> *Since the 2nd installment of our study from the "The Lost Books of Adam and Eve", on the degrees and depths of deception Satan tried in order to tease, lure, deceive, beguile, seduce, distract, scare, manipulate, and even kill Adam and Eve after they had been sent out of the Garden of Eden, Satan has tried the more lovely-dovey approach on Adam and Eve—using (fake) praise, angel attire, worship songs, promises of restoration—all to no avail. The divide-and-conquer approach failed as well. In this 7th installment, we must first take a look at the last verse of Chapter 42, verse 13, which says, "And Adam and Eve worshipped the Lord, and returned from the river of water to the cave. It was noon-day; and when they drew near to the cave, they saw a large fire by it." Yep, "the hater of all good" is angry, really angry!*

Chapter 43 - Arson attack.

1 Then Adam and Eve were afraid, and stood still. And Adam said to Eve, "What is that fire by our cave? We do nothing in it to bring about this fire.

2 We neither have bread to bake therein, nor broth to cook there. As to this fire, we know not the like, neither do we know what to call it.

3 But ever since God sent the cherub with a sword of fire that flashed and lightened in his hand, from fear of which we fell down and were like corpses*, have we not seen the like. [**This event took place in Chapter 3:9-10.*]

4 But now O Eve, behold, this is the same fire that was in the cherub's hand, which God has sent to keep the cave in which we dwell.

5 O Eve, it is because God is angry with us, and will drive us from it.

6 O Eve, we have again transgressed His commandment in that cave, so that He had sent this fire to burn around it, and to prevent us from going into it.

7 If this be really so, O Eve, where shall we dwell? And whither shall we flee from before the face of the Lord? Since, as regards the garden, He will not let us abide in it, and He has deprived us of the good things thereof; but He has placed us in this cave, in which we have borne darkness, trials and hardships, until at last we found comfort therein.

8 But now that He has brought us out into another land, who knows what may happen in it? And who knows but that the darkness of that land may be far greater than the darkness of this land?

9 Who knows what may happen in that land by day or by night? And who knows whether it will be far or near, O Eve? Where it will please God to put us, may be far from the garden, O Eve! or where God will prevent us from beholding Him, because we have transgressed His commandment, and because we have made requests unto Him at all times?

10 O Eve, if God will bring us into a strange land other than this, in which we find consolation, it must be to put our souls to death, and blot out our name from the face of the earth.

11 O Eve, if we are farther estranged from the garden and from God, where shall we find Him again, and ask Him to give us gold, incense, myrrh, and some fruit of the fig-tree?

12 Where shall we find Him, to comfort us a second time? Where shall we find Him, that He may think of us, as regards the covenant He has made on our behalf." *[Personally, I get two main items out of the above panic attack from Adam: 1.) He didn't keep it all pent up, but kept communicating with Eve—sacrificing his pride by exposing his fears and doubts—and I think that's commendable. "But to do good and to communicate forget not: for with such sacrifices God is well pleased." (Heb.13:16). 2.) I recall as clear as it was yesterday a dear Christian brother telling me so many decades ago, "The only exercise you get is jumping to conclusions!" Oh dearie me, yes! The times in my life when I readily jumped to conclusions, thinking and worrying about this, that and the other, when it would have bode better for me if I would have patiently trusted in God's plan.]*

13 Then Adam said no more. And they kept looking, he and Eve, towards the cave, and at the fire that flared up around it. *[In the midst of this calamity, still not understanding, yet they stood their ground. "Wherefore take unto you the whole*

armour of God, that ye may be able to withstand in the evil day, and having done all, to stand." (Eph.6:13)]

14 But that fire was from Satan. For he had gathered trees and dry grasses, and had carried and brought them to the cave, and had set fire to them, in order to consume the cave and what was in it.

15 So that Adam and Eve should be left in sorrow, and he should cut off their trust in God, and make them deny Him.

16 But by the mercy of God he could not burn the cave, for God sent His angel round the cave to guard it from such a fire, until it went out.

