This week I've paused "The Lost Books of Adam and Eve" study in order to highly recommend watching this spectacular video about the Shroud of Turin! This is truly a fitting item to crown this week's remembrance of our crucified and resurrected Saviour!

1. An article containing a brief summary of what is covered in the interview and an 8.38 min vid that peeks into one of the interview's shocking WOWs! - and -

2. The link to the full "Face of God" interview.

The interviewee, Dr. Jeremiah Johnston, is a once-upon-a-time skeptic turned dedicated defender of the Shroud! I've read about and seen studies about it, but this presentation, imo, by far tops them all! After viewing it, I thought: How much information is enough to cause people to believe?! Even Jesus said that though one would rise from the dead, still the reprobates won't believe. (Luke 16:31) But those who are His, who "hunger and thirst after righteousness" (Mat.5:6), shall be filled, will hear and believe that Jesus is "the resurrection, and the life" (Jn.11:25)! • "Faith Meets Science: The Shocking Truth About the Shroud of Turin - New scientific and historical discoveries challenge long-held doubts about the Shroud of Turin. ### [Differing views from two KU readers who have already viewed the above Redacted video regarding Time Travel.:]

**[Comment number 1]** - I have seen before and certainly know of the "plane incident". It is indeed very compelling, but I believe it is a psy-ops and likely a "blue beam" scenario. I have heard many trying to decipher this, but not very well, as most will believe it and go with the scientific narrative. Firstly, there is no time travel. This is a sci-fi brought about by simply using Einstein's theory and manipulating it. Basically speaking, if you accelerate your speed closer to light speed, you or your image can no longer stay ahead of you, as your image can only travel at the speed of light. So when you attain light speed, you travel at the speed of your image, so theoretically you get younger or stay as you are while you wait for your image to catch up. This can only happen in theory, if you have an endless space to do this. But if we believe our Bible, there is no space, as we are in an enclosed world (or, for want of a better expression, "prison world"), thus we lose the ability for light travel. The only thing to date that has been measured as being faster than light is "magnetic flux". Therefore, super-magnetic devices, etc. (like the Philadelphia experiment) opened the doors to inter-dimensional incursions which are not scientific in nature created by man, but "fallen angel" technology.—Or should we also call it nephilim or demonic technology manipulated through people in high places that are able to use this technology to create an environment and army to be able to stand up to God (the Lord Jesus) when He returns with His Heavenly army very soon. Eisenhower, when he was president, signed a multi-faceted deal with the "aliens" (nephilim or demons) for access to bases, facilities, etc. for their biological experiments with an endless supply of people (victims) for such experiments. They have become very good at this and have created a large army of hybrids or non-human entities. They have been trying to harvest the souls, as they cannot create them, and they haven't been able to stop them returning to the Father once leaving the body. Hence the Daniel 2.43 ["And whereas thou sawest iron mixed with miry clay, they shall mingle themselves with the seed of men: but they shall not cleave one to another, even as iron is not mixed with clay."] feet interpretation being iron and clay and the Genesis 3.15 ["And I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel." mixing of seeds. As far as time travel goes: No. God is the only One Who is beyond time as we know it; not even angels and certainly not the fallen angels. But, interdimensional travel is a whole different ball game. The Enemy is trying to perfect it, as that is the only way for them to return to where they came from and challenge God. This will not happen, as God is still fully in control and it will be the Enemy's eventual demise. As for the word "gravity", this is an unproven theory which was raised by Newton, but if we read his papers, we find that he himself had a problem with that theory. First question could be: If gravity is gravity, then why do clouds with billions of litres of water stay floating in the air. Yes, they do rain when they over saturate, but moisture-content-cloud testing has revealed on many occasions that the moisture density can carry a very high percentage of moisture without it ever falling. There are many such questions that have no or at best very poor answers. But we mustn't forget that when one puts on a white overcoat and maybe a pair of glasses, they are believed. A few initials alongside their credentials always helps too. It just means that we have been well indoctrinated. The subject of time travel/inter-dimensional travel is very interesting, but I look at it more as mankind is being psychologically

prepared for the great deception in order to try and distract mankind to be looking and eagerly awaiting the Lord Jesus, and not to look for Him here, there and everywhere. This is a time to be wary and wise and not be distracted.

