• **"Trump very proud of warp speed, the biggest killer of Americans in history"** - Includes 1.46, 41.38 min vids.

(Excerpts:) "Big pharmaceutical executives have sought to leave their mark and cozy-up to President-elect Donald Trump in the final weeks leading up to his inauguration, including the likes of Bill Gates, along with others such as Pfizer CEO Albert Bourla (who met with Trump to discuss the role of his company with the Trump administration and who worked closely with the Trump administration on the development of a Covid-19 vaccine), who has reportedly built a good rapport with Robert F. Kennedy Jr. as well, who is often misappropriated in mainstream media as being 'anti-vax'. On January 17th, the Wall Street Journal published a clip from a longer interview that discussed a recent 3-hour meeting the multibillionaire philanthropist *[Gates]* had with the former President at his Mar-a-Lago estate in Florida. The meeting also included another member of Gates' team and Trump's incoming Chief of Staff, Susie Wiles *[See KU162/9 Nov for more about wiley Wiles!]*...I think I can now safely guarantee that another plandemic is around the corner, relatively very soon; all signs pointing towards it being 'bird flu'; and these liars and golden calves will be the ones to sell it to the masses again like once before. It's a perfect setup, using the hypocrite RFK Jr. as a red herring to con Americans who genuinely want cleaner food and less big-pharma overreach (like me), to then sell you on the latest vaccine you need. Sure, maybe this administration might distract Americans with banning one or two chemicals in our food, if that, but will then ensorcell those same beguiled Americans into accepting the latest gene-editing clot shot that will stop your heart, as this administration ironically goes about destroying the food supply even more, and consolidating farms in the process. Galatians 3:1 — 'O foolish *Galatians* [Americans], who hath bewitched you, that ye should not obey the

truth, before whose eyes Jesus Christ hath been evidently set forth, crucified among you?":

• **"Look at Trump 2.0 in 2025: Zionist Expansion and More Vaccines" -**

Includes 5.51, 9.52, 5.05, 3.50, 1.51 min vids.

(Excerpts:) "The two biggest and most immediate dangers to the American people, and to the world, from my perspective under Trump 2.0, are an expansion of Zionism, and continuing to enrich Big Pharma to produce more vaccines and dangerous drugs to unleash on the American people...While it has been reported that Donald Trump converted to the Jewish religion during his first presidency, this would be the first time Americans have actually elected a Jewish president, although Trump has been very careful to not reveal his conversion as he could not have come into power without the Evangelical Christian Zionists, although it is not clear that he would lose support from these Christians even if he did admit that he is now a Jew...During Trump's first presidency, he claimed he did more for Israel than any other U.S. president, because the U.S. was the first country in the world to move their embassy from Tel Aviv to Jerusalem. But according to the Jews, he did not 'finish the job'. To finish the job, they are looking to Trump to help build a new 3rd temple in Jerusalem, which can only happen if the Al-Aqsa Mosque, which currently sits on that site and is considered one of the most holiest sites in Islam, is destroyed, which would unleash an all out war in the Middle East...At the end of October, 2024, it was widely published in the Israeli media that a new 'Ark of the Covenant' was built for a new Jewish Temple. It was referred to as a 'replica', but many claimed it was much more, and that it gave Israel a military advantage over their enemies. The new Ark was first brought to Donald Trump at Mar-A-Lago, before it was shipped to Israel. New 'temple coins' to be used in a new 3rd temple have already been minted with Trump's image, along with an image of King Cyrus, the King of Persia who helped the Jews reconstruct Solomon's temple in Jerusalem back in the 6th Century B.C....a Fox News host with relatively little military experience, Pete Hegseth, was nominated as Secretary of Defense. He was probably the most hardcore Zionist available, and the Zionist lobby has probably pushed hard for his confirmation, as it gives the Trump Administration total control over the military to ensure Israel's goals are met, and keep in line U.S. military leaders who do not support the Zionist agenda. One cannot serve in Trump's

administration if one does not support Israel...Pro COVID-19 Vaccine Proponents are in Trump's Cabinet...As I reported during Trump's first presidency during COVID, Trump gave more money to Big Pharma during COVID than probably all previous presidents in U.S. history COMBINED...The sheer glee and giddiness I am observing today in the Conservative Christian Media over Trump's inauguration is by far the sickest, most obnoxious thing I have ever seen in my entire life...**They are committing idolatry, and they have sold their souls to Satan for what they believe is a man who is going to give them the things they desire, which is the exact definition of 'idolatry', which is desiring the things of this world that only God can supply...**God has given me clear guidance in a couple of different ways, and one of those was in my recent study of the Gospel of Luke, and the account of the ministry of John the Baptist, who was the cousin of Jesus Christ, and whom Jesus testified was the last of the line of Old Testament prophets, and the greatest man to have walked the earth...John rebuked Herod the tetrarch because of Herodias, his brother's wife, and all the other evil things he had done. (Luke 3:19) The ruling religious leaders of John's day were the members of the Sanhedrin, but the political leader was Herod, and John was led by the Holy Spirit to reveal the sins of this political leader of the Jews to the public as a warning. The result was that John was put in prison, and eventually beheaded, but his mission was already complete, which was to prepare The Way of Jesus Christ, the Jewish Messiah, which he did. The great news about the New Covenant, is that any believer in Jesus Christ filled with His Holy Spirit can now prophesy and testify to the truth. However, the consequences of doing so remain the same, and if Zionism spreads unchecked, I fear that what we saw during COVID in Trump 1.0 will pale in comparison to what might be about to happen in Trump 2.0. 'John said to the crowds coming out to be baptized by him, "You brood of vipers! Who warned you to flee from the coming wrath? Produce fruit in keeping with repentance. And do not begin to say to yourselves, 'We have Abraham as our father.' For I tell you that out of these stones God can raise up children for Abraham. The ax is already at the root of the trees, and every tree that does not produce good fruit will be cut down and thrown into the fire.'" (Luke 3:7-9)" - Amen!:

