- **"THE CITY OF LONDON BABYLONIAN MERCHANT-BANKER-DEMON HOAX OF ALL TIME"** - Article, some vids, and lots of charts.

(Excerpts:) "The City of London is controlled by the Pilgrims Society who carry on the pagan control of the Radhanite merchant-bankers of Babylon. 'The City of London Corporation' was chartered in 1067 *[it appears that the term "radknight" or "knight", for short, first came into use at this time]* after the coronation of William I, William the Conqueror, on Dec. 25 *[During the festival of Saturnalia, which I elaborated on in KU#168]*, 1066 at Westminster Abbey. William was Norman (French). The Babylonian Radhanites* (demon-worshipping pagans who claimed to be Jews for several millennia *[*The Radhanites played a role in the conversion of the Khazars to Judaism. DYOR.]*) already had an extensive banking and trade network through Europe and, Middle East to China. The Radhanite merchant-bankers were forced to flee Babylon (renamed Baghdad) ahead of the armies of the Muslim Seljuk Turks in 1055 A.D.—just 11 years earlier. They fanned out along their extensive network of merchant-banking centres. In the process, they rebranded themselves as 'Ashkenazi Jews'. They had called themselves Jews for millennia while in Babylon, but they had created

their unique pagan version that followed the Talmud, Yiddish, and rabbis, rather than the Torah, Hebrew, and Prophets.":

> "Read Between The Lies: A Pattern Recognition Guide To The Circular System Of Institutional Validation"

(Excerpts:) "Once you recognize this pattern of deception, two questions should immediately arise whenever major stories dominate headlines: 'What are they lying about?' and 'What are they distracting us from?' The pattern of coordinated deception becomes unmistakable...Mainstream media operates on twin deceptions: misdirection and manipulation...Most revealing is what they don't cover. Notice how quickly stories disappear when they threaten institutional interests...These decisions aren't accidental—they result from media ownership, advertiser influence, and government pressure, ensuring the narrative remains tightly controlled...The system ensures compliance through economic capture: your mortgage becomes your leash, your professional status your prison guard. The same lawyers who prides themselves on critical thinking will aggressively shut down any questioning of official narratives. The professor who teaches "questioning power structures" becomes apoplectic when students question pharmaceutical companies...As these deceptions become more obvious, different forms of resistance emerge. The truth-seeking takes different forms...The hardest truth isn't recognizing the programming—it's confronting what it means for human consciousness and society itself. We're watching real-time evidence that most human minds can be captured and redirected through sophisticated psychological operations. Their thoughts aren't their own, yet they'd die defending what they've been programmed to believe. This isn't just media criticism anymore—it's an existential question about human consciousness and free will. What does it mean when a species' capacity for independent thought can be so thoroughly hijacked? When natural empathy and moral instincts become weapons of control? When education and expertise actually decrease resistance to programming?...The stakes could not be higher. This isn't just about politics or media literacy—it's about the future of human consciousness itself. Whether our species maintains the capacity for independent thought may depend on those who can still access it helping others break free from the spell. The matrix of control deepens daily, but so does the awakening. The question is: Which spreads faster—the programming or the awareness of it?":

> 🚩 **"The Truth We Run From: Why People Avoid Reality When It's Clearly Presented"**

(Excerpts:) "Running from the truth has significant consequences. It leads to the perpetuation of falsehoods, the erosion of trust in institutions, and the spread of misinformation. On a personal level, it prevents growth, understanding, and the ability to make informed decisions. The truth, no matter how uncomfortable, is essential for progress — both individually and collectively. For those who seek the truth, it's important to understand why others may avoid it. This understanding can help in finding more effective ways to communicate and present the truth, breaking down the barriers of denial, cognitive dissonance, and fear. The truth may be difficult to accept, but it's the foundation upon which a better future can be built. In the end, the truth isn't something to be feared or avoided. It's a light that illuminates the path forward, guiding us toward a more honest, informed, and just world. But for that light to shine, we must first stop running and face it head-on." - Amen! *"Fear thou not; for I am with thee: be not dismayed; for I am thy God: I will strengthen thee; yea, I will help thee; yea, I will uphold thee with the right hand of My righteousness that Christ may dwell in your hearts by faith; that ye, being rooted and grounded in love, may be able to comprehend with all saints what is the breadth, and length, and depth, and height; and to know the love of Christ, which passeth knowledge, that ye might be filled with all the fulness of God."* (Isa.41:10; Eph.3:17-19):

