The vicious South American gang, best known for selling women and children into sex slavery and exploiting its own countrymen, most recently made headlines in Aurora, Colorado, where armed thugs were seen storming an apartment complex residents say they have taken control of." - Includes 4.53 min and .45 sec vids:

(Excerpts:) "While the guards prohibited him from watching television, listening to the radio or reading books, they allowed Lim to have one Bible, something the pastor likened to 'the joy of finding living water in the desert'. Lim passed the days by praying and reading Scripture while his captors attempted to find information about him; however, all they could find were the contents of the pastor's sermons. After the prison guards heard the sermons, Lim said he witnessed a notable change in their behavior toward him, including starting to bring him more food. The change continued for three more years into the pastor's imprisonment, and some of the guards even began seeking the pastor out for family counseling. From the highest to lowest-ranking officers, he said he noticed the change in almost 'everyone'. 'Seeing this change, I realized more clearly that faith comes from hearing, and hearing through the Word of Christ', Lim said." - *Amen! PTL! Kissinger, of course, is dead, having passed his mantle and baton to fellow Trilateral Commissioner Eric Schmidt. They argue that 'in the Age of AI, humanity will change' and that 'we will need a fundamentally new form of control'. In the video below, the authors state, 'I believe we are heading into a new age where our perceptions of reality will have changed. We know that they have a different perception of reality. They understand it differently. What we don't know is, is there a different reality or are they perceiving the current reality differently?' I have suggested in the past that AI will collapse reality for billions of people on the Earth...a simulacrum is

anti-reality[-christ!?!]. This is not a paradigm shift of reality. This is not a 'new reality'. This is not reality, period. Unfortunately, billions of people risk being captured by it. (Excerpts:) "Chinese are moving to Africa in record numbers while Africans are leaving as fast as they can. What we're looking at is the biggest migration since the barbarian invasions of the Roman Empire. Millions of Africans are trying to get into Europe...Hundreds of NGOs are encouraging Africans to get across the Mediterranean to Europe...It's supposedly official Chinese policy to migrate about 300 million Chinese to Africa in the years to come. They're employed in building roads, railroads, ports, mines, and other infrastructure, partially driven by the Belt and Road Initiative. The Chinese are also lending billions to African governments...I expect the Chinese are going to want the money they loaned to the Africans back, with interest. If bribing or intimidating political leaders proves ineffective in getting it back, it's possible that they'll put soldiers' boots on the ground...It will be interesting to see what happens when a couple hundred million Chinese, who will control the economy, are living with a radically expanding native African population.":

(Excerpts:) "In 2007 the movie 'Children of Men' starring Clive Owen and Julianne Moore was released. The story was set in the year 2027. It portrayed a chaotic world in which women have somehow become infertile and a former activist agrees to help transport a miraculously pregnant woman to a sanctuary at sea to try to preserve the human race. It is a world where almost no women could become pregnant. And that was portrayed as happening in 2027, only 4 years from now. At the current rate of human fertility decline that movie could be a prediction soon fulfilled in real life...Human fertility is plummeting way below replacement rates... the damage that the COVID shots have done on women's reproductive health may not be known because of the cover-up by government agencies...Until you come to terms with the fact that the oligarchs, like the Club of Rome (with membership including Henry Kissinger, Bill gates, George Soros, Bill Clinton, and David Rockefeller), are out to mass depopulate humanity you will not be able to get your mind around this...the last book of the Bible, prophetically describes the situation in the last days of man on earth where God judges the world. It tells us that a third part of the trees and grass are burned up (Rev.8:7), a third part of the creatures in the seas died (Rev.8:9), a third part of the waters and rivers were poisoned and many men died (Rev.8:10-11). Could it be that the conditions that these events occur under come from the activities of man – geoengineering and industrialised scale use of chemicals and vaccines? Chemtrails with toxic chemicals cause poisoning of the atmosphere and waters of the earth, causing millions of creatures to die. These activities also result in drying of forest areas which results in wildfires like we never have seen before. Add to this all the other toxins released into the food supply through mass spraying of pesticides (glyphosate etc.), overuse of antibiotics, vaccines and other medicines and chemicals, which end up in the ground water, the rivers and the oceans, and we not only have an environmental catastrophe but a poisoning of all species. This poisoning also adds to the destruction of human fertility. If this is what is happening now, the good news is that God the Creator will protect His own. Those with the seal of God in their foreheads (Rev.9:4) will not be touched. Never lose hope! Jesus Christ our God is in control and prayer changes things.": <https://bibliscienceforum.com/2023/09/05/are-we-the-last-generation/>

>  **"The Depravity Of The Zionist Mind"**

(Excerpts:) "America's submission to a foreign government (Israel) could not have happened without the dominating influence of America's evangelical

churches over the last 70+ years, who have been preaching and proclaiming—from pulpits, schools, colleges, on radio and television, in rallies, newspapers, magazines, periodicals, etc.—that the murderous and idolatrous State of Israel comprises God's chosen people and that the land of Palestine is the 'Promised Land' for the Zionist state. This erroneous prophetic doctrine was popularized at the beginning of the last century by the Scofield Reference Bible. Call it whatever you like—Scofield Futurism, Premillennial Dispensationalism, Christian Zionism, etc.—it is the root from which all things Zionist have grown in these United States. And it is destroying this country!...Israel's maniacal, murderous hearts are eerily reminiscent of the hearts of the Roman Caesars—especially beastly Nero, Vespasian and Titus—before and during the destruction of Jerusalem in 70 AD. What the Zionist Jews are doing to the Palestinians today is what the Roman Caesars did to the early Christians and to the Jewish inhabitants of Jerusalem and Judea and what the temple Jews did to the Christians before that. In other words, Zionist Israel is a modern beastly system...Evangelicals that do not see the grotesque evil of Zionist Israel are blind. More than that, they are willingly blind. They don't want to see the truth. As a result, 'the salt [has] lost its saltness' and will be 'trodden under the foot of men'. This refers to governmental tyranny. And the road to governmental tyranny in these United States is the road that evangelicals who embrace Christian Zionism are paving.":

Think and do and say what they want; the devices of the Harlot will come to nought! "And after these things I saw another angel come down from heaven, having great power; and the earth was lightened with his glory. And he cried mightily with a strong voice, saying, 'Babylon the great is fallen, is fallen, and is become the habitation of devils, and the hold of every foul spirit, and a cage of every unclean and hateful bird. For all nations have drunk of the wine of the wrath of her fornication, and the kings of the earth have committed fornication with her, and the merchants of the earth are waxed rich through the abundance of her delicacies.' And I heard another voice from heaven, saying, 'Come out of her, my people, that ye be not partakers of her sins, and that ye receive not of her plagues. For her sins have reached unto heaven, and God hath remembered her iniquities. Reward her even as she rewarded you, and double unto her double according to her works: in the cup which she hath filled fill to her double. How much she hath glorified herself, and lived deliciously, so much torment and sorrow give her: for she saith in her heart, "I sit a queen, and am no widow, and shall see no sorrow." Therefore shall her plagues come in one day, death, and mourning, and famine; and she shall be utterly burned with fire: for strong is the Lord God who judgeth her. And the kings of the earth, who have committed fornication and lived deliciously with her, shall bewail her, and lament for her, when they shall see the smoke of her burning, standing afar off for the fear of her torment, saying, "Alas, alas, that great city Babylon, that mighty city!" > ⚠️ *Does this conference, in the heart of modern Babylon, mark the unveiling of the beast system, and the nations of the world affirming the supremacy of the system?*

**"U.N. Summit of the Future will kick off Sept. 20-23 to build framework for new one-world 'system' - This conference in the heart of modern Babylon marks the unveiling of the beast system, and the nations of the world affirming the supremacy of the system. - My gut tells me this Pact for the Future will be a pact with the devil."**

(Excerpts:) "Leaders from UN member states will attend the summit to reaffirm their 'unwavering commitment' to the UN, its charter, its principles and its Agenda 2030 Sustainable Development Goals. They will vow to submit to all UN agencies including the World Health Organization and the International Court of Justice...Buried deep in the bowels of this document is this little gem, requiring member states to embed UN 'agreements and resolutions' into their national laws: 'Member states will deepen United Nations' engagement with national parliaments in United Nations intergovernmental bodies and processes, in accordance with national legislation, including through building on the efforts of the United Nations and Inter-Parliamentary Union to engage parliamentarians to maintain support for the implementation of relevant UN agreements and

resolutions.'...they're talking about scrapping the current world order based on sovereign nation-states and switching over to a new one — one that will be fully integrated under a centralized power structure and fully digital for maximized control of the masses...Everyone will be expected to have a biometric digital ID that marks them not just as citizens of their individual country but as global citizens. Dissident opinions or unapproved expressions of reality will be dismissed as 'misinformation', 'disinformation' or 'malinformation' and memory-holed. Perpetrators of such unapproved information will be fact-checked and punished by the system, which will be operated and enforced by the most efficient of means — artificial intelligence. Punishments will include being locked out of one's bank account, being unable to make certain purchases, unable to get on a plane or subway or drive on public roads. This is the future according to the world's self-appointed overlords at the UN...Trust me, nothing good will come out of this globalist conference in New York.":

### > "Three New Pacts to Be Approved at the UN Summit"

(Excerpts:) "...clear attempt by the UN to control a sector, mostly built by private companies at great speed, to inject its view and reserve its own driver's chair to manage the digital revolution en marche. It somehow manages to link the implementation of the SDGs [sustainable development goals] to its ability to control and implement AI, and exert governance over the Internet, digital public goods and infrastructure, and AI too. 'Pacts', 'Declarations', and 'Compacts' do not have binding force. They are considered 'gentlemen's agreements', and as such, might be carelessly negotiated...they constitute a dangerous practice at the UN. One built after another, with multiple cross-references in different sectors in variable forms (policies, guidelines, declarations, goals, etc.), which present a network of interlocking strands extremely difficult for both scholars and country representatives to trace, verify, and analyze them all. They should be seen as 'soft laws', which surprisingly can be hardened up quickly by the UN into binding texts when needed, avoiding the detailed negotiation and clarification that would otherwise accompany the development of enforceable texts. The UN system commonly uses these voluntary texts to call for funding, build projects and programs, and develop administrative task forces. Such instances are seen clearly through the three documents of the Summit. Large bureaucracies do not, by nature, shrink themselves. They are living off the money earned by others,

and their logic is merely to expand and make themselves look irreplaceable. The more people and teams employed to regulate, monitor, and direct the lives of 'The Peoples', the less we will actually be free, and the more the world will look like the totalitarian regimes the UN was supposed to push against. These texts, if approved, should be seen as a pure distraction from the serious commitment to implement the SDGs by 2030. They demonstrate the inability of both States and the UN to implement these goals, burying this fact in a diarrheal cascade of unimplementable gobbledygook. Worst, they also contain wording to amplify the erosion of post-World War Two human rights, removing the sovereignty and sanctity of 'We the Peoples' to a level at, or below vague concepts whose definition is at the will of whoever wields power. No one will hold world leaders accountable to these promises, but they broaden the burdens of future generations to the benefit of the UN system's new-found partners and friends. As say the French, "les promises n'engagent que ceux qui y croient" (promises only bind those who believe them). But some 8 billion people at the bottom still have to pay for a few technocrats at the top to write, negotiate, and approve them all." - Audio version available at link below.:

A strange prediction for October 2024" - *"And there shall be signs in the sun, and in the moon, and in the stars; and upon the earth distress of nations, with perplexity; the sea and the waves roaring; men's hearts failing them for fear, and for looking after those things which are coming on the earth: for the powers of heaven shall be shaken. When ye see these things come to pass, know ye that the kingdom of God is nigh at hand. But as the days of Noah were, so shall also the coming of the Son of man be. For as in the days that were before the flood they were eating and drinking, marrying and giving in marriage, until the day that Noe entered into the ark, and knew not until the flood came, and took them all away; so shall also the coming of the Son of man be." But there may have been other eruptions since then which caused mud floods. This regular event throughout history explains why doorways are on upper floors and, during city upgrades, that floors under the ground are commonly found. You could call this the mechanics of a mud flood, and as all chapters of history are built upon the last civilisation, liquefaction events may explain why. These graveyards pose no security threat to the IDF or to the Israeli state. They're just cemeteries...other cemeteries in Gaza, that contain the bodies of Christians and Jews, have not been disturbed, which suggests that the policy is directed at a particular ethnicity, Arabs...the destruction of cemeteries is a clear violation of international law under the Rome Statute...It's an act of pure barbarism bordering on criminal psychoses...Israel's destruction of Palestinian cemeteries is a critical part of the ethnic cleansing campaign the goal of which is not simply to physically remove the native population but to expunge any trace of their historic existence. *They are literally luring children into the Temple of Pharmakeia\*!*

*\*Directly from Medieval Latin *pharmacia*, from Greek *pharmakeia* "a healing or harmful medicine, a healing or poisonous herb; a drug, poisonous potion; magic (potion), dye, raw material for physical or chemical processing." Hecate is the Greek goddess of witchcraft (or more specifically, *pharmakeia*), the crossroads, the night, the moon, ghosts and necromancy.*

Part 2 of 2

"In classical Greek *pharmakeia* referred to the use of drugs whether for medicinal or more sinister purposes, e.g., poisoning. In the New Testament, however, it is invariably associated with the occult, both here in Galatians [5:20] and in Revelation, where it occurs twice (Rev.9:21; 18:23). English translations usually render *pharmakeia* as 'witchcraft' (KJV, NIV) or 'sorcery' (RSV, NEB). These words correctly convey the idea of black magic and demonic control...In New Testament times, *pharmakeia*, in fact, denoted the use of drugs with occult

properties for a variety of purposes including, especially, abortion." (George, Timothy. "The New American Commentary: Galatians". Edited by David S. Dockery, vol.30, Broadman & Holman Publishers, 1994, p.394.)

Work with foreign allies and multilateral institutions to keep the story straight around the world. A global censorship agenda ensures that pesky facts don't slip through the cracks, no matter where they originate...This latest batch of documents reveals a troubling trend. What started as a government push to counter supposed misinformation during the pandemic has spiraled into a global movement to control speech on an unprecedented scale...It's a strategy designed to slowly tighten the reins on free speech, all while claiming it's for the greater good. The chilling takeaway is this: as governments and tech companies work closer together, censorship becomes not just a possibility but a well-oiled machine. This international alliance, driven by countries like the UK and enabled by the US, is setting the stage for a future where your right to speak freely is increasingly dependent on whether your speech aligns with what the government deems acceptable.