- **"Donald Trump: Rebranding Globalism as Nationalism"**

(Excerpts:) "[In 1922] CFR [Council for Foreign Relations] had abandoned the idea of, in one swoop, unifying the planet under a world government. Instead, they reasoned, they could gradually bring about global governance by first organizing regional alliances. This would be a 'stepping stone' approach (also known as 'boiling the frog') to the ultimate goal of an all-powerful one-world government... Shortly after America joined NATO in 1949, Elmo Roper of the CFR issued a pamphlet entitled 'The Goal is Government of All the World'... Donald Trump is now proposing a North American Union again, but to keep MAGA people in the dark, has re-branded it as nationalism instead of globalism... The melding of Greenland with America is not new, as shown by this map, based on the 'Regionalized and Adaptive Model of the Global World System' report produced by the globalist Club of Rome in 1973. Note that the North American region included Canada and Greenland, but excluded Mexico... understand that Trump's ambition toward this goal is **neither new nor patriotic**, but an element of the **age-old globalist agenda**."

- **"Response to Donald Trump's statement regarding the WHO"**

(Excerpts:) "**WHO is run by pharmaceutical companies for profit** and is not functional as an international agency run between nation states in the first place, and **not a part of the United Nations**. Nor is there a word about how **WHO was used as a means to push through secret contracts and non-disclosure agreements between pharmaceutical companies and governments around the world** which, to this day, have not been made public—often because the intelligence agencies coordinating the agreements made those documents classified...the **WHO is an extremely dangerous organization** because it serves as a fig leaf, a shell company, that **hides the nefarious deeds of private corporations, and pseudo foundations** like the Gates Foundation, or pseudo international agencies like GAVI The Vaccine Alliance, which **force vaccines on the population and treat propaganda and advertising like science**...There is not any sign that Trump is taking steps that will get corporations out of the healthcare business either. And his recent dinner with Bill Gates suggests that he

is as committed to the agenda today as he was back when he launched 'Operation Warp Speed' to develop untested experimental drugs to try out on the population, starting with the poorest and most vulnerable, at the end of his last term. Gates stated that Trump 'in the COVID days, accelerated the vaccine innovation, so I was asking him if maybe the same kind of thing could be done here, and we both got, I think, pretty excited about (vaccines for HIV and polio).”:

• **"Trump throws his weight behind new generation of mRNA gene-therapy injections, for cancer and other diseases - Now we know why he never backtracked from the disastrous Operation Warp Speed"** - Includes 41.14 min vid.

(Excerpts:) "OpenAI, Softbank, and Oracle will be part of a public-private partnership with the Trump White House called Stargate. The heads of the tech firms plan to invest up to \$500 billion over four years, in building AI infrastructure across the United States. This means data centers. Massive buildings designed to collect and process data. Running these centers requires huge amounts of water and energy...Larry Ellison talked about combining the forces of AI and mRNA gene therapy to create a 'cancer vaccine'. Ellison said the quiet part out loud. Trump will ramp up mRNA shots for cancer. He told the president 'we couldn't do it without you', adding: 'You can do early cancer detection with a blood test. And using AI to look at the blood test, you can find the cancers that are actually seriously threatening the person. Then beyond that, once we gene-sequence that cancerous tumor, you can then vaccinate the person, and design a vaccine for every individual person to vaccinate them against that cancer, and you can make that mRNA vaccine. You can make that robotically using AI in about 48 hours. You can have that vaccine available in about 48 hours. This is the promise of AI and the promise of the future.' So AI will be used to 'early diagnose' people with cancer, and then within 48 hours they will get their personalized mRNA cancer jab." - *Which will give them more cancer, on top of the cancer they got from poisoned skies, poisoned food, poisoned water and previous injections of cancer-causing jabs that they zombiely fell for! • **"Project 'Stargate' is upon us: Trump to invest \$500 billion in new U.S. data centers to boost the power of artificial intelligence - Is Trump being**

used to build out the superstructure of a digital system that could later be weaponized by some future ruler? Just as 5G and Warp Speed were weaponized?"