Greenland is currently an autonomous territory within the Kingdom of Denmark, but a 1951 treaty gives the United States much control over an island it once partially claimed from exploration. The US is currently building up airfield

infrastructure for nuclear-capable planes at its Greenland base (yes, they got it there too!), according to ambassador to Denmark, Vladimir Barbin, who said, "It is undergoing comprehensive modernization, including radar systems worth billions of dollars. It is also building airfield infrastructure for F-35 fighter jets, which are capable of carrying nuclear weapons." And Greenlandic PM Múte Egede told reporters he is willing to work with incoming President Donald Trump on mining rights and expanding the US' military presence.

(Excerpts:) "The ousting of Syrian President Bashar al Assad has put the United States, Israel and Turkey on a fast-track to a broader and more violent conflagration. By removing Assad and obliterating the state, the coup managers created a power vacuum that has been filled by the proxy armies of the most vicious and aggressive nations in the world all of whom are now prepared to intensify the fighting in order to determine the final borders of the New Middle East...They tell us that the situation on the ground in Syria is deteriorating fast and that all the main players are being dragged inexorably towards war. They tell us that Turkey and Israel are likely to clash over undetermined borders in the south and over Israel's absurd claim that it can conduct airstrikes in Syria whenever it wants. They tell us that no one was prepared for the fall of the Assad and that –as a result– no one developed a coherent plan for establishing security, preserving a contiguous state, or ending the hostilities. In short, there is no plan, no strategy, nothing. Our foreign policy mandarins are simply improvising, making it up as they go along, and reacting to events as they unfold. And that is precisely how nations sleepwalk into world wars."

- **"Thermal Runaway of Lithium-Ion Batteries"**

(Excerpt:) One of the main reasons why lithium-ion batteries can catch fire or fail is due to thermal runaway. This process can occur within the battery if it

becomes too hot, and it causes a chain reaction that can ultimately lead to a fire. In addition, thermal runaway can happen if a battery is exposed to abused conditions such as high temperatures, physical abuse or if it is charged improperly. During the thermal runaway of a battery, the chain reaction vaporizes the organic electrolyte and pressurizes the cell casing. If or when the case around the battery begins to fail, the flammable and toxic gases within the cell are released. This causes additional concerns. For example, after thermal runaway starts, the process will not be able to be stopped. It won't even be controlled by unplugging the battery. Additionally, you may not know when this runaway started, so it could be a reaction that takes place for a long time before you become aware of it.":

<https://hillerfire.com/insights/how-do-you-put-out-a-lithium-ion-battery-fire/#:~:text=One%20of%20the%20main%20reasons,ultimately%20lead%20to%20a%20fire.>

- and -

- **"What is Thermal Runaway in Batteries?"**

(Excerpt:) "Thermal runaway is a chain reaction within a battery cell that can be very difficult to stop once it has started. It occurs when the temperature inside a battery reaches the point that causes a chemical reaction to occur inside the battery. This chemical reaction produces even more heat, which drives the temperature higher, causing further chemical reactions that create more heat. In thermal runaway, the battery cell temperature rises incredibly fast (milliseconds). The energy stored in that battery is released very suddenly. This chain reaction creates extremely high temperatures (around 752 degrees Fahrenheit / 400 degrees Celsius). These temperatures can cause gassing of the battery and a fire that is so hot it can be nearly impossible to extinguish.":

(*Comment from Peter:*) Another article I read this morning stated that, "**Smart meters have lithium ion batteries.** When these batteries catch fire, they have what's called thermal runaway where they will go from 140 degrees Fahrenheit to 6000 degrees Fahrenheit in just a few seconds. The smart meter is connected to the copper wiring of your home...along with being conductive, the copper wires are also great at heat transfer via convection. So, when these supposed forest fires hit neighbourhoods and burn more homes than trees, the culprit in the unusual fire forensics looks to be the lithium ion batteries (in smart meters)" However, I'm now not able to offer the link to that article because, come this

afternoon, it has since been censored and removed. - *Thanks to Peter for sharing all that. DYOR for more info on this topic while it's still available!*

