> **"Four Overlooked Mysteries of Who God is! – with Simon Bennett"** - *This week's Nightlight podcast!* "This is an excellent interview with Simon Bennett, full of refreshing insights into God's Word, Wisdom and Wondrous attributes! Simon takes us on a captivating scriptural journey that discovers why God: 1.) hides Himself, 2.) has the essential qualities of a child, 3.) isn't entitled, and 4.) is meek and lowly. These four lesser-known attributes of God are often overlooked because they run counter to human nature and worldly desires. But recognising and living these characteristics is key to a closer connection with God, especially as we enter these last days before Jesus Christ's return!":

> ✨ *Theocracy vs Technocracy?*

• **"Are the Tech Bros Insane?"**

(Excerpts:) "While I am thrilled that the Tech Bros are tearing down the old system, I'm worried they will replace inefficient centralized control and bureaucracy with more efficient AI centralized control and bureaucracy. Collapsing the old system of governance is something, not incidentally perhaps, the WEF has promoted as necessary for the 4th Industrial Revolution, the transhuman revolution. Elon Musk (at the helm of Neuralink, Starlink), Larry Ellison (with Oracle), Peter Thiel and Alex Karp (who founded Palantir) have all expressed enthusiasm for merging biology with technology, figuring out how to live forever, micro-managing society using algorithms and AI surveillance, and other stupid things. They each currently have oversized roles in or adjacent to the US federal government. Should we be concerned?...The Covid-19 vaccine roll-out was a transhumanist military operation. I've been slow to appreciate this fully. Reading the articles by Johnson et al. brought it home. I'd blame the greedy pharmaceutical companies and investors like Bill Gates. But now I'm beginning to see more and more that it's not just greed, there is a perverse ideology that runs throughout our culture and government that has allowed us to get to where we are." - *Yep, the kingdoms of this earth, over which the Devil holds sway! Question: Will the next Pope be Pope AI?

I'm ready to be wrong, but at this point, I wager to say: Yer darn tootin'! The delites (as I refer to them, as one day they will be deleted!) have something up their satanic sleeves, fer sure!--And aren't about to let this Pope's death go to waste, who said, in 2014, that he would baptize an alien, if he was asked to. The middle letters of "alien" spell "lie", and certainly during his tenure he has blessed lies en masse (ie, condoning, blessing and onboard with LGBTQ+BS, for starters)! Jesus Christ warned re-pea-ted-ly to be not deceived, and certainly the criminal elements of churchianity worldwide are continuously conjuring up spells to fleece the sleepy sheep! With a digital "God" on the assembly line, an or the AI pope is no doubt, imo, in the wicked wings of the world stage!

> 📌 Is it "for the birds"? The phrase "for the birds" is an idiomatic expression in English; its meaning is typically used to convey that something is worthless, insignificant, or not worth considering. Describing something as "for the birds" implies that the thing or situation lacks importance or value. It is often used to dismiss or express disdain for something.

• **"Bird Flu Is a Rerun of the Covid Playbook"**

(Excerpt:) "Bird flu can be very confusing. This is true because, as is so often the case with our government, those who claim to be trying to solve the problem – our so-called 'public health' and 'pandemic preparedness' 'experts' – are actually the ones who created the problem. What is worse, they are actively seeking to perpetuate it. In this brief article, my goal is to explain what is happening with H5N1 Bird flu in the clearest, most fundamental terms. I hope to make it so clear that all our elected officials can understand what is going on, and therefore can take action to stop it. The key to understanding the current Bird flu panic is this:

(Excerpts:) "Campi Flegrei, one of the largest calderas in the world that in recent years has shown signs of disturbing activity...There has also been strong controversy between local administrators and national institutions who have tried to minimize the emergency by calling it 'psychological'...Inside the concave basin of the 'supercaldera' of the Campi Flegrei, the volcanic lake of Avernus was created where, according to Virgil, there is the door to the Underworld (called Hades by the Latins but also Avernus in reference to the citation of the Aeneid by the Latin poet)...not far from Campi Flegrei, radioactive pollution of the waters of the Garigliano River was found...The name Avernus derives from the Greek ἄορνος (without birds), in fact it is said that this absence was due to the fact that the waters of the lake exhaled particular gases that did not allow life to birds. It rises inside an extinct volcanic crater, formed 4,000 years ago, and is the second largest, after Lake Fusaro, among all the lakes present in the Phlegraean Fields...According to Greek and Roman religions and mythology, it is an access to the Underworld (kingdom of the god Pluto) and the earthly home of the fallen angel Lucifer, therefore the Roman underworld (the Greek Hades) is also called Avernus.":