(Excerpts:) "President Donald Trump's grand vision for an AI project code-named 'Stargate' just got jump-started with an infusion of \$500 billion... Trump is putting together the most impressive, intimidating public-private partnership the world has ever seen to realize his dream of creating a supersized AI... [Trump] he is a tool of the technocratic/transhumanist elites. This is why Elon Musk, Peter Thiel, Mark Zuckerberg, Jeff Bezos, and so many other technocrats are groveling at Trump's feet. They see a super-popular political figure with a vision of greatness for America that can be co-opted by their vision for the world and humanity 2.0. And when Trump's done with his mission, another more sinister man will come on the stage to weaponize his works. Mark it down. Or, as technocrats have openly speculated, perhaps we won't need a president or political leaders of any kind in the future. AI will run the country, and the world." - *As in the Daniel 7:24 ten AI kings?*:

(Excerpts:) "What has happened in Los Angeles can happen in almost every city vulnerable to the elements. We have been starved of water and, in fact, there is enough water for several hundred million more of us on this continent alone, all of us using the earth's resources, building healthy effulgent lives and businesses as was intended by the divine. Our water was taken from us by a combination of vicious, stupid bureaucrats and politicians, and conscienceless oligarchs. Or, as we are coming to know them, the usual suspects...They rationed the water in the city, stripped civic services, hired the incompetent. This speaks to a larger issue, one which has afflicted every town and city in North America. The catastrophic flooding, water shortages, fires, they are all preventable, and many of them are deliberate, to break infrastructure, to drive people off the land and finally and most importantly, surreptitiously remove property rights and agency from individuals...Wherever green socialists have insinuated themselves into local or regional government, they immediately begin to remove water rights. This has been going on since 1970 and the Club of Rome. All the ministries have been wrenched from serving the public to restricting the public." - *This item is long, but, imo, worth posting.:*

“The Shards of Narsil / Anduril - Symbol Analysis

Narsil was a famed longsword that symbolized the strength and fortitude of the Men of the West (Numenoreans) in withstanding evil forces in Middle-earth. During the High King Elendil’s final battle with the Dark Lord Sauron in the War of the Last Alliance, Narsil broke into two shards beneath the Elendil’s body when he was slain. His son, Isildur, then wielded the handle-shard to cut the One Ring from Sauron’s hand. The heirs of Isildur have since handed down the shards of Narsil as an heirloom that represents their lineage to the thrones of Arnor and Gondor. Aragorn’s decision to reforge the shards of Narsil in Rivendell signals that he is officially setting out to fulfil the prophecy of his ascension to those thrones. Elvish smiths reforge the shards into a bright new blade called Anduril, Flame of the West—this reconstruction parallels the transformation that begins to take place of the rugged Strider into the noble Aragorn. Names in Middle-earth are important; in this case Tolkien has called the Sword that was Broken ‘Narsil’, meaning fire (‘nar’) and white flame (‘thil’) in the elven language Quenya, while the Sword that was Reforged is ‘Anduril’, meaning west and sunset (‘andunne’) and brilliance (‘ril’). The representation of Narsil as the flames of sun and moon, and Anduril as the literal Flame of the West, indicate the weapon’s purpose in aiding noble men to combat enemies of the darkness. Specifically, Narsil and Anduril symbolize the greatness of the House of Númenor in their longstanding defiance of Sauron, when many other humans have fallen to the Dark Lord’s corruption.”:

> !! ✨ !! *When I heard that Trump was to be sworn into office under the Rotunda (because it was deemed to be too cold outside), it immediately sent me digging out these two articles which include insights into the meaning of the Rotunda itself, its art and symbology. Imo, I think that no matter what the outside temperature was going to be, having Trump take his second oath under the Rotunda was on the cards all the time!?*

• "The Great Delusion"

(Excerpts:) "Capitol Hill is yet another direct salutation to the pagan deities of both Greece and Rome. The name itself was selected by Thomas Jefferson as homage to the Capitoline Hill, one of the seven hills of Rome and the location of the Temple of Jupiter Optimus Maximus. Indeed, the entire plan for the Capitol building was closely overseen by the crypto-occultist Thomas Jefferson. Jefferson designed the Capitol Rotunda as a near carbon copy of the Greek Pantheon, a temple dedicated to all of the Greek gods. Our modern temple to democracy is no less defiled by these pagan deities, as you can see below...*[Regarding "The Apotheosis of Washington, 1865, ill. by Freemason Constantino Brumidi", shown in the article:]* The picture that symbolically takes the place of the Sun at the top of the Capitol Rotunda, seen above, is quite simply idolatry of the highest order. Apotheosis literally means to become a god; the fresco depicts Washington attaining immortality as he reigns on Zeus' throne. Washington's pose that we see once again is a symbolic representation of the occult maxim 'as above, so below'. The Rotunda art is densely laden with Masonic and occult symbolism. Take for instance the 72 stars surrounding the painting: a direct reference to the 72 tribes scattered during the Babelizing of languages seen in Genesis 11.":