- "What's with all these recent 'natural' disasters, nationwide and all around the world, attributed by 'our free press' and 'our' government to climate change—a thesis based on no scientific basis whatsoever, but on many years of winning propaganda to get all of us to clamor for the transformation of our world into a 'green' dystopia? The panic over 'climate change' is as well-founded as the panic over 'COVID' and the deadly cult of 'vaccination', yet few appear to question it (so far). With all these idyllic places, and the lives of all who live in them, so suddenly, and (it seems) inexplicably, wiped out, we'd better wake up fast, which means no longer swallowing the Big Lie that such weird catastrophes are 'natural' in any way." (Excerpts:) "Clearly the fires in LA are not natural. Eight fires started simultaneously in different locations and exploded in sync in such severity, that it caused an immediate inferno that no human force could even try to stop. This is not natural in any way...California has chosen, time and again, for these demons to rule them...Death and devastation roaming free, drug addiction and rape exploding, homelessness and crime spreading like cancer, sexual perversion and

satanic worship being celebrated openly in the streets, tempels of demon worship and even human sacrifice being erected on key positions. And the people cheered. The crowds laughed. The masses roared in delight. Schools became centers of demonic destruction of the lives of innumerable children, who were taught to engage in sexual intercourse with one another, and to believe they are not even human but cats and dogs. Mad lunatics were positioned in every high place of authority and influence all throughout the state of California, to further spread the deadly virus of insanity. Every form of godliness, truth, wholeness, goodness and purity was aggressively removed. California has become a den of demons of the worst kind. And the celebrities shouted for joy, while they ate cake of naked human bodies during the satanic Spirit Cooking parties of Marina Abramovic. They dance naked on the beaches, worshiping demon spirits, inviting them to wreck even more havoc in their state. They build statues of Satan on the corners of the streets, to show who they idolize. So yes, when these fires are ignited by the demons they love, the Satanists they adore, the monsters they worship, and the rapists they put in power, it should be no surprise to anyone. - **"C40 Cities: UN-WEF Globalist Land Grab"** - 54.22 min vid; transcript provided.

(Excerpts:) "If you're a C40 City, if your political leaders in your city have already said they're going to join the Sustainable Development Goals, what is happening is an eradication of your houses and furtherance of 15-minute cities. They want to put you in teeny homes, little boxes, feed you crickets, and then mine your data and mine your energy...You can see it so plainly, as you fly over the Disaster Area. What you see is green trees, right next to houses that fell in their own footprint – not dissimilar to what we saw happening with the Twin Towers in 2001. These are Directed Energy Weapons, and they atomize, effectively, their targets...They want to 'rewild' those areas in accordance with Agenda 21. This plan's been in existence for at least 100 years, and when somebody spends that much money and time and energy getting all the pieces in place and the right people, it's not like they're going to quit!...I get so tired of social media commentators making the statement that this is 'incompetence'. It's not incompetence! It is designed destruction of private property and minimizing people's ability to earn a living, to maintain private property, to have an economy with private enterprise."

"ELON MUSK: The Northern Italian Black Nobility Appoints Their DOGE"

(Excerpts:) "KEY POINT: Perhaps in all of recorded history, never was there a more perfect example of a cold and calculating plutocratic oligarchy than the one that despotically ruled the Empire of Venice. While the chief despot was aptly called the Doge, his governance merely reflected the will of the many Northern Italian Black Nobility petty tyrants who collectively ruled the realm from behind the curtain, as always...The 'DOGE' of the Republic of Venice (1200-1670), also known as the Venetian Empire, was the most powerful position of the realm. Genoa, the other major capital of the Northern Italian Black Nobility, was also led by a considerably dominant DOGE...Now fast forward to 2025 and **see the many parallels that eerily abound** throughout the U.S. Empire."