It does nothing to ensure that subject matter experts are involved at any step in the process, or that we thoroughly consider the common good before the corporate good. > 🍎 **"The Vitamin Hunters" by Albert von Haller looks into the unseen revolution in nutrition** - *Good health (physically and spiritually) is real wealth!*
Includes 6.52 min vid.
(Excerpts:) "The legacy of these pioneers is evident in the way nutrition is today, as the science of nutrition has evolved from a niche field to a cornerstone of public health. A balanced diet, rich in whole foods, is crucial for maintaining health. Moreover, the importance of vitamins, minerals and other nutrients in preventing disease and promoting longevity is widely recognized. However, the battle is far from over. The rise of processed foods, the depletion of nutrients in our soil and the persistence of nutritional deficiencies in many parts of the world remind us that the revolution in nutrition is an ongoing process. Three things can be learned from this journey through the history of nutrition. First, the power of observation and curiosity...Second, the importance of perseverance. Despite skepticism and resistance, these pioneers continued to pursue their research, driven by a desire to improve human health. Lastly, the need for a holistic approach. Nutrition is not just about individual nutrients but about the complex interplay of factors that contribute to health and well-being."

- **WARNING! Obviously Trump is clueless (wittingly or unwittingly?) regarding polio! Here is what I posted in KU151/26 August 2024:*

• **⚠ "20 THINGS YOU DON'T KNOW ABOUT POLIO"** - *This is HOT! Excellent, insightful and needful incentive to not be ignorant of the Devil's devil€\$!:*

(Excerpts:) "Before DDT spraying, there was ARSENIC spraying! In 1929, almost 30 million pounds of lead arsenate or calcium arsenate were sprayed in the fields and orchards of America. In fact, the government was so enthusiastic about the use of arsenic, that in 1935, an FDA-hosted radio program suggested the old nursery rhyme 'A is for Apple' should be changed to: 'A is for arsenate, Lead if you please, protector of apples against arch-enemies.' In 1919, Boston Health Department was forced to destroy arsenic-coated apples because people were getting sick. Scientists say the earth is still tainted with the residue, and believe lands once used to raise cotton, is now responsible for arsenic found in rice. Arsenate pesticides were officially banned in the US, in the 1980's, but 'modified arsenates' are still used on cotton crops today. China, meanwhile, kept using arsenate sprays beyond 2000, and it is suspected they are still using them illegally. Note the symptoms of acute arsenic poisoning = fever, vomiting and nausea, headache, sore throat etc. Chronic poisoning = polyneuritis and paralysis, especially in the extremities...Franklin D. Roosevelt, who was crippled by 'polio' in 1921, at age 39 years, also owned an apple orchard where the family used to spend their summers, and he used to swim regularly in the pond nearby...At the time, mostly children were affected, and it was considered rare

for adults to have 'polio'. POLIO is a man-made disease caused by heavy metals exposure, not a virus... **the entire history of polio and vaccines was fabricated.** The polio con job, ranked as 1 of the top 10 medical con jobs of all time...The reason so much effort is placed into medical con jobs like this is to continually infuse the public with false fear regarding viruses that don't exist, and also to provide false hope and blind faith belief in toxic vaccines and poisonous medications, which only worsen a population's overall health status...this is when a confused citizen needs to investigate EUGENICS and the history *[and families - DYOR!]* behind that movement. The end result is the same, regardless of medical ambush. The elite groups who organize such fraud based operations increase tyrannical control over a diseased, die-empowered, depressed, dis-satisfied, dis-oriented and dumbed down population. Such a population is easier to control, steal from, manipulate and govern. It's not really about polio or viruses, it's about poisoning the population into a chemical lobotomized state that ends with increased elite domination and iron-fist control. How did 80% of North Americans come to become extremely unhealthy in our most technologically advanced era?...because this has always been the design of the system. The ruling of 8 billion people by an extremely small group of 10,000 can only be achieved when that 8 billion operate in perpetual chaos...physically, economically, mentally and spiritually...Some very interesting beliefs of Jonas Salk are exposed throughout the book...'Survival of the Wisest Book Review - Father of Vaccines Jonas Salk'...and you best be sitting down when you do. Salk openly endorses the medical *[medikill!]* system, and associated power groups kill at will to achieve this groups' very dark goals."