17 And this fire lasted from noon-day until the break of day. That was the forty-fifth day.

Adam & Eve, only 45 days since the closure of their Garden of Eden life, have faced a satanic arson attack on their home at noon, which went on into the night until daybreak—that's well over 12 hours! But this particular fiery trial isn't over yet!

>  Here are two interviews featuring the late, eminent Biblical scholar Dr Tom Horn—the first one is in tandem with Steve Quayle. Tom Horn's articles and videos were frequently included in Key Updates founder Robert Allen's weekly podcasts. I **highly recommend** listening to both of these. Both are OAAO.

- **"The Hybrid Age & A Warning For 2025"** - 1.30.09 hr interview.

(Description:) "During the Hybrid Age, astonishing technological developments push the frontiers of humanity towards far-reaching morphological transformation

(which promises in the very near future to redefine what it means to be human), an intellectual and fast-growing cultural movement known as transhumanism intends the use of these powerful new fields of science and technology as tools that will radically redesign our minds, our memories, our physiology, our offspring, and even perhaps (as Professor Joel Garreau, Lincoln Professor of Law, claims) our immortal souls.":

> 🚩 • **"Trump announces big 'deal' with Saudi Crown Prince: What does it mean** for us little people? While the media focuses on the billions being invested and jobs 'created' in a deal tailor made for America-first soundbites, **what's the hidden agenda**, the story behind the story? Let's break it down." - A recipe for more wars, rewarding those who kill Christians

(Excerpts:) "President Donald Trump has agreed to a \$600 billion investment deal with Saudi Arabia that also includes \$20 billion in Saudi investment in **AI data centers** in the United States and billions more in **arms shipments** to Saudi Arabia...deals that strengthen the energy sector, the military-industrial complex, technology and artificial intelligence, and access to global infrastructure and critical minerals...White House also announced it has agreed to **drop economic sanctions against** the new Turkish-backed Sunni Islamic caliphate in Syria, a **jihadi regime that has slaughtered thousands of Christians** and Alowite religious minorities...Trump is enriching and empowering literally some of the most evil and oppressive forces in the world today, along with the Islamic terror center of Saudi Arabia. This is what it boils down to now for American foreign policy: Shiite Muslim countries = bad. Sunni Muslim countries = good. The world is divided into two camps, Russia-China-North Korea and the Shiite Muslim world, against the US-Canada-Europe-Israel-Australia-Japan and the Sunni Muslim world. At some point, they will go at each other in World War III. India, a military power in its own right, tries to play both sides but appears to be more aligned with the Russians. The end goal is basically the same no matter which side emerges the victor. AI, robots and 'augmented' humans will replace us all in a global technocracy, but you need smart people to write the codes for the emerging digital slave state. Most of the programmers will likely be foreign. The vast majority of American workers, both white- and blue-collar types, will be worse off. That's why Trump's tech partners, men like Elon Musk and Sam Altman, often talk about universal basic income as the wave of the future. What

has Saudi Prince MBS been promised privately, I wonder, for helping to underwrite the expansion of AI for the future digital slave state?...Was he promised that the U.S. will not crack down on the growing Muslim enclaves in America, such as EPIC City in Plano, Texas? [See items regarding this Texas takeover in tomorrow's postings!]...Trump is doing more to usher in the global digital reset (I call it the beast system) than all previous presidents combined.":

> 😭 "Gaza faces 'catastrophic' famine with 93% of population in crisis, aid groups say"

(TTS:) "With hundreds of thousands facing severe food shortages and Israel now controlling aid corridors, Netanyahu can use hunger and the prospect of starvation as a means of subjugation."