"COUNTDOWN TO 2025 AND THE SECRET DESTINY OF AMERICA—PART 48: The Dome of America's Temple, the Obelisk, and the Coming Incarnation"

(Excerpts:) "Washington, DC, and at the Vatican...constitute one of the greatest open conspiracies of all time. There, reproduced in all their glory and right before the world's eyes, is an ancient talismanic diagram based on the history and cult of Isis, Osiris, and Horus, including the magical utilities meant to generate the deity's return. The primeval concept—especially that of sacred domes facing obelisks—was designed in antiquity for the express purpose of regeneration, resurrection, and apotheosis, for deity incarnation from the underworld to earth's surface through union of the respective figures—the dome (ancient structural representation of the womb of Isis) and the obelisk (ancient representation of the erect male phallus of Osiris [*Nimrod was known in Egypt as Osiris, founder of the first world empire at Babel, later known as Babylon (Gen. 10:8-12; 11:1-9) — He was/is known by other names, such as Marduk (derived from Mars), Enki, Apsu (which comes from Poteidon), Astalluhi, Aesculapeus, Bel / Baal which means "lord" or "master", Nabul / Nebo, and Apollo. DYOR.]...the end times would culminate in a marriage between political (Antichrist) and religious (False Prophet) authorities at the return of Osiris/Apollo...The US capital has been called the 'Mirror Vatican'...America's forefathers first named the capital city 'Rome'. But the parallelism between Washington and the Vatican is most clearly illustrated by the Capitol building and dome facing the obelisk known as the Washington Monument, and at St. Peter's Basilica in the Vatican by a similar dome facing a familiar obelisk—both of which were, according to their own official records, fashioned after the Roman Pantheon, the circular domed rotunda 'dedicated to all pagan gods'. This layout—a domed temple facing an obelisk—is an ancient, alchemical blueprint that holds significant esoteric meaning...the US Capitol building in Washington, DC, is historically based on a pagan Masonic temple theme. Thomas Jefferson, who shepherded the antichristian 'Roman Pantheon' design, wrote to the Capitol's architect, Benjamin Latrobe, defining it as 'the first temple dedicated to...embellishing with Athenian taste the course of a nation looking far beyond the range of Athenian destinies' (the 'Athenian' empire was first known as 'Osiria', the kingdom of Osiris)...After listing various features to make their case that the US Capitol building is a "religious temple"—including housing the image of a deified being, heavenly beings, gods, symbols, inscriptions, sacred geometry, columns, prayers, and orientation to the sun—they conclude: The designers of the city of Washington DC oriented it to the Sun...The*

measurements for this orientation were made from the location of the center of the Dome of the U.S. Capitol, rendering it a 'solar temple'. Its alignment and encoded numerology point to the Sun as well as the stars. A golden circle on the Rotunda story and a white star in the Crypt marks this spot...It is clear that the builders viewed the Capitol as America's sole temple: a solemn...Solar Temple to be exact...at the inauguration of every American president, across town [*in Washington, DC*] at the House of the Temple, the modern Egyptian magicians (Freemasons) simultaneously conduct the 'Raising of Osiris' ceremony to call the seed of Osiris-Apollo from the underworld through the Washington monument obelisk, where it magically emits into the US Capitol Dome while America's new leader stands there accepting his role as the living representative of Osiris. This is done in anticipation of the day when events will surpass parody and 'the beast that...was, and is not; shall ascend out of the bottomless pit, and go into perdition [Greek Apollo]: and they that dwell on the earth shall wonder, whose names were not written in the book of life from the foundation of the world, when they behold the beast that was, and is not, and yet is' (Revelation 17:8)...the DC ritual is deliciously staged, as even the term 'inaugurate' is from the Latin 'inauguratio', and refers to the archaic ceremony by which the Roman augurs (soothsayers) approved a king or ruler (or other action) through omens as being sanctioned by the god Jupiter, the same entity whose prophecies on the Great Seal herald his upcoming challenge to Yahweh-Jehovah for heavenly supremacy while his son Apollo-Osiris seizes authority over the world in a final pagan Golden Age. [As I previously stated: Take note that "Golden Age" is being spoken of a lot amongst the new US administration!] Note that the 1865 'Apotheosis of Washington' painted by Greek-Italian artist Constantino Brumidi is visible through the oculus of the dome in the rotunda and bears anything but Christian symbols. It is filled with Greco-Roman gods, to whom Thomas Jefferson dedicated the United States. 'Apotheosis' means to become a god or revived eternal being...Directly beneath the Apotheosis are seventy-two pentagrams forming a sorcerous gateway used by secret society members and occultists to bind and loose the seventy-two fallen angels over the heathen nations (see Psalm 82; Deuteronomy 32). Finally, under the floor of the rotunda is the US National Crypt where an empty tomb resides ('He is not here, for he is risen'). This is where I argue that Antichrist will be taken after his head injury and the Freemasons will conduct the raising of Osiris ceremony, at which time he will be transmogrified into the living incarnation of Osiris-Apollo (see Revelation 17:8). There is more to the Capitol dome, anti-Christ plagiarism of the life of Christ than these aspects of the