[Comment number 2] - Regarding time/space travel and people being teleported from one plane to another: My father was a highly decorated UK wing-commander in the RAF with an O.B.E. for being an inventor in the areas of electronics whilst in the military and World War 2. He was a participant in seeing teleportation when they had two rooms that were identical and they put a number of people in one of the rooms and then teleported those same people to an identical room. So, I personally know that it can be done (as shown in Star Trek, for example). Most of what is done in the military is kept secret. There are other ways to go faster than time than just having to go faster than light, but I won't get into that. I don't think anyone is entitled to state, "There is no time travel", as no one actually 100% knows that to be the case. Why does the Bible state "that there should be time no longer"? "And the angel which I saw stand upon the sea and upon the earth lifted up his hand to heaven, and sware by Him that liveth for ever and ever, Who created heaven, and the things that therein are, and the earth, and the things that therein are, and the sea, and the things which are therein, that there should be time no longer: But in the days of the voice of the seventh angel, when he shall begin to sound, the mystery of God should be finished, asHe hath declared to His servants the prophets." (Rev.10:5-7) Is it not possible that is stated because man has been messing around with time?-Of which there is a lot of evidence.

"Exploring France's Military Interests at the 'Focsani Gate'" - Includes 1.35 min vid

(Excerpts:) "Recently, France has expressed significant interest in the strategic trijunction of Romania, Moldova, and Ukraine, a historically important area that NATO aims to secure to restrict Russia's operational reach along its Southeastern flank, particularly at the vulnerable 'Focsani Gate'. This region, approximately 60 km x 80 km, is situated near Focsani, Galati, and Braila, within the Wallachian Plain between the Carpathian Mountains and the Danube River...The largest NATO base in Europe is still under construction. The new base at Mihail Kogalniceanu Air Base 57 in Romania [which I've KUed several times about] will permanently host up to 10,000 soldiers, and according to Romania's Minister of Transport and Infrastructure, Sorin Grindeanu, the American military base at Mihail Kogălniceanu, in Constanța County, represents another strategic asset for transforming the Port of Constanta into a logistics hub, which will become the main logistics hub for the reconstruction of Ukraine. The base is so strategic that most of the information regarding its construction and the contractors is classified... it's worth being aware of the attention that France is paying to tactical details like the local terrain near the

Romanian-Moldovan-Ukrainian trijunction, which suggests that its talk about an intervention in Ukraine is more serious than some think. With these possible motives in mind, it can be concluded that <u>France envisages Romania but also</u> <u>Moldova falling within its 'sphere of influence'</u>...It's premature to predict that France will do so, but such a scenario can't be ruled out either, since it would align with <u>Paris' Great Power goals</u>. > A deal between Washington and Tehran on Iran's nuclear program would be a disaster for Netanyahu. If sealed, would it make a unilateral Israeli strike on Iran's nuclear facilities almost inevitable?

#### "US Inching Towards a Deal With Iran"

(Excerpts:) "Trump is desperate for a foreign policy victory. He's failed to deliver on his promise to end the war in Ukraine and he is facing growing pressure from angry farmers who are outraged over the tariff war on China. So, if he can bring home a win by declaring that Iran is ending its program to build a nuke, even if it means accepting an updated version of the JCPOA deal he abandoned seven years ago, I think he will stick with the deal Witkoff appears to have concluded with Foreign Minister Aragchi...There are other factors that may be giving Trump second thoughts about starting a war with Iran. The Middle East Spectator is reporting that: Iran's 2,000 kilometer range 'Sepehr' OTH Radar has finally become operational, satellite imagery seems to confirm. The radar array is one of Iran's most advanced over-the-horizon radars, more than 1,5 kilometers in length. It can detect takeoffs of individual aircraft or ballistic missile launches at a range of up to 2,000 kilometers, including inside the entirety of Israel. Only a handful of countries have mastered such advanced OTH radar technology, and the radar provides Iran with valuable early warning of an imminent attack...the Iranian's have the capability to detect and thwart a military attack by either the US or Israel...The odd man out is Bibi Netanyahu...At least once a week, Alastair's incredible wife peruses the Hebrew-language press in Israel and provides a summary of what the Israelis are saying in their own tongue. Much of this is never reported in the Western press. The most recent post on this subject paints a pretty bleak picture of the internal politics of Israel. Based on what is

being written and said in Hebrew, <u>Bibi has some big problems</u>." - Includes 1.01.47 hr interview by Larry Johnson with Alastair Crooke.: <u>https://sonar21.com/inching-towards-a-deal-with-iran/</u>

Florida Senate passes bill to ban weather modification and geoengineering. For the past 16 days, since April 3, we have noticed three important developments in our skies. (1) We have seen those unusually clear and deep azure skies of yesteryear like we have not seen in decades. (2) On those clearest of days, there is not a chemtrail to be seen—anywhere. #### > 😭 🙏 "I Want A Death That The World Will Hear' — Journalist Assassinated By Israel For Telling The Truth; Israel views journalists as its enemy because Israel is the enemy of truth." - Includes 4.31 and 1.55 min vids.