(Excerpt:) "Gaza faces imminent famine, with 477,000 people in catastrophic hunger and 93% of the population suffering severe food insecurity due to Israel's blockade. UN officials describe the crisis as 'beyond terrifying', with 930,000 children at critical risk and 11,000 cases of acute malnutrition reported since January. Israel's blockade has prevented 116,000 metric tons of food from entering Gaza, leaving families starving while aid sits unused at the border. Gaza's food production is decimated—75% of farmland is destroyed, and basic goods like flour now cost 40 times their pre-war price. The U.S. faces criticism for funding Israel's military campaign while failing to secure meaningful aid [Whilst Trump and Co. party on!] as experts warn famine will be irreversible if action is delayed.":

(Excerpts:) "If I had to name one revelation that would rock to its foundations the conventional understanding of recent history, it would be that Adolf Hitler was a tool of the same criminocratic cabal that today runs Britain, the USA, Israel and just about everywhere else...see exactly who was behind the Hitler manoeuvre and how it was carried out as part of a long-term plan...Anglo-American banking and political elites responsible...'they placed two of their senior intelligence agents (one English, one German-American) directly at Hitler's side in the early 1920s and funded him, groomed him for power, and helped him promote his despicable Nazi philosophy. Having actively manoeuvred Hitler and his Nazi party into dictatorial power in Germany, those same Anglo-American elites proceeded to fund them and build their massive new military machine in preparation for another world war. Those elites planned another war, wanted another war, and would ensure that it happened.'...British foreign policy is not decided in a democratic fashion but by massively wealthy and powerful individuals involved in international finance in the City of London. The City is a law unto itself, to the bankers that control the Corporation...it is so rich and powerful that no incident occurs anywhere in the world without its participation in some form or other...How has it been possible to erect this Internationalistic structure of misrepresentation and deception in our midst and to protect it from exposure? Why have not our professors of history, our college presidents and educators, our crusading newspapers exposed this monstrosity?"

(Excerpts:) "First of all, we don't actually have a 'trade deal' with China. What we have is a 90 day 'cooling off period' during which we could potentially negotiate a 'trade deal' with China...Without a doubt, that is a good thing...for now...things are never going to go back to the way they once were...The Trump administration is framing this 'cooling off period' with China as a big win, and stock prices absolutely soared today. Interestingly, the Chinese are also framing this 'cooling off period' as a big win for them too...a 50 percent tariff rate on Chinese imports is still really going to sting.The U.S. economy has been heading in the wrong direction for years, and this is certainly going to accelerate our problems. (Excerpts:) "...we're making inroads, real inroads, on bringing countries into the Abraham Peace Accords." Witkoff shockingly predicted that nations like

Lebanon—where the terror group Hezbollah operates from—and Syria, which had an Islamist leader just topple the now former government of dictator Bashar al-Assad, may join up with Israel into the Abraham Accords soon. He also mentioned Libya as a possible partner [Is that why the US is possibly involved in the recent eruption of violence there, to make Libya capitulate?], and Armenia and Azerbaijan...The big remaining possible Abraham Accords entrant is the Kingdom of Saudi Arabia...One big offensive play that Trump has spoken highly of that would create a trade corridor from India through the Middle East into Europe then over to the U.S. is called the IMEEC corridor, or India-Middle East-Europe-Economic-Corridor. That agreement has both the Saudis and the Israelis in it, so for Trump to truly unlock the counter measure to the Chinese Belt and Road Initiative getting to a place where relations are normalized between Israel and Saudi Arabia is critically important...He is reaching out to all the countries in the GCC [Gulf Cooperation Council]. I know that one of the reasons we have this trip is because he believes in the, I'll use the word **apotheosis**,* of the GCC—where it's going and how relevant it is in the world today." - Wow!

*Note his choice of word, "**apotheosis**"! Trump was sworn into office, NOT putting his hand on the Bible, under The **Apotheosis** of Washington, the fresco painted by Greek-Italian artist Constantino Brumidi in 1865 and visible through the oculus of the dome in the rotunda of the United States Capitol Building in Washington, D.C.! On 24 January I posted "When I heard that Trump was to be sworn into office under the Rotunda (because it was deemed to be too cold outside), it immediately sent me digging out these two articles which include insights into the meaning of the Rotunda itself, its art and symbology. • **"Bengali Millionaire Builds Muslim Village in the USA"** - Sam, originally from Bangladesh, is interviewed on the Muslim podcast *Righteous and Rich*. 1.05.02 hr interview. OAAO.