• **"Israel demands \$100 billion from U.S. taxpayers in 25-YEAR AID PACKAGE"**- *THAT'S one of Isahell's REAL main hostages: THE USA!!!*

(Excerpts:) "The deal aims to insulate the U.S.-Israel relationship from future political changes...Israel is trying to control the U.S. for three more decades. Israel may seek to limit aid spent on U.S. defense companies, funneling more money to its own defense industry...In a move that has sparked outrage and concern among American taxpayers, the Israel Lobby is aggressively advocating for a 25-year, multi billion-dollar aid package from the United States, effectively quadrupling the current commitment. The current 10-year, \$38 billion Memorandum of Understanding (MOU) between the two nations, which provides \$3.8 billion annually in military aid and missile defense funding, is set to expire in 2028. However, influential voices within the Israel Lobby are pushing for an extended and expanded agreement, one that would lock in nearly \$100 billion in aid over the next quarter-century. The audacity of this request is staggering, especially when considering the historical context of U.S. support for Israel. Since 1946, the United States has provided over **\$328 billion in direct aid to the Jewish state, a figure that does not include the trillions spent on wars in the Middle East,** ostensibly to secure Israel's security. Despite this immense investment, the Israel Lobby remains insatiable, demanding even more from the American taxpayer. The push for this unprecedented aid package is not just a matter of financial negotiation; it is a strategic move to entrench the U.S.-Israel relationship and shield it from potential shifts in American political sentiment." - *"Hell and destruction are not filled; so also are the eyes of men insatiable."* (Prov.27:20 Septuagint):

The Bible is more relevant today than at any point in history. It actually reveals the truth behind the EU and what it means to us as Christians." - <https://www.youtube.com/watch?v=66uCnNwLJtM>] whilst he was filming it, he says he asked a Strasbourg-born journalist if she understood the meaning of the tower. She said she did and she also confirmed that the members of the European Parliament also understood that it represented Babel from the Bible, and that the purpose of the European Union was to finish what Nimrod and the people together had failed to do some 3,500 years ago...there is a sculpture of 'The Woman on the Beast' which is the main feature on the outside of the building of the Council of Europe in Brussels. It represents the Greek myth of the "Rape of Europa", it is from this myth about the woman that the continent of Europe got its name from. The 'Woman On the Beast' is mentioned twice in the Bible, in Revelation chapters 13 and 17 and the vision of the Beast is shown the vision of Daniel in the Old Testament in Daniel chapter 7...The Parliaments of Strasbourg and Brussels also contain paintings of the 'Woman on the Beast'. This symbol is openly used by member states of the European Union. This image can be found on Euro currency. There is an image of this symbol as a painting on

the Berlin Wall done in 1979, and in 1984 the woman appeared on a British stamp commemorating the second set of European elections and she is on a painting in the airport lounge in Brussels. The forehead of the name of this sculpture also has a second name 'Mystery Babylon'. Unseen, with unclear sides, fought with the manipulation of information, perception and consciousness itself, vying for power over humanity's collective destiny. The prediction issues a warning to exercise optimum discernment and truth. There's much much more mentioned in this video; and while I'm skeptical of it at this point and am not putting my weight on it (but rather, as always, on the Word of God), I am mainly posting it as a preface to the two articles that follow regarding Microsoft's recent quantum breakthrough.

(Excerpts:) "...it's defined by its topological properties — how the material's wave functions behave and connect across space. This topological state is created by the chip's topoconductor, a first-of-its-kind material that produces fundamental units of information that serve as the building blocks for quantum computers. To achieve this topological state, the researchers had to build the chip using an entirely new combination of materials: indium arsenide and aluminum. Microsoft says Majorana 1 will pave the way for quantum computers that can solve 'meaningful, industrial-scale problems in years, not decades.' Such issues would include everything from how to combat pollution to developing life-saving medications. If you check out the most recent Trilateral Commission membership record it lists Starmer [<https://iaindavis.com/pdfs/TCML.pdf>] as a 'Former Member in Public Service'. In a recent Independent Media Alliance panel, I was fortunate to have the opportunity to ask the world's leading expert on the Trilateral Commission Patrick Wood why 'former' members would be listed on the current membership list. Patrick Wood said: 'Unless somebody resigns from the Commission, they keep the name of a public servant in a special section below the active members. While it already has approval from the Tennessee Valley Authority (TVA) to receive 150MW, some community members are concerned that this huge demand will cause energy prices to spike for residential consumers and that the quick solution to this problem would be to build a new gas plant...And if other corporations, like Supermicro, set up shop locally, they would need power, too, thus putting a lot of strain on the local electricity supply grid.":