building's design, but these points of interest clearly reveal how the architects imagined a dark parody of Jesus. As Jesus died and rose into heaven, so Washington rises to become the Osiris. As the seventy-two pentagrams in the Capitol dome are used to control the seventy-two kosmokrators over the nations, Jesus confronted the seventy-two fallen Watchers—from the base of Mount Hermon to His visit in the underworld and final ascension into heaven, whereby He proclaimed in Revelation 1:18: "I am He that liveth, and was dead; and, behold, I am alive for evermore (a clear denunciation of the Osiris 'dying and rising god' myth so popular during His first advent), Amen; and have the keys of hell (Hades, the name Greeks gave to Osiris!) and of death." - *The plot to bring on the AC is as thick as thieves, with trillions of tricks up their satanic sleeves! They'll dope and dupe the masses, as many as they can, 'cause they'll only have one last chance to make people believe and worship the fake return of the Son of man, to entice the world to accept the Antichrist!*

> 🚩⚠️🚩 *Back to the topic of Auduril Industries setting up shop in Ohio, which I posted about yesterday. When I came across that word, "Auduril", which I hadn't heard before, I thought, "What does it mean?" When I found and read what I posted (from litcharts.com), for me it underscored the satanic saviouresque forces afoot in the Auduril Industries (AI!) endeavour! Interestingly, VP JD Vance was an Ohioan Senator, and a protégé of Peter Thiel, "who founded Palantir, the surveillance company named after a magical seeing stone in the books. Another of Vance's investments, the defense and security contractor Anduril Industries, showcases both the peculiar preoccupation with The Lord of the Rings in the network around venture capitalist, rightwing ideologue and intermittently active political donor Peter Thiel. Vance's own investment partnership, Narya, shares a name with one of the rings of power in JRR Tolkien's The Lord of the Rings. For two years from 2016, Vance worked alongside his mentor Thiel at Mithril Capital, itself named after a precious metal in The Lord of the Rings."*

In the article, that I just quoted from

(<https://www.theguardian.com/us-news/article/2024/aug/08/jd-vance-financial-investments>), *it says, "Companies he has invested in include a firm that carries out medical testing of therapies that may include stem cells in scientific research to tech firms with records of harvesting data. Vance and some of the people behind the various firms he is involved with also exhibit an obsession with references to*

the mythology around The Lord of the Rings' fantasy world...Several Vance investments involve cutting-edge biotech startups, whose research and commercial activities may conflict with Vance's stated Catholic religious beliefs, and his advocacy of positions like total abortion bans." *From what I've seen, oftentimes those who choose to be closet satanists are window-dressed Catholics as their choice for Christian cover-up make-up, so that the masses will not be appalled and will accept them!* "Perhaps the most controversial of these to date is AmplifyBio, a startup founded in 2021 to develop 'next generation cell and gene therapies'...Vance has reportedly named Tolkien as his favorite author; one of his friends, the conservative writer Rod Dreher, told Politico last month in connection with Tolkien that Vance is 'is thinking broadly about how all must join in the great struggle against darkness'." - *How? Through weapons of war, AI surveillance, mRNA magik, and whatever else they are cooking up in their cauldrons of corruption!?! Imo, their satanic struggle is against the True Light of Jesus Christ! Because, to them, Lucifer is the Light! And they've hoodwinked millions upon millions into following them! That's why I received the verse Isa.5:20-23!*

I'm not all that familiar with the Lord of the Rings stuff, as I'm not inclined to that sort of thing. One of the reasons why, I think, is because I remember when I was young (maybe 10 to 12ish), I saw the Lord of the Rings books in my brother's bedroom. When he was not there, I peeked inside of them and felt creeped out by what little I read. "My sheep hear My voice, and I know them, and they follow Me: And a stranger will they not follow, but will flee from him: for they know not the voice of strangers." (Jn.10:27,5) And we'd better know Jesus' Voice loud and clear! Because the following is crashing out of the gate!

• **"Trump touts AI and Stargate in speech to World Economic Forum - 'We're going to make America the World Capital of AI and crypto'"**

(Excerpts:) "We entered a new golden age of America...Project Stargate plan to make American the 'World capital of AI and crypto'...blanket America with new data centers, needed to power the next generation of AI capabilities...require the U.S. to double its capacity to generate electric power...Trump said he will use an emergency declaration to get new power-generation plants built adjacent to the new **data-collection centers**, which are needed to power the next phase of AI...flanked by tech oligarchs Larry Ellison of Oracle and Sam Altman of OpenAI, and Softbank CEO Masayoshi Son. Ellison explained how AI would be used to propel forward a new generation of mRNA 'vaccines' against countless diseases, including cancer, failing to mention that these injections are actually

gene-therapy, not vaccines. But if he can get Trump's FDA to classify them as vaccines, Ellison knows that he will avoid all legal liability for the harm they will likely do to untold millions of Americans. We know this from the first round of mRNA injections that occurred during the Covid scare. The key takeaway from Trump's speech, and indeed his first three days in office, is 'Emergency, Emergency, Emergency'. This one word allows him to bypass the legislative branch of government and maximize his executive power. We are seeing government by emergency declaration play out before our very eyes. And the history of nations governing in this manner is very dark, indeed...This goes against Trump's populist image, and yet he seems able to get away with it like no other American politician could, perhaps because of his carefully cultivated image of a freedom-loving, patriotic man of the people. Trump said many good things in his address to the WEF today, such as ending the disastrous green new deal policies of his predecessor, declaring there are only two genders, etc. But **mixing good in with evil is a clever tactic to woo the masses and pacify his base. Many will be deceived by the bait and switch.**":