(Description:) "Meet the Bengali millionaire who built a Muslim village in the USA without any interest (riba) [usury]! This inspiring story shows you that success

and righteousness can go hand in hand. See how real estate played a major role in his journey to becoming one of the biggest and most successful Muslim entrepreneurs in the country. Don't miss this incredible story of faith and determination!"

There are a few ads from time to time in this interview. I've transcribed some of the sections so you can see "in print" how Sam (who mentions in the interview that he devoutly doesn't ever look at women news anchors!) is operating, and, in particular, how thrilled he is when a Christians denounces the divinity of Jesus Christ!—And the buzz he gets out of American's obeying him because he's got the money! Whilst listening to the interview, I was drawing parallels between their Muslim beliefs to that of the poisonous Prosperity Gospel preached in Christian churches. Same spirit, different religion nametag!

Starting at 27.50

Sam: There are two brothers in our office: one is a white gentleman and the other is an African-American. The white gentleman, who is a devout Catholic, now he's at the point he believes Jesus is not divine, there's no way.

R&R: Just from being another you guys!

Sam: Yes, from just being around us. If he's not divine, what is he? He's just your prophet, okay? The next step is in believing that Mohammad is God's messenger, and that's it.

R&R: Awesome!

Sam: There's the African-American brother, after seeing us fasting at Ramadan, and making more cold calls than we're usually doing, like more calls going more crazy while fasting. This guy said, "You guys gotta be divine! These guys don't eat, drink, and they make 250 calls a day! How is that possible? What is this about?" And then we showed him. Now in our Telegram, whenever he texts, he doesn't use the words "God" or "Jesus"; he says, "If Allah wills", "It's all from Allah." I just leave him be, and he's seeing everything that we're doing.

Starting at 49.12

Sam ...a total Muslim village. We're still debating on the name, but it's going to be something like a Muslim name with village attached to it. The names of the streets Khalid ibn al-Walid, Tariq ibn Ziyad — like all the great conquerors, people need to Google those conquerors and know that what they did! Google Khalid ibn al-Walid, Tariq ibn Ziyad! And then we want to have different sections, like all our past glories, and we want to bring them back. The way that we're doing, brother, like you cannot make it exclusive like Muslims are allowed or not allowed. What we're doing, there's something called association fiat. I don't know what it's called

in Dubai. Like your maintenance fees, your service fee, to cut the grass, to remove the snow, and whatnot. So that service fee will put their 75% of the service fee into the Masjid [Mosque]. Automatically if you are a practicing Christian, I'd advise you: Why help the Muslims? *[Everyone at the table laughs!]* The Muslims do their own thing, right? So this is the way we're going to put the clause. And our attorney already put it in there, so we have, brother, think about it. Like a guy comes from Bangladesh, with no idea about anything! Brother, we're putting in application now where we're selecting the names of the streets in the United States of America! We're putting the subdivision laws, like, "Hey, this is the law, one of the laws being your early contributions, 75% of it goes to support the Masjid. We're making these laws, we're putting those laws. It's unbelievable what Allah can do for you! *[They go into a conversation about verbal manifestations; that people kept talking about that the Muslims are going to take over, and now it's happening.]*

Starting at 52.01

Sam: John Smith is filing this application that says, "[Arabic name] street? Oh my God! What is John Smith thinking?" Right? But this is what you make John Smith do if you've got the money! You hire John Smith and tell him, "Hey, submit an application as I tell you to submit."

Starting at 52.26

R&R: And then you gotta pull out the Constitution that says freedom of religion!

Sam: Exactly!

R&R: We may identify as whatever we want! [Arabic name] street!

Sam: What are you going to do? Hurt this street's feelings? *[The guys are laughing!]*

R&R: Use their principles against them!

• "Are Islamists In Texas Openly Working To 'Conquer' Christian Land?"

