The intro says (excerpts:) "Richard had a rare and profound insight into how God desires for us to view our finances, after practicing decades of sacrificial giving. This video was filmed last year and not only captures the testimony of a man joyfully surrendered to God, but also illuminates the importance of thoughtfully stewarding what we've been entrusted with."*

Those who fail to register their fingerprints by the set deadlines will face consequences such as suspended government services and frozen bank accounts. It is claimed that the reasons for enforcing the registration of digital biometrics are to enhance security and address dual nationality issues. However, this initiative aligns with global trends in biometrics and the sharing of our data with selected agencies. It's no coincidence that at the same time, the United Nations is pushing for a Global Digital Compact to be adopted by 193 countries so it can play a significant role in the global governance of artificial intelligence, the Internet, digital public goods and digital infrastructure. Kuwait is preparing to suspend government services for people who fail to register their fingerprints by the set deadlines, 30 September 2024 for Kuwaitis, 30 December 2024 for expatriates...They are centralising our data and access to it for global centralised control. September 22 and 23 are reserved for 'debating' this topic to which in anticipation several governments, including Canada, have already given their approval. It is a plan for a borderless digital control in the future. In other words, towards a digital gulag — the first step towards a One World Order....Every country in the world has fallen prey to a deception, and the deception is that it has treaty obligations with the United Nations, and because of those treaty obligations, they must do what the United Nations says they must do, in terms of health...land use...migration...economics through the World Trade Organization, and the World Bank, and the International Monetary Fund...It's all a lie. It's a deceit...the United Nations is a private country club, both in the sense of the old boys sitting around having fun and deciding what happens next, and in terms of an association of countries. That's all that it is. • \*The Greek word used here for "great" is *μεγάλα* (*megala*), meaning "large, great, in the widest sense". Widest, as in global?

• \*\*The Greek word used here for "**signs**" is *σημεῖα* (*sēmeia*, derived from *semaino*), meaning "an indication, especially ceremonially or supernaturally". Technologically contrived and deceitfully designed "supernatural" events?

• \*\*\*The Greek word used here for "**wonders**" is *τέρατα* (*terata*), meaning "A wonder, portent (1. a sign or warning that a momentous or calamitous event is likely to happen. 2. an exceptional or wonderful person or thing.), marvel. Of uncertain affinity; a prodigy or omen".

*So, given the above, how about this: "For there shall arise false Christs, and false prophets, and shall shew, in the widest sense possible, supernatural, not-to-be-relied-on yet exceptional events or persons to which one feels attracted to and/or sympathy for and/or are hard to resist." (Excerpts:) "In the shadowy corridors of power, a sinister plan is unfolding. The global elite, driven by greed and control, along with the most corrupt political leaders, are actively trying to escalate the world into the unthinkable: World War III. To them, this catastrophic event is not the end of humanity—it's their grand opportunity to reshape the world in their twisted image. They see the war in Ukraine as merely the beginning, a spark that will ignite a much larger conflict between East and West. This isn't about protecting Ukraine or standing up to Russia—it's about destabilizing the world, collapsing economies, and

consolidating their power over broken nations. In their vision, war is the ultimate tool for mass manipulation, fear, and control. For the elites, the devastation of World War III is not a disaster. It's the perfect storm to establish a new global order, one where they reign supreme and every citizen is reduced to a pawn in their game. Be warned: Ukraine is just the start. The real nightmare is yet to come, and the globalists won't stop until the world burns at their feet...World War III is a win-win for the globalists—so long as it doesn't escalate into a nuclear catastrophe that wipes out their carefully constructed surveillance states...dangerous game of provocation...the globalists can't allow peace—they need this war to spiral out of control. Ultimately, the elites don't want peace. They want destruction. They want to ensure that the war becomes irreversible, that there are too many civilian casualties for diplomacy to be an option.