(Excerpts:) "The author questions the integrity of those who promoted vaccine mandates and passport requirements while allegedly avoiding the vaccines themselves, calling for justice and accountability. Vaccination records in Europe have been falsified by thousands of celebrities, officials, and elitists who gave themselves saline injections instead of the deadly Covid mRNA jabs, then paid big bucks to have fake passports made and recorded in the records system there called the National Immunizations Registry. The elitists got busted in a sting operation the National Police ran called Operation Jenner. Now some of these

elitists, including Big Pharma CEOs and presidents, are facing criminal charges for it. The fee to falsify the passport and the records was higher depending on social status, so famous folks and Big Pharma gurus had to pay more money to avoid getting the deadliest 'vaccine' ever created on planet earth. They obviously knew the hazards and wanted to avoid them at all costs.":

> 🔥 "If the consequences of what they're seeing live streamed looks like a war, there in Los Angeles, it's because it is. And the fires are not out of control; they are being controlled. And I can't underscore enough for everybody to please read the Illuminati Secret Covenant to understand how this has been drop by drop by drop instituted over decades, decades, decades, as in like forever!" (Deb Tavares)

That is the opening quote from this video, which I just now came upon whilst wrapping up this week's Key Updates. I'm including its link here, even though I haven't yet listened to it, because I will as soon as I can. I've benefited from many of Deb Tavares' presentations over the years.

> 🚩 **"The war behind the war: What World War III is really being fought over** - As usual, the official narrative, as put forth in the corporate media, about the West's beef with Putin bears no resemblance to the truth about why the West cannot accept a Putin-led Russia."

(Excerpts:) "World War III, like all 21st century wars, is not being fought over ideologies. It's being fought over energy and natural resources. Because he who controls the world's resources will be free to impose whatever ideology he wants. Washington and London, the epicenter of the Western liberal world order, that thinks it's admirable and virtuous to redefine God-created genders and appropriate to unleash deviant transvestites on innocent school children, is seeking to neutralize the massive resources of Russia as it ramps up its 'net zero' sustainable development model of economic progress. This economic model is really just a scam designed to pilfer what remains of the middle class and further subjugate them under AI-powered government-corporate control. Hence the need for more massive data centers, which Donald Trump is being used to build across the United States with \$8 billion in foreign investment from a billionaire in the United Arab Emirates. The surveillance state cannot be built out without these data centers scooping up, processing and storing highly personal information on every citizen.":

>  **"US Government Admits That Anomalous Health Incidents Could Be Caused By Directed Energy Weapons"** - *Yep, the elites are DEWing it again and again and again ("And he doeth great wonders, so that he maketh fire come down from heaven on the earth in the sight of men" - Rev.13:13) and it will increase and be used as a tool to enforce subjection. God bless and keep us fueled by the fire of the Holy Ghost through it all towards the 100% fulfilment of God's Promises!*

(Excerpts:) "Two days ago the White House posted this statement. It explains that anomalous health incidents reported by 'our colleagues' cannot be explained by environmental or medical conditions BUT CAN BE EXPLAINED BY PULSED ELECTROMAGNETIC AND ACOUSTIC WEAPONS...I have seen in my clinic so many people who are being tortured, others who have been implanted with verified microchips without consent. Most of these people cannot get help because any traditionally trained physician does not understand 'Havana syndrome', V2K, electronic harassment or gangstalking. Unfortunately, I cannot stop the targeting, only help the poor body cope with it. There are many more symptoms than just the loss of balance, ear pain in the arsenal of targeting. The symptoms can be debilitating... it is my view that the Targeted population was the testing ground for the Artificial Intelligence world control grid. You do not need implants or nanotechnology in your blood to be targeted by Directed Energy Weapons. The Satellite surveillance system can find anyone anywhere in the world...They often target their own people...In my assessment, the chemical and biological agents do also include the nanotechnology that is in the blood. I have been able to treat some of the severity of the symptoms very successfully with EDTA/ Vitamin C and Methylene Blue intravenously, both agents are known to help treat neurotoxicity. Activated charcoal also helps and high doses of antioxidants."

(Excerpts:) "A recent report by the Law Enforcement Legal Defense Fund (LELDF) has revealed a startling connection: 40% of all homicides in the United States take place in districts overseen by prosecutors backed by billionaire George Soros. This revelation has ignited fierce debate about the influence of Soros-funded prosecutors on public safety and the justice system. The LELDF report underscores the significant sway Soros-backed district attorneys have over the criminal justice landscape. These prosecutors often run on progressive platforms advocating for reduced incarceration rates, leniency in sentencing, and criminal justice reforms. Critics argue these policies contribute to spikes in violent crime, particularly homicides, in the areas they govern... George Soros and his son, Alex, have poured at least \$117 million into reshaping America's justice system since 2016. The result? Approximately 30% of Americans now live in jurisdictions where a Soros-supported prosecutor holds office.":