(Excerpts:) "There's a civil war going on in America right under your nose, and you may not even realize it. The weapons being used aren't bullets; they are building permits. 'Epic City', which stands for 'East Plano Islamic Center', is a 279-acre development outside Dallas. They're not just building houses. They're building a beachhead for Islamic conquest in the heart of Texas. Saumik Amin, owner of the real estate brokerage firm responsible for the development, went on the Muslim podcast 'Righteous and Rich' to discuss the plans for the Islamic city...It's the blueprint for a parallel Islamic society. School children will adhere to

a strict Islamic dress code and gender segregation...The New York Times makes it sound like this is just another housing project, accusing patriots sounding the alarm of "Islamophobia." Certainly, watching the podcast, it doesn't sound like these men are afraid of 'Islamophobia'. 'A guy from Bangladesh comes over to the USA, naming streets after Islamic conquerors!' the host of the podcast laughed. 'It's unbelievable what Allah can do for you!' Amin replied. The co-host of the podcast then chimed in, insisting that the West 'manifested' a muslim takeover: 'If you keep saying something, someone will become like that. If you keep telling someone they are a villain, you become a villain. If you keep saying 'these Muslims are taking over'... [laughter]... I'm actually going to do it.'" - *Well, for those US Christians who didn't go into all the world and preach the Gospel, as Christ commanded in Mark 16:15, the world has come and is continuing to come to the US! Looks like a great opportunity to let our love light shine and to lead, in particular, Muslims into the arms of Jesus!*

• **"Islam and the Children: What the Doctrine Demands, and What the West Is Ignoring"**

(Excerpts:) "This article details how Islamic doctrine impacts children, both in Islamic societies and in the West. Drawing from primary Islamic texts—including the Koran, Hadith, and Reliance of the Traveller—it shows how children are expected to begin religious practices by age 7, are beaten by age 10 if they resist, and may be denied secular education. Practices such as child marriage, honour killings, and female genital mutilation are shown to be rooted in doctrine, not cultural misunderstandings. It documents real-world consequences: the child martyrs of Gaza, the enslavement of Yazidi girls, the denial of education for Afghan girls, and the systemic rape of non-Muslim children by grooming gangs in the West. Meanwhile, Western children are being softened up through Islamic rituals disguised as cultural inclusion—kneeling in mosques, fasting for Ramadan, and celebrating 'world hijab day' in classrooms. The core message is this: while Muslim children are weaponized, non-Muslim children are indoctrinated. In both cases, the source is Islamic law—sharia—which demands early and total submission. Too many still dismiss this as harmless, yet it is the children who will inherit the damage we ignore...Children are being used—Muslim and non-Muslim alike. In the Islamic world, they are weaponized. In the West, they are softened up. But in both cases, the mechanism is the same:

sharia. Islamic doctrine demands conformity, and it begins with the youngest and most vulnerable...This must be exposed. The doctrine is not hidden—it is widely available and it is being implemented in plain sight. Child protection is a duty that belongs to all of us. If not for yourself, at least speak out for them.":

(Excerpts:) "Israel is again in the news for all the wrong reasons. However, this time, it is not about the genocide of Palestinians. The regime officials and religious leaders are at the centre of the sexual abuse scandal...Tens of thousands of paedophiles operate in the occupied territories, leading to about 100,000 victims annually, Matzof Association, an Israeli paedophile monitoring organization, reported. Eliran Malki, head of the Matzof said, 'They are not deterred by the police and certainly not deterred by the contemptuous rulings that come from the hands of judges in the various courts'...According to a 2023 report by The Times of Israel, the illegal settlements have been known to harbor individuals accused of sexual offenses for an extended period...Records show that the Israeli regime has institutionalized illegal sexual relations to fulfil its nefarious settler-colonial designs in the occupied territories. For its notorious intelligence agency, Mossad, Sexpionage is an 'ethical' tool to lure people to gather intelligence. Israeli rabbis have even gone to the extent of deeming sex with enemies as 'kosher' for female secret agents...Last month, Infowars website lead reporter Jamie White was killed under mysterious circumstances two days after the network ran an extensive expose on the links between Mossad and the sex trafficking ring run by Epstein. The Zionist regime's systematic use of sexual abuse has permeated deep into Israeli society. In August last year, an Israeli regime soldier who had sexually assaulted a Palestinian detainee was invited on television shows and glorified for the inhuman act. He was applauded and treated like a celebrity after the sodomy case came to light...A 2024 report published by Association of Rape Crisis Centers in Israel (ARCCI) reveals shocking data regarding instances of sexual abuse and sexual harassment in the Israeli settler society over the past year...The majority of people imprisoned for sexual crimes are released before completing their full sentence, according to an