The emergence of quantum computers will allow governments and corporate elites to break the encryption-securing systems used by people in every sector. At this point, all privacy will be gone. The government will know everything about everybody. Data is power. Don't think it won't be used for evil. In fact, this is exactly the type of world Larry Ellison, chairman and founder of Oracle, has said he is working toward achieving. Ellison is one of several tech oligarchs partnering with the Trump White House to launch the Stargate project, which requires building massive data-collection centers across the United States and dedicating all that data collection to an all-powerful, all-consuming AI. Ellison said we will all be on our 'best behavior' when we know we are being watched and listened to 24/7. > 🧑 *Have you heard of Balochistan? Well, it's not on the back burner! The stateless nation of Balochistan, a hitherto relatively unknown corner of South*

Asia divided between Pakistan, Afghanistan, and Iran, is rapidly emerging from obscurity. While the region does not get as much attention as other stateless nations such as Kurdistan, Uyghurstan and Tibet, Balochistan is no afterthought to its stakeholders. With an estimated \$1 trillion in natural resources and sitting astride an international crossroads of increasingly critical importance, Balochistan is becoming a stage on which the world's powers are playing out their ambitions. China, the U.S., and India have all formulated Balochistan policies in the past few years, hoping to utilize the region to achieve wider international goals — and the three countries across which Balochistan is divided have been eager to use it as a bargaining chip for their own purposes.

(Excerpts:) "Ukrainian Parliament failed to pass the vote recognizing Zelensky as president until the inauguration of a new Head of state. This is a signal: Leave. Through this vote, the Verkhovna Rada (Parliament) made clear to Zelensky there will be no indefinite mandate. Europe expected 'stability' and 'support' for him, but saw a parliament setting a countdown timer for Zelensky.":

> 🚫 **"'Foreigners Who Do Not Obey the Rules Have No Place in Japan' – Prime Minister Ishiba Declares War on Unchecked Migration"** - .40 sec vid.
(Excerpts:) "While Japan is taking necessary steps to protect its people, Western nations continue to spiral into self-destruction. Across Europe and North America, governments bow to the pressures of open-border advocates, allowing violent criminals and hostile actors to flood their countries. Cities once known for safety and cultural identity are now battlegrounds of unrest as politicians refuse to admit the failures of mass migration. The situation mirrors the chaos in Western nations, where crime, cultural erosion, and social instability have become the norm. Leaders in the U.S. and Europe feign surprise when so-called 'refugees' bring violence, refusing to acknowledge the deliberate undermining of national security through lax immigration policies. Japan, by contrast, refuses to play along with this suicidal game. Japan's response should serve as a wake-up call. The survival of a nation depends on the enforcement of its laws, the protection of its borders, and the preservation of its people's way of life. Anything less is national suicide. Prime Minister Ishiba has made his position clear: Japan will not be held hostage by those who refuse to respect its laws. The West must take note before it's too late."

(Excerpts:) "...one of the most visible proponents of Word of Faith theology...at its heart is the belief that if you are a Christian, you are a 'little god'...Further, White teaches that as an equal with Jesus — and even as God himself — Christians are entitled to health and wealth because God cannot be poor and certainly cannot be sick. Health and wealth are yours provided that you have enough faith and that you sow enough 'seed' into a Word of Faith preacher's ministry – and by 'seed', these preachers mean money...White is fond of attaching a seed amount to various scripture verses. She has, for example, told her followers to sow \$91 based on Psalm 91 and thereby secure God's protection from various enemies,

including, but not limited to, sickness and disease. She once told her followers to sow a 'resurrection seed' of \$1,144 based on John 11:44, which records Jesus' resurrection of Lazarus from the dead...It grieves me that our president is surrounded by 'faith advisers' who are such poor representations of Christianity. *[Well, Trump is not a Christian, so what do you expect? He converted to Judaism in 2017, which I've previously KUed about.]*...Pastor Greg Locke, for example, in criticizing those of us critical of Paula White, said he's 'for revival and truth no matter who's leading it'. I'm certainly for revival, but true revival will never come through the hands of false teachers or those who endorse them." - *Hmmm!*:
