>  **"A World on Edge: The Calm Before the Storm"**

(Excerpts:) "This is not a drill. We stand on the brink of multiple dangerous and life-altering precipices...many people are either unwilling or simply unable to keep up with the rapid pace of incoming global developments. Therefore, I share this information with you so that you can do the same and alert those who are unaware, for one reason or another, that we are slipping into a dangerous phase...denial is thick these days. I don't want to scare anyone, but, damn, I can't shut up and not sound my foghorn because: Incoming! In the eerie calm before the storm, we stand at the precipice of a world about to be engulfed in turmoil. The Middle East, a powder keg primed by demonic forces, teeters on the brink of an extraordinary conflagration. This is no accident, but the meticulously orchestrated design of dark cabals pulling strings from the shadows, their tentacles reaching into every government and agency, driven by an insatiable desire to watch our beautiful planet burn. As the rhythmic beat of war drums grows louder, the global economy quivers, with stock markets plummeting in a dizzying freefall. But the true horror lies in the awakening of dormant threats across Europe—sleeper cells stirring to life. These hidden dangers add layers of complexity to an already volatile situation, weaving a tapestry of engineered chaos that threatens to unravel the very fabric of our society. The storm is coming, and we need to prepare for it. If you think stocks are cratering now, just wait until Iran closes the Strait of Hormuz, sending energy prices skyrocketing globally. Food prices will explode. Businesses will be hit by mass bankruptcies. Russia will receive a windfall of energy profits. Most of Western Europe will be plunged into an economic Dark Ages. And TRILLIONS of dollars in global assets will evaporate as global de-leveraging runs its course. Despite all this, nearly every US lawmaker continues to applaud war criminal Netanyahu who is trying to start a regional war with Iran and Lebanon, then drag the US into the conflict. Our

(western) world is run by insane, sociopathic, pathological lunatics. **Prepare accordingly**...Much is happening, so I have assembled some of the most pressing global issues...": - Includes 6.47, .15, .49, .28 (twice), 1.59, .17, .41, .24, .09, .31, .29, .32, .33, .40, .32 min/sec vids:

(Excerpts:) "Was a DEW used to target Jasper because the Premier of Alberta dared to say no to the nefarious plans of Prime Minister Trudeau, and his global elite handlers, to put an end to the production of oil and gas in Alberta?

Compelling evidence suggests that the devastation of Jasper on July 24 was caused by a direct energy weapon (DEW)...Close examination of photos of the horrific devastation of Jasper, obtained from CBC News, reveals a chilling similarity to photos taken at Lahaina, Maui in August 2023 [after its DEW attack]...Even more shocking is the similarity between the 'selective damage' in Jasper and that visible in the streets of New York City after 9/11...Was the destruction of a large portion of Jasper a punishment for defying the plans of the globalists? Was it a demonstration of the immense power held by the globalists as they seek to fulfill their agenda for global domination and control?" - *"And he doeth great wonders, so that he maketh fire come down from heaven on the earth in the sight of men, and deceiveth them that dwell on the earth by the means of those miracles which he had power to do..." (Excerpts:) "The ICJ [International Court of Justice] Judgment of January 26, 2024 assigns the Netanyahu government representing the State of Israel – accused by the Republic of South Africa of genocide against the People of Palestine – with a mandate to 'take all measures within its power' to 'prevent and punish' those responsible for having committed 'Genocidal Acts'. (under Article IV of the Genocide Convention) Sounds contradictory? What the ICJ judgment intimates – from a twisted legal standpoint – is that [it]...provides the Netanyahu government with a pretext to 'prevent and punish' Palestinians for allegedly having committed genocidal acts against Israelis; i.e. Netanyahu can not 'Prevent and Punish himself'...the Judgment – which is full of contradictions – is ultimately supportive of the Likud government...no ceasefire was declared by the ICJ with a view to saving lives." - *Read on to grasp the farcical function of the ICJ! It will supply AI with the power needed to surveil**

everyone 24/7" - Is the price of power going up in your neck of the woods? No doubt this is one of the reasons, if not the reason, why!