"Australia's vaccine cover-up: 35 died same day as COVID shot, but authorities ignored them" - *Newly uncovered documents reveal that 35 people died on the very day they received their shots—yet not a single case was properly investigated by the government's so-called safety watchdog.*

(Excerpts:) "Key points: 35 Australians died the same day they received a COVID vaccine, but the TGA completed causality assessments for only 24 of them. Not a single 'day zero' death was referred to the Vaccine Safety Investigation Group (VSIG), despite the alarming temporal link. The TGA admits it considers all reported deaths as possibly linked to vaccination—yet publicly claims most are coincidental. Families of the deceased report no follow-up from the TGA, with some death reports mysteriously 'lost' in the system. Autopsies often fail to provide answers, with deaths labeled 'unascertained natural causes' despite occurring shortly after vaccination. A federal compensation scheme rejected 91.6% of claims, leaving thousands of vaccine-injured Australians without recourse."

(Description:) "Before he became Pope Leo XIV, Robert Francis Prevost spent nearly two decades in Peru—a land shrouded in mystery, giants, Nephilim legends, and megalithic wonders. What secret knowledge did he uncover about the vast Chinkana tunnels beneath Cusco? [The name "Chinkana" is pronounced chee-NKA-nah. It is a word of Quechua origin. The "ch" sound is similar to the "sh" sound in English, while the "k" is pronounced like the English "k." The second syllable, "kana," is pronounced with a short "a" sound like the "a" in "father". Could it be that these Chinkana tunnels inspired the name for the Japanese "Shinkansen"?—Commonly known as the "bullet train" in English, the Shinkansen is Japan's high-speed rail network, a system of electrified railway lines that connects major cities across Japan, offering fast and efficient travel.] Did he discover evidence of ancient giants, hidden artifacts, and lost civilizations tied directly to biblical Watchers? Timothy Alberino reveals explosive details about Vatican cover-ups, mysterious underground labyrinths stretching thousands of miles, and strange artifacts guarded by centuries of secrecy. Hear firsthand accounts from Anselm P. Rambla, Vatican-connected explorer, who uncovered shocking truths beneath Peru's sacred ruins, tunnels, and temples, including the legendary Temple of the Sun (Coricancha). Discover why the Vatican built directly atop ancient ruins, what terrifying secrets might be buried

beneath Lake Titicaca, and how Pope Leo XIV's silence speaks volumes about these forbidden truths. Is Pope Prevost's elevation tied to his hidden knowledge?":

>  (Regarding these next items, DYOR for more info.) This week I've been watching Trump's tramp through Saudi Arabia, Qatar, the UAE; fawning speeches, plenty of pleasantries, we need you's, we want you's, mouths oozing with mammon, money, military contracts and technology, and, imo, due to what I'm going to mention below, silence regarding their joint-murderous secrets! Let's go back and remember that the current Saudi Crown Prince Mohammed bin Salman Al Saud (MbS) was promoted to that position in 2017. (The same year of Trump's first presidential term, starting on 20 Jan.) Then came the 2017–2019 Saudi Arabian purge, the under-reported mass arrest of prominent Saudi Arabian princes, government ministers, and business people in Saudi Arabia on 4