Ellison did not say it would be mandatory, but it sounded like it will be. Ellison also stated that Oracle has already begun construction for 10 data centers in Texas (each

Not only the civilisation that this article refers to, but the fog is worldwide, that blindsides the uncircumspect and the cruising-along compliant! "Awake thou that sleepest, and arise from the dead, and Christ shall give thee light." (Eph.5:14) Flee the fog and the Devil's grog, and follow God!

"Toxic fog and ancient British civilisation":

<https://tapnewswire.com/2025/01/23/toxic-fog-and-ancient-british-civilisation/>

- Before posting, I forward this article to Bible forensicist Stephen Stutt for his interest, about which he said:

"The article about 'Toxic Fog' is remarkable. It shows that a lot of history is pure bunk! History is a narrative that is told to suit the powers that be. The reason that the authorities cannot tell people the truth of the past of civilization is, simply put, because they themselves are led by evil spiritual entities who only know how to deceive and lie. The underworld has a serious problem! Satan already lost to Christ 2000 years ago. All the underworld has left is remnants of their supposed great past origins and powers, whilst, in reality, they are being driven further down, with the culmination of Satan being thrown into the Bottomless Pit—hopefully very soon! It would appear that some scientists and historians realize that what we have all been told about history and most of science is false or incomplete. This is why we find strange happenings throughout history, and not just the paranormal ones, but buildings out of place or season or time. The truth is that modern man could not make buildings like the pyramids, which were actually built in pre-flood times by an advanced race of fallen angels and giants.

We can only guess what sort of powers they had. Modern man is much smaller in size than humans were in the past, contrary to what we are taught by evolution. Modern man does not have the strength to build ancient structures that we find all around the world even today. All is simply explained away as having been built by the masons or ancient man."

• **My reaction to the above video of Milei's speech at the WEF:**

Hmmm, I pray his balls are his and that he's not given his balls to Baal! Thanks for sending. Colour me cautious, because coming out now against certain institutions could very well be part of the elites' bait-and-switch ploy, ie distraction traction. Milei is a showman, imo, who could be doing his handlers' bidding. With the DEI-trans-etc. trend, the Devil tempted the gullible to sin; with the now-rising **CON**servative trend, the Devil is condemning them for sinning! Is Klaus past his due date? Time for a WEFfy-iffy rebrand to NWO? The plan for the FEW (WEF reserved) to OWN (NWO reversed) the world? (Mat.4:8-9) As we know, true hope must be built on nothing less than Jesus Christ's righteousness! And BOTH Trump (in 2017) and Milei (in 2023) converted to Judaism once they got in office! Because they wanted to? Or were told to? Whatever the case may be, it shows whom they've aligned themselves with and have allegiance to.

In Milei's speech, towards the beginning, he lists off some of his world-leader friends, among whom is Netanyahu! That's very telling, and dangerous! At 8 minutes in, he refers to the emerging "golden age", which I've already commented on in posts this week, as being the touted-and-trumpeted, programming-the-masses buzz word of late! At 26 minutes in, he refers to the "new golden era". In his speech, he quotes the druid Churchill! He calls for a Copernican shift (the Copernican shift was a paradigm shift from the Ptolemaic model, which placed the Earth at the center of the universe), which, for me, ties in with (cloaked) pagan sun worship and is reference to discarding God's divine plan and design!

The AC, when he is revealed, will initially come on the scene with solutions, not slavery; freedom, not feudalism; saviourism, not serfdom; terrificism, not tyranny; liberty, not luciferianism! It will be the sneakiest, scam-bam, planned performance ever!!

I'm getting a picture of the beast rising out of the sea ("And I stood upon the sand of the sea, and saw a beast rise up out of the sea, having seven heads and ten horns, and upon his horns ten crowns, and upon his heads the name of blasphemy."—Rev.13:1) with the 3-pronged trident of Poseidon and the 3 pagan-poisonous prongs representing 3 branches of world domination: financial controls (banks, currency etc.); military complex controls (includes pharmakeia,

AI, surveillance, anything to do with bodily physical, mental, emotional, spiritual control-mechanisms magik, etc); and energy control (the lust and warring for and plundering of land and its natural resources, including human bodies)—all 3 of which work in satanic synchronicity!