(Excerpts:) "The real reason for needing upgraded capacity is the expected exponential growth in electricity demand stemming from the massive new data centers being built all over the country to support the growth of generative AI. AI uses an incredible amount of electricity to collect, process and store information 24/7 in real time. These AI data centers also require a tremendous amount of water resources to keep the computers cooled. This is part of the cost of living in the growing global AI-powered surveillance state. And it's a cost almost nobody is talking about. Not only will we lose all privacy. We will pay for our own enslavement in the form of higher taxes and utility bills." - Includes 35.42 min vid: <https://leohohmann.substack.com/p/biden-admins-22-billion-for-power>

But now a trip to the dentist could get a whole lot scarier as an AI-powered robot completes its first unsupervised procedure on a live human." - *This oughta do the trick in getting folks to give their personal oral hygiene the attention it deserves, in terms of diet and daily brushing/flossing. Water is also an under-used but must-use weapon for good oral health! Water is not only great for your oral health by doing away with left-behind food, but it can also help get rid of cavity-causing bacteria. • **"UK Prime Minister To Create A 'Standing Army' To Deal With The 'Far-Right' - Plus there will be a crackdown on online freedom of speech"**

(Excerpt:) "These protests will die down sooner or later but the fundamentals that caused them will remain. Firstly, the West is stagnating economically, resulting in less wealth to share around. The monied class know how to game the system, meaning that more of the wealth that is created, goes straight to them, bypassing the poorest in society. Furthermore, to keep prices lower for the middle class, immigration has been purposefully ramped up and this will only continue due to falling fertility rates and demographics. Secondly, a lot of the asylum seekers fleeing dangerous countries are doing so due to wars instigated by the West - Libya, Afghanistan, Iraq, Syria etc. And thirdly, due to the huge immigration numbers, it has become less necessary to integrate into the community. There is no need to learn English or understand the local culture. As a result, a number of different communities, each with their own culture, language and morals co-exist in the same towns. Combined with poverty, this inevitably leads to conflict. This division is being used by others for their own goals." - *In other words, by the delites for their new-world order goals!*

(Excerpts:) "It's not a new fight, it is as old as civilisation. How long are some people going to vent the same, tired and pointless rage before they realise that whenever they destroy, they serve the enemy. What part of human history do the violent not understand ...Rioters assist the state. Riots are the acts of the gullible, the manipulated and the lost...our enemies are the people who sold you the Covid lie, the people telling you digital ID and central bank digital currency are 'necessary'...the planet is boiling...you need to give up more rights, accept the loss of more freedoms and pay more tax to 'save the planet'...you are under attack by terrorists and dangerous extremists...submit to more censorship and more state control to 'stay safe'. There exists a tiny clique of people who are above the law. They have the resources to buy the law and they make the law. Not your neighbours, irrespective of your differences. Those above the laws they make up and enforce upon the rest of us are the enemy of us all, not just you. These people, these oligarchs and political puppets, these technocrats, who

protect their interests and covet power for their own ends, they are your enemy. They collectively constitute the epistemic authorities and an establishment led by a so-called economic elite. They are the state. The state has always been our enemy and it will always be our enemy...Your violence won't work. It never works. Violence truly is the language of the oppressor and it is always wrong. While you use violence, you won't win anything and your losses will forever mount. Try to understand, in order to win you must reject violence. This is not the cowards choice, it's the smart move if you genuinely want to defeat your true enemy...cease our endless bickering and recognise the overarching necessity of working together.":

(Excerpts:) "Intuition is the ability to understand something instinctively, without the need for conscious reasoning...that guides you to make decisions and form judgments swiftly. Although this process may seem random, it's based on your personal accumulated experiences and knowledge that your brain processes subconsciously. If you learn how to embrace it, intuition can play a significant role in how you interact with and react to the world, even if you're not fully aware that it's influencing any given moment...Don't let other voices or doubts interrupt or corrupt your 'thoughts'. They are not your thoughts. They are the incoming feed that is telling you what to do." - *"But the Comforter, which is the Holy Ghost, whom the Father will send in My name, he shall teach you all things, and bring all things to your remembrance, whatsoever I have said unto you. > ✝️ **"That's What Christians Do Now":**

(Excerpts:) "One of the greatest frustrations in my life is that our pastors have so much power to direct and lead the public discourse, but they refuse, preferring instead to be well-liked and popular among the people. Today we have a raging LGBTQP+ movement, and we may disagree with it, but don't dare say so for fear of being thought of as 'bigoted'. Today we have hard-core pornography in our schools, pushed by the teachers, and few will show up at a school board meeting to object, or dare speak against it. Today we have mentally ill people who can't even say for sure whether they're male or female, and laws have been made to punish those who would speak truth about it. Today we have a federal government beast system that's more corrupt than any government in history. It's clearly wicked and evil, yet we still obey it without question. There are ministries out there that really do teach and train people to be bold, courageous