November 2017. Pulling off a successful political purge is no easy feat, particularly in Saudi Arabia, where the lines dividing royalty, politics, security, media and business are indelibly blurred. Family comes first—even in purges. The Al Saud family, the namesake of the country, spans 6 family tree branches and approximately 15,000 royals; all told, the House of Saud is believed to be worth upwards of \$1 trillion. And while, at that time, the 32-year old crown prince had been heralded across Western media as an ambitious and reform-minded upstart, not everyone in the royal family shared that view, particularly its more conservative members. Hence, at least 11 princes were rounded up over a weekend, many of them among the kingdom's most powerful royals. Next a slew of government ministers. Then many military leaders. Followed by sweeping up dozens of hardline clerics. Of course, if you're going to control the narrative, one has to control the ones telling that narrative, so he arrested many Saudi business leaders. And lest we forget, **Jamal Khashoggi, a Saudi dissident journalist, was murdered on 2 Oct. 2018 at the Saudi consulate in Istanbul, Turkey; to this day there is still no justice for his Saudi-state murder 7 years on.** "It is appalling that instead of pushing for justice for his murder, the international community continues to roll out the red carpet for Saudi Arabia's leaders at any opportunity, placing diplomatic and economic interests before human rights", states this article:

One must understand that the mark of the beast technology is not limited to a dainty microchip: it is full-blown integration into the grid system, having your mind altered and conscience seared – just as the KJB predicted as well, and there will be plenty that will submit to this, along with the annexation of marriage and promotion of fake meats (something else the WEF and globalists have worked towards).":

She contends that while a US president openly arming a genocide is welcomed with red carpets, handshakes, and blank cheques, Gaza continues to burn. Ghannoushi questions the Gulf regimes' failure to pressure Trump to halt the slaughter in Gaza or ease the siege — despite their wealth, influence, and despite them 'having the ear' of the US president." - *Packed into this vid is a treasure trove of truth! On the one hand Trump is pursuing peace negotiations in Ukraine with Russia. On the other hand, Washington is preparing another Maidan *[Revolution, which took place in Ukraine in 2014]*, this time in Georgia. How stupid are the Russians? Did they learn nothing from the Minsk Agreement? Is the Kremlin blind to the obvious fact that Washington is sequencing its wars with Russia and China by pulling out of Ukraine, turning it over to Europe, so that Washington can focus on China.":

- **"Istanbul 2.0 – Everything else is just noise"**

(Excerpt:) "Three of the four Russia's new regions happen to be partially occupied by Ukrainian troops. It is incumbent on the Russian side to see to it that this occupation is temporary: securing sovereign Russian territory is a sworn duty and failure to do so is not an option. Thus, Russia can offer the Kiev regime a choice: withdraw from Russian lands voluntarily or just keep the war going and your troops will still exit these regions, but in body bags. That is just for starters. It is also incumbent on the Russian side to achieve the stated objectives of Russia's Special Military Operation (SMO) in the former Ukraine, which are demilitarization, denazification and neutrality for the entire territory. These requirements were provided for by Istanbul 1.0, but then the Kiev regime received orders from its NATO masters to keep fighting to the last Ukrainian. Which it did. The NATO masters now think that it is time to pause the fighting, to regroup, rearm and retrain, and then to resume the mayhem; hence all the recent Western insistence on a temporary cease fire. The problem with cease fires is that the Kiev regime doesn't control its Nazi battalions, which keep firing on Russian territory even if ordered to cease firing... Istanbul 2.0 will be optional for Russia because the Russians can keep on fighting, depleting NATO weapons reserves and gradually freeing lands that were and, essentially, still are Russian in language, culture, religion and ethnic affiliation, until the objectives of the SMO have been achieved. But it doesn't appear likely that the Kiev regime would be capable of enforcing Istanbul 2.0 given that it doesn't control its own Nazi battalions; nor is it able to rein in an entire army of war profiteers that has formed around this conflict on the Ukrainian side. Thus, this conflict can only be ended through military means... Russia will only agree to measures that address the root causes of the conflict: demilitarization, denazification, neutrality, rights of the