Remember all of those kajillions of PCR covid-swab tests that were taken worldwide, sticking long satanic swabs up peoples' nostrils, and then sending off the swabs to God-knows-where laboratories? That was mega data harvesting! One of the key goals regarding Covid (along with killing, injuring, suiciding, demoralising, degenerating, and psycho-ising the masses!) was to collect human DNA data, which is, imo, now part of the now DeepSeek (China) and Stargate (USA) AI war for global control! It was, in part, a Hellscape scraping, calabic collection, heinous harvesting of data to dump into the data centers and research facilities where technology experts are creating the physical and virtual infrastructure to power the next generation of Artificial Intelligence. The following post states: "The AI prison is being built. The main point of Trump's 2nd term, from the NWO controllers' perspective, is to push forward AI. That's why they allowed Trump to be elected. **They'll throw the public some [smoke-and-mirrors] scraps** – J6 pardons/commutations, DEI rollbacks, etc. – while they push forward AI Governance, Transhumanism, Digital IDs, Biometrics and a CBDC (hiding behind crypto)." - Whilst the delites and their stooges and servants had the crowds dancing and singing to Trump's campaign song, "YMCA", they were and are now coming out from behind closed doors, dancing and singing, "mRNA!"

The governor's statement that a Marshall Plan and a team 'reimagining L.A.' are already in place also sparks suspicion. So, did he and other authorities know that wildfires would break out? Emerald Robinson, former White House correspondent for One American News, alleges that the number of fires, the lack of preparation, and the sighting of multiple arsonists point to a military op. And Wiginton asks, 'Is it just a tragic twist of fate that the firestorm ignitions were in locations that maximized the decimation, given the blowtorch extreme wind trajectories?' - **"Trump Address to World Economic Forum (WEF) Featured Explicit Symbol for WAR"** - Hal Turner's eagle eye spotted this! If "righteous" war plans are afoot, the Trumpuppets will follow in their droves, in their delirium over all his executive orders. (Incidentally, Trump said (26 January) that the US may rejoin the WHO at a discount!—Maybe he signed that one with a pencil?):

(Excerpt:) "The Seal of the United States has two versions: one at peacetime and another for wartime. During peace, the head of the Eagle is turned to OUR left, toward the Olive branches in what WE SEE as its left Talon (claw). During wartime, the head of the Eagle is turned to OUR right, toward the Arrows of war in what WE SEE as its right Talon. On the Podium from which Trump spoke, the Eagle's Head is turned to OUR left: Peace. But at the precise same time, the Eagle image on the gigantic screen behind him, showed the Eagle's Head turned toward what WE SEE as RIGHT: war."

• **"China's DeepSeek Bombshell Rocks Trump's \$500B AI Boondoggle" -**

Includes 1.44 and 106 min vids.

(Excerpts:) "Imagine the panic that is spreading across western tech capitals right now. AI was supposed to be the fast-track to absolute societal control and oligarchic rule into the next millennia, but now those pesky Chinese have overturned the applecart, leaving western elites with a problem they might not be able to fix...They expected that their microchip sanctions would sabotage China's AI efforts for at least a decade-or-so but, instead, China has come roaring back with a system that has left the tech giants gasping for air...the timing of DeepSeek's release (preempting Trump's Stargate announcement) shows that the Chinese don't mind throwing a wrench in Washington's global strategy if it serves their regional interests, which it undoubtedly does... The United States intends to dominate the world in this critical technology and yet the upstart Chinese have not only produced a system that is every bit as good as America's best, but have made it more affordable, more accessible and more transparent... Everything the US has done to stymie China's development—including economic sanctions, chips embargoes, military provocations, political meddling, even arresting a Huawei executive (truly pathetic)—has blown up in their faces...We are entering an era of both enlightenment and chaos...The borderless nature of AI makes it hard to control or regulate. As computing power expands, models are optimized, and open-source frameworks mature, the ability to create highly impactful AI applications will become increasingly diffuse. In such a world, well-intentioned researchers and engineers will use this power to do wonderful things, ill-intentioned individuals will use it to do terrible things, and AIs could do both wonderful and terrible things. The net result is neither an unblemished era of enlightenment nor an unmitigated disaster, but a mix of both. Humanity will learn to muddle through and live with this game-changing technology, just as we have with so many other transformative technologies in the past...The potential dangers posed by AI are many. At the extreme, they include the threat of human extinction, which could come about by an AI-enabled catastrophe, such as a well-designed virus that spreads easily, evades detection, and destroys our civilization. Less dire, but considerably worrisome, is the threat to democratic governance if AIs gain power over people.":