leaders wherever they are, whatever they do, however old or young they may be. But these ministries are not located in your local church. But as an individual, you can connect with them, whatever your particular area of interest or calling of God may be. There are ministries saving unborn babies, ministries to those in prison, ministries for those trapped by addiction, ministries to the victims of the LGBTQP+ and 'transgender' movements, ministries for families and those with troubled marriages, ministries to rescue children and adults who are victims of sex trafficking and satanic ritual abuse, and so many more. But they're not in your church. Wherever God is calling you to serve in His kingdom today, there are many excellent organizations out there that you can join. They'll train you for the work of the ministry, lead you out and show you how to do it. You can have a life-changing and soul-saving ministry work of your own, but you'll need to do the work to learn how; and you'll have to step out of your comfort zone, muster the courage to engage with those who will not agree with you, and get busy. But the time is now. When you stand before Jesus at the end of this life, I truly hope you'll have more to say than, "I went to church. The pastor preached. I went home." You were saved to serve.":

>  **"Worshipping Madness: The New World Order Demands A New god" - Don't miss this one in full!**

(Excerpts:) "...the opening ceremony of the Paris Olympics. Did we witness a mockery of The Last Supper or was it, as claimed, the Feast of Dionysus *[the blue being at the ceremony]*?...Dionysus (known as Bacchus to the Romans) was

the mythological Greek god of wine and revelry...Dionysian festivals...involved, among other things, drunkenness, sexual immorality and all kinds of degrading practices...Jim Morrison was *[claimed to have been]* 'a modern Dionysus in the guise of a rock star, a deity who inspires joy and madness'. Ironically, Jim Morrison died in Paris. It is said that Morrison was heavily influenced by the writings of Friedrich Nietzsche. This would make sense given that Nietzsche was also fascinated by Dionysus. To Nietzsche, Dionysus represented rage and hedonistic disinhibition, as opposed to the moral restrictions of Christianity...The presence of Dionysus at the opening ceremony wasn't just a bit of fun...It sent a deliberate message: the new world order demands a new god. To them, the future of the world lies with gods like Dionysus, not the God of Abraham, Isaac and Jacob. To them, the future of the world involves hedonism and sexual immorality, not holiness and righteousness. To them, Christ is out and Dionysus is in...Debaucherous mankind may be planning a new world order built upon a foundation of sexual immorality and perversion...The message from Paris was received loud and clear: Christianity is not welcome in the new world order. We can only pray that God's message will be received loud and clear also: the unsaved will not be permitted in God's eternal kingdom. There is only one way to get there and Jesus said it very clearly in John 14:6: 'I am the way, the truth, and the life. No one comes to the Father except through Me.'":

- **"From Killing The Unborn To Mutilating Children, With So Many Courts Caught Up In The Luciferian Scheme, We May Have To Wait For The Heavenly Court Of Justice To Bring The Hammer Down"**

(Excerpts:) "Today's wanna-be kings, or gods, the Luciferians, who hope to live forever with the help of artificial intelligence, are incredibly delusional. That said, they are also incredibly dangerous as they pursue their lust for power and control. Lucifer deceived Adam and Eve, and his followers today use deception and lies to attain their ends just like their master. As Lucifer hated God and His creation, the Luciferians of today are no different. It is worthy of serious consideration that the COVID-19 Plandemic was, and still is, a Luciferian project to kill and maim as much of the world's population as possible. It is only the honorable and brave [*and God-fearing*] scientists, medical health providers, independent journalists, podcasters, attorneys, and everyday people who are speaking out publicly that we know there is a concerted effort to kill off as many of the human race as possible. If that were not the case, the shots would have been pulled immediately after problems were made known. They weren't. The statistics don't lie!...Follow the [*Beelzabub*] breadcrumbs. [And the money!]...Unfortunately, with so many courts caught up in the Luciferian scheme,

we may have to wait for the Heavenly Court of Justice to bring the hammer down. But don't lose heart, because God will not be mocked and unrepented evil will face the ultimate sentence of eternal death in the Lake of Fire. The Luciferians want to live forever, but the Lake of Fire will give them eternal death forever where they will want to die, will beg to die, and can't. Give that a second thought. The Luciferians want life eternal but will end up with death eternal! It doesn't matter that they don't believe in the Bible. God's Word stands forever." - *"He that hath small understanding, and feareth God, is better than one that hath much wisdom, and transgresseth the law of the most High."* (Ecclesiasticus 19:24):

Online it states about the company's name, "Nvidia initially had no name and the co-founders named all

their files NV, as in 'next version'. The need to incorporate the company prompted the co-founders to review all words with those two letters, leading them to 'invidia', the Latin word for 'envy'." Couple "envy" with "godlike", and who does that sound like?! "How art thou fallen from heaven, O Lucifer, son of the morning! how art thou cut down to the ground, which didst weaken the nations! For thou hast said in thine heart, 'I will ascend into heaven, I will exalt my throne above the stars of God: I will sit also upon the mount of the congregation, in the sides of the north: I will ascend above the heights of the clouds; I will be like the most High.'" I am heartened by seeing so many in the broader Christian, Jewish and interfaith communities step forward to criticize this improper use of scripture. But I am also disturbed by the silence or even approval I see among other people who claim Jesus as their Lord...you and I are called to be vigilant. To be critical thinkers. To raise our voices against any idols placed in front of us by any human authority. Because we do not believe that human leaders are the ones who we ultimately answer to. > ⚠️ • **"Censorship on Steroids: Truthteller Alert"**

(Excerpts:) "It turns out that the same power-broking controllers that systematically bribe, blackmail and extort virtually all major government puppets in the world, invent divide and rule enemies to make nonstop war, impose bioweapon pandemics with mandated lockdowns and deadly bioweapons masquerading as vaccines, collapse national economies, cut off essential food and fuel supplies (to render housing, food and fuel unaffordable to an increasing number of people on our planet,) are also responsible for the tsunami of censorship on the internet...on an unprecedented scale, globalists are now embarking on the modern equivalent to book burning, aggressively censoring internet access to the truth by using AI logarithms to silence the truthteller community attempting to inform the global masses of the latest destructive antihuman developments rapidly unfolding in our perilously troubled world...Today's information war against truth is multipronged, and pervasively far reaching. This article is an emergency information alert attempting to inform consumers/users of alternative news outlets and social media platforms whereby an increasing percentage of people that no longer use mainstream media for its proven false propaganda and mass manipulation...Younger generations especially have turned to independent alternative news and less censored social media platforms for a more accurate account of news and information outflow

today...Our freedom and liberty are under unprecedented attacks by the growing authoritarian tyranny weaponized against today's human population.":

- **"Schools to 'arm' pupils against falling for dangerous conspiracy theories by teaching them how to spot 'putrid' fake news and extremist content in a curriculum revamp following riots"**

(Excerpts:) "It is claimed the planned changes will help children identify all extremist content, including far-Left conspiracy theories and religion-based propaganda. For instance it could involve using English classes to dissect newspaper reporting, examining their style and use of language compared to fake news outlets. It is thought that would teach children to differentiate between real journalism and propaganda, by looking out for signs such as bias and hyperbole in the latter. In computer lessons, students are to be taught how to identify unreliable sources and websites by their designs." - *Will Christian writings, rites, conversation, symbols, songs and the Bible be considered dangerous? "The time cometh, that whosoever killeth [reports on] you will think that he doeth God [the Government] service."* (Jn. 16:2b):

(Excerpt:) "And do you honestly trust the elite class—after things like Brexit, the Covid-19 lockdowns, their reaction to Islamist terror, and open hostility toward anybody who dares to question things like mass immigration—to make these kinds of judgements? Personally, I suspect all this is just the start of a much bigger plan to shut down debate about issues the elite class does not want to discuss, or issues on which it holds very different views to those that are held by much of the country.":

HELLO? We are constantly watching war crimes piled on war crimes and the world's chief human rights officer brushes them off? The existence of these hypocrites provides everyone else cover, saving our governments from having to respond.":

(Excerpts:) "It will use 'machine-learning algorithms' on past data to predict the future, the legislation says, alongside deploying facial recognition software to identify suspects. > 🔥 **"What Is AI Really? Digital Illusions, False Promises And Mass Reeducation"** - Includes 41.22 and 2.35 min vids. *Definitely worth reading in full!*

(Excerpts:) "AI developers often claim that once an AI is created they don't really control what it does and how it grows...AI can definitely be controlled, or at least molded by coding to promote whatever propaganda the programmers want it to promote. There is no such thing as an autonomous AI; there is always an agenda...globalists want the proliferation of AI because they know that people are lazy and will use the system as a stand-in for individual research. If this happens on a large scale, then AI could be used to rewrite every aspect of history, corrupt the very roots of science and mathematics and turn the population into a drooling hive mind; a buzzing froth of braindead drones consuming every proclamation of the algorithm as if it is sacrosanct...AI does not need to become sentient or wield an army of killer robots to do great harm to humanity. All it has to do is be convenient enough that we no longer care to think for ourselves...you assume you're gaining knowledge from a wizard when you're really being manipulated by globalist [*Satanic*] snake oil salesmen.":
