of fallen angel (god) and human. He is Apollo, Cernunnos, Abaddon, Osiris, and Horus, and he is returning as king of the locusts (hybrid fallen angels) from the pit! And CERN may be the stargate that will open this unholy portal very soon.' - Dr. Tom Horn": <https://lionessofjudah.substack.com/p/truth-is-stranger-than-fiction-the>

> ✝️ **"We Live In A Day And Age Where Soundness Of Doctrine Is No Longer A Priority"** - This article right away reminds me of a conversation I was having with a Christian woman about 3 years ago, during which she said, "I don't want to know anything else about the Bible other than that Jesus loves me. That's all. That's it. That's enough." The term "Christianette", used in this article,

*is, imo, really spot-on, imo (sounds like marionette — interesting, as in puppeted, attached to those delites who pull their churchy strings! Yanking them back into place if they don't toe the denominational line!).*

(Excerpts:) "I've heard believers say things like, 'You know, it's not about knowing doctrine. I'm not into doctrine. I'm just into loving Jesus.' It's almost like their badge of spirituality. It sounds like they're saying they are a cut above the rest of us, because they're not into instruction...We live in a day and age where Bible teaching—doctrine—is not tolerated, and people go to church and just want a spiritual pep rally. They want somebody to whip them up with a little exhortation and cool, clever phrases...And because of this, we have produced Christianettes, like the people I described earlier. Don't be a Christianette. Don't go around craving an emotional high instead of an in-depth study of Scripture that will teach you to rightly divide the Word of Truth.":

>  • **"The Music Conspiracy - The Frequency Change from 432hz to 440hz"**

(Excerpts:) "The music conspiracy is not often talked about in alternative media, yet is quite possibly much more important than we give it credit for...Musical frequencies have the ability to either raise or lower our vibrations which affects our mood, our connections with others around us, and our ability to raise our consciousness...What better way then to keep humanity scraping the vibrational barrel than to meddle with the very frequencies of music? In the 1930s the Rothchilds and other so-called 'elite' families of the World decided to weaponise music. The healing and peaceful standard vibrational frequency was taken away and replaced by the 440 frequency. Using this ensured that we became conduits for negative distorted energy. Music at 432hz has a light, natural, healing feel to it. It has a feel-good factor, and lifts your mood. It makes you feel alive. At 440hz we are pulled down into a dark vibrational frequency which is where the 'powers that shouldn't be' want to keep us.":

- *The article link above contains the following link to this 10.04 min vid. Note that the 432-to-440 change started in earnest to take place in 1859, when France deemed A4 = 435 Hz the law of the land, which was the same for Italy, until in 1885 (The same year that the Apocrypha was removed from the canon of scripture in Protestant Bibles, for the most part! Interesting timing!) when Italy decided to bump it up to 440 Hz (some regions set A4 as high as 450 Hz as their standard). A few decades later, in 1917, the USA hopped on board with the Italians. And then, in the 1950s, the International Organization for Standardization officially recognized A4 = 440 as "concert pitch" after first recommending it in 1939, and the world has largely stuck with it since. This following 10.04 min vid will surely get you wanting to DYOR!*

On the other hand, it's impossible to explain NATO expansionism in Scandinavia without seeing it as part of a wider offensive build-up that aims to surround Russia with hostile states and other entities (including terrorist ones). In one of the latest such moves, Helsinki just gave the United States the legal permission to station troops in the country. The vote in the Finnish Parliament was unanimous...Congratulations, Helsinki! You just exposed 5.5 million Finns to virtually immediate thermonuclear annihilation in case of (an increasingly possible) military conflict between NATO and Russia. Considering the fact that the US has similar 'exclusive access' facilities all over the world and that the Pentagon usually uses them for illegal programs and experiments, including with deadly biological materials, Russia will respond...Finland is going out of its way to please the US and NATO, just like it did with Nazi Germany (their geopolitical predecessor) over 80 years ago...[ and is] is relinquishing its sovereignty. Namely, the US has control over the F-35's systems, as the jet keeps sending data back to Lockheed Martin and the US military, meaning that even if the then 'neutral' Finland didn't join NATO, the Pentagon would effectively control a crucial branch of the country's armed forces, forcing Russia to respond either way.":

> ⚠️ (Excerpts from Intro by Leo Holman to this article by Martin Armstrong - <https://leohohmann.com/2024/07/04/when-you-dont-feel-like-celebrating/>.)

"Millions of Americans will celebrate today with fireworks, food and family. Flags will wave, drums roll, trumpets blare. But what are we really celebrating and are we being real with ourselves?...I feel like our independence has been stripped away by the lures of convenience and promises of safety and security through mesmerizing technology. The very concept of freedom is no longer seen as an inalienable right, endowed by our Creator...Instead, we've allowed corrupt politicians and bureaucrats to tell us what we can say, do, and soon, even what we can think. We are left with the freedoms the elites at all levels of government, along with their corporate partners, allow us to have. We are overtaxed, overregulated and kept in our place. Even if you work for years to pay off your mortgage and own your home outright, you really just rent it from the local bureaucratic thieves, who take the bulk of that money and spend it on your local government indoctrination centers (commonly known as public schools). And now the biggest freedom of all, the freedom to remain at peace with those around us, is about to be stripped away, at which time even the facade of freedom will disappear. We will be at war. And this time the war will not just be 'over there'. The violence will come to our shores...Armstrong offers a brilliant response to the neocons in the Washington Uniparty who are pushing for World War III with Russia. His article is long but full of valuable lessons from history and well worth your time to read.":

The latest nation to claw back its gold from the West is Nigeria, which is reportedly repatriating 21 tons of gold amid ongoing economic concerns like runaway inflation and escalating geopolitical tensions. In order to minimize the risk of major losses, Nigeria has decided that its gold is best stored domestically rather than in volatile places like the U.S. and the U.K. that appear to be getting dethroned by an emerging new world order...India is another country that recently decided to bring its gold home as well. Reports indicate that the world's most populous nation recalled 100 tons of its gold from vaults in the United Kingdom...Back in 2019...Poland repatriated 100 tons of gold, as did Hungary and Romania. *"Therefore shall her [Babylon, the Whore!] plagues come in one day, death, and mourning, and famine; and she shall be utterly burned with fire: for strong is the Lord God who judgeth her. And the kings of the earth, who have committed fornication and lived deliciously with her, shall bewail her, and lament for her, when they shall see the smoke of her burning, standing afar off for the fear of her torment, saying, 'Alas, alas that great city Babylon, that mighty city! For in one hour is thy judgment come.' And the merchants of the earth shall weep and mourn over her; for no man buyeth their merchandise any more: The merchandise of gold, and silver, and precious stones, and of pearls, and fine linen, and purple, and silk, and scarlet, and all thine wood, and all manner vessels of ivory, and all manner vessels of most precious wood, and of brass, and iron, and marble, and cinnamon, and odours, and ointments, and frankincense, and wine, and oil, and fine flour, and wheat, and beasts, and sheep, and horses, and chariots, and **slaves**, and **souls of men**."