Hmmm, no doubt to, amongst other Greater Isahell projects, get to work drilling into the Leviathan gas field, a large natural gas field off the coast of Gaza (which I posted extensively about in some of last year's KUs)! (Excerpt:) "No one can argue with the facts: all the pieces are in place for a repeat of the dream relationship with Israel achieved by Trump during his first term. Trump allowed Israel to annex the occupied Golan Heights - a move destined, one day, to create war with Syria - to use the Abraham Accords as a

lever to bury the Palestinian cause, and to move the US embassy to Jerusalem. For his second and last term [*Maybe?*], Trump has appointed an ambassador in Mike Huckabee, who believes there is no such thing as a Palestinian, a defence secretary in Pete Hegseth, who said a Third Temple should be built on the ruins of Al Aqsa mosque, and a peace envoy in Steve Witkoff who wants to 'relocate Gazans to Indonesia'. Trump himself has made it abundantly clear that he cares not one fig for the fate of seven million Palestinians. Trump is interested, as is his son in law Jared Kushner, in Gaza as the largest demolition site in the world, if only for all that beachfront opportunity it represents: 'Beautiful things could be done over there, fantastic things', the busy president opined. But as for the people who live there, not one concern clouds his empty brain. To be fair, Trump doesn't care much for any Arab, rich or poor. His empathy with Saudi Arabia stretches just as far as Mohammed Bin Salman, the crown prince, is willing to open his wallet." - *Recommend reading in full!*:

It's clear now that no one in Silicon Valley or Washington DC had the slightest idea that their world was about to be turned upside-down by an innovative new product that would shift the geopolitical plates further eastward. But that, in fact, is what has happened. • *Most citric acid, up to 70% of the world's demand, is sourced from facilities in China. The remaining 30% is produced in Europe, South East Asia and the USA, collectively. However, what's most alarming is the fact that this is not the organic and safe version that is found naturally in citrus fruits and other fruits and vegetables such as: pineapples, tomatoes, broccoli, carrots, and berries, but rather a chemically derived process concocted in labs. It starts with a toxic mold that is treated in both cyanide and sulfuric acid as part of the chemical cocktail in the process of manufacturing what is otherwise considered "healthy", but clearly is not! In fact, the very same chemically derived citric acid is used for metal finishing, plasticizers, lubricants, chelating agents, detergents, cleaning products, animal feed, and as an additive to foods, teas (even herbal blends!) and juices. (Intro:) "She is the only American resident of the approximately 1000 inhabitants of the Frisian village on the IJsselmeer in Stavoren, Netherlands. Few people know more than Catherine Austin Fitts about how money works in both Washington and New York. When Fitts left Dillon Read's Wall Street office in 1989 and joined HUD as assistant secretary of Housing under President George H.W. Bush, she found an agency rife with conflicts of interest and fraud and subordinated to the big money in the financial world. Since resigning, Fitts has

continued to develop groundbreaking technologies to separate the US government from the tentacles of corporate America and return economic control to the people. She does this through her company 'Hamilton securities' and her most important communication platform is 'The Solari Report', a platform that fits her mission, to make as much government information as possible transparent, particularly when it comes to the possible consequences of digital IDs & CBDCs. In the fall of 1996, Hamilton became the target of nightmarish covert operations, smear campaigns, intimidation and criminal investigations. The Community Wizard technology was finally destroyed in 1998 when Justice Department agents stormed and vandalized Hamilton's office. Fitts suspects Wizard had secrets that may have revealed that some U.S.-guaranteed mortgage bonds were fraudulently issued and illegally draining HUD's reserves. This mission cost her dearly because of all the subsequent intimidation, after which she finally withdrew to the Netherlands in 2019 after a series of intimidation and even a number of poisonings. *[In this interview, Catherine is asked]* about her vision of the next four years under Donald Trump and answers the question of whether, in her opinion, Trump can still stop the turn towards a totally controlled society.": <https://youtu.be/yzeDhRlaqrQ?si=GeLbcWB4rskcmx6>

But remember, all in the worldly realm is not always presumably as it initially appears! I try to remember to always look under, at the backside of the tapestry to see the threads' true path! There are signs that Israel, whom the US corporately corruptly copulates with, has begun supplying Ukraine with Soviet and Russian-made weapons seized in Gaza, Lebanon and Syria. • **“Israel Locks Down Official Oct 7th Story Under Threat of Imprisonment - Don't you dare question what really happened on Oct. 7th 2023 if you live in Israel. 'The only democracy in the Middle East' will put you in prison if you even think about questioning the official state-made lies they have been peddling.”**

(Excerpts from both articles:) “The Knesset passed a new law criminalising the denial, minimisation, or celebration of Palestinian resistance’s infiltration of Israel on 7 October 2023...As Netanyahu’s grip on power weakens, Israel enacts an Orwellian law to silence critics and suppress scrutiny of its handling of the October 7th attack, raising alarms over free speech and democratic freedoms...critics argue that the law is less about preserving truth and more about shielding Netanyahu from scrutiny...the new law represents a last-ditch effort to maintain control over the narrative—and his grip on power...But as history has shown, the truth has a way of surfacing, no matter how hard authoritarian regimes try to suppress it. “Beloved, believe not every spirit, but try the spirits whether they are of God: because many false prophets are gone out into the world. Having a form of godliness, but denying the power thereof: from such turn away. Beware lest any man spoil you through philosophy and vain deceit, after the tradition of men, after the rudiments of the world, and not after Christ.