(Excerpts:) "Israel assassinated a photojournalist in Gaza in an airstrike targeting her family's home on Wednesday, the day after it was announced that a documentary she appears in would premiere in Cannes next month. Her name was Fatima Hassouna. Nine members of her family were also reportedly killed in the bombing. She was going to get married in a few days. The documentary is titled 'Put Your Soul on Your Hand and Walk', and it's about Israel's crimes in <u>Gaza</u>...For this to have been a deliberate act — which it plainly was — consider what that means. A person within the IDF saw the news that Fatma's film was accepted into Cannes. He/she/they then proposed assassinating her. Other people reviewed the suggestion and approved it. Then other people carried it out. Israel has been murdering a record-shattering number of journalists in Gaza while simultaneously blocking any foreign press from accessing the enclave because Israel views journalists as its enemy. And Israel views journalists as its enemy because Israel is the enemy of truth. Israel and its western backers understand that truth and support for Israel are mutually exclusive. Those who support Israel are not interested in the truth, and those who are interested in the

<u>truth don't support Israel</u>. That's why the light of journalism is being aggressively snuffed out in Gaza while Israel massively increases its propaganda budget to sway public opinion. It's why journalists like Fatima Hassouna are being assassinated while the western propaganda services known as the mainstream press commit journalistic malpractice to hide the truth of Israel's crimes. It's why western journalists are banned from Gaza while western institutions are silencing, deporting, firing and marginalizing those who speak out about Israel's criminality. Israel and truth cannot coexist. Israel's enemies know this, and Israel knows this. That's why <u>Israel's primary weapons are bombs, bullets, propaganda, censorship, and obstruction, while the main weapon of Israel's enemies is the camera</u>.":

(Excerpts:) "On Donald Trump's Truth Social page this week, Trump wrote (or more likely someone wrote on his behalf): 'This Holy Week, Christians around the World remember the Crucifixion of God's Only Begotten Son, our Lord and Savior, Jesus Christ and, on Easter Sunday, we celebrate His Glorious Resurrection and proclaim, as Christians have done for nearly 2,000 years, "HE IS RISEN!" Through the pain and sacrifice of Jesus on the Cross, we saw God's boundless Love and Devotion to all Humanity and, in that moment of His Resurrection, History was forever changed with the Promise of Everlasting Life.' It would be a wonderful Resurrection Sunday greeting, if the man who sent it didn't possess such an intense antichrist spirit. Trump callously partners with a murderous madman, Benjamin Netanyahu, and slaughters tens of thousands of Palestinian, Lebanese and Syrian Christians who would love to be peacefully, joyously celebrating Resurrection Sunday with their families, but instead, they are starving, bleeding, weeping and dying under the U.S./Israeli genocide. This message was nothing more than pathetic pandering to Trump's already super-duped evangelical base—an evangelical base that has ZERO conscience about the death and destruction that they and their political messiah are inflicting on innocent people in too many countries to even count... Trump himself told evangelicals in West Palm Beach, Florida, at the Turning Point Action Believers' Summit on July 26, 2024, 'I'm not Christian' [He

converted to Judaism in 2017].]...This makes him a Christ-rejector, a man headed for Hell (John 14:6; Acts 4:10 -12) and, by <u>his fanatical, unconditional</u> <u>support for Jewish Pharisaism</u>, a child of the devil (John 8:44)." - *Read full exposure of this charlatan*!:

> Image: Second Seco (Excerpts:) "...the regulation includes a comprehensive set of restrictions [see article for list]...Violators of these restrictions may face criminal charges depending on the severity of the offense. According to Breitbart, this new regulation is designed to formally end foreign missionary activities in China. The new regulation is the latest example of the CCP's deep-seated animosity toward all religions, especially Christianity. Between the 1980s and early 2000s, China's Christian population surged significantly, with estimates in 2018 indicating it may range from 100 to 200 million — outnumbering the nearly 100 million members of the CCP itself. The CCP, an atheist organization, is alarmed by the rapid growth of Christians. One of the CCP's worst fears is that the devotion to God could erode loyalty to the party and thus threaten its very legitimacy. As a result, the CCP sees Christianity as an existential threat. Since assuming leadership of the CCP in 2013, Xi Jinping has implemented a three-pronged strategy against all religions, particularly Christianity. This strategy involves the sinicization of religion, which entails aligning religion with Chinese culture and communism, and ensuring loyalty to the CCP. It also includes the ruthless persecution of religious believers who refuse to conform to the sinicization of religion and instead remain steadfast in their actual religious beliefs and practices. The third leg of this

strategy is using laws and regulations to curb the future growth and expansion of religion.":