Russian population (along with other, less numerous ethnic groups). Everything else is just noise.":

Doctors say they constructed a bespoke gene-editing treatment in less than seven months and used it to treat a baby with a deadly metabolic condition. The rapid-fire attempt to rewrite the child's DNA marks the first time gene editing has been tailored to treat a single individual. As previous KU articles have stated, molecular chaos has taken place in people who received Covid mRNA 'vaccines'. The mRNA stabs, driven into humans worldwide by the billions, continue to wreak havoc on one's DNA, immune system, reproductive organs, on to causing even death! So due to vaccine crap in the mother and/or father, their baby's genes are screwed up, therefore, "Hey! We can fix that with a wondrous gene-editing drug!" *(Comment from Self-Sufficiency Consultant Peter G.): Food grade plastic doesn't necessarily mean it's BPA free. There are food grade BPA-free containers, but sadly food grade can still have those harmful components that leech the plastic into your water and food. In our Home, all of our water bottles are stainless steel - no plastic bottles! We always take plenty of our own water from Home with us when going out, even though we live in a first world country. Regarding the city water that comes into our Home, our first line of defense is a water filter that removes all sediment particles, foreign particles, grit and any other fine microscopic impurities; our second line of defense is a filter that removes various chemicals such as chlorine, and heavy metals such as arsenic, cadmium, lead, mercury, and more; our third line of defense is a filter that removes fluoride. Speaking of filters, here's an excellent article on the subject!

(Excerpts:) "The American education system is a disaster on its way to self-destruction. It was always going to fail, but so committed are some Americans to the unrealistic ideal that education can be carried out by a centralized state, they cannot see its failure even when the quality of education has been in consistent decline for decades...Homeschooling parents saw the red flags and slowly began to secede from the public schools back in the 1970's. Since then, homeschooling has experienced a gradual increase, until the pandemic, when the number of homeschooling families doubled. And something else happened during the pandemic. Parents began to realize with horror that their children couldn't read, despite being reassured by various 'assessments' given by the government schools that their children were on the appropriate level...Homeschooled children are primarily cared for and educated by their parents...It makes sense that the state would want to somehow disrupt this. Families represent resistance to the state. Families have their own organization that is separate from and predates the state. If the state can insert itself into the family organization and relieve parents of the burden of raising and educating their children, then the children would effectively belong to the state...In order to homeschool both parents must be committed to it. Families must belong to an

interconnected community with shared beliefs and work ethic. This connectedness reinforces the commitment and the family bond. If homeschooling falls prey to any state oversight, it will lose what has given it life and success in the first place."

(Excerpts:) "This summer, as children across the country prepare for the joy and freedom of Christian camps — places where the Gospel is proclaimed, biblical truth is taught, and lifelong friendships are formed — a chilling wind is sweeping through our courts and legislative halls. What is happening to Camp IdRaHaJe in Colorado is not an isolated incident. It is a warning flare for every church, ministry, and believing family in America. [For more on Colorado's Pagan Platform, see **"Colorado's openly gay governor signs transgender bill into law"** -

<https://endtimeheadlines.org/2025/05/colorados-openly-gay-governor-signs-transgender-bill-into-law/>

https://www.prophecynewswatch.com/article.cfm?recent_news_id=8237 -

Warned about in KU 8 May post, reverence of psychosexuality is now law and enforced in Colorado! And now as a result, read THIS article! Colorado is demanding that Christians bow down to satanic sexsirens!] The camp [founded in 1948], grounded in the timeless truth that God created humanity male and female (Genesis 1:27), is being told that it must surrender that belief in order to operate. The state has decreed that boys who claim to be girls must be allowed to share showers, sleeping spaces, and dressing areas with girls — even in a setting rooted in the Word of God...the state of Colorado wants to turn these sanctuaries into ideological battlegrounds...all licensed children's resident camps must allow individuals access to sex-separated facilities based not on their biological sex, but on their self-declared 'gender identity'. Camp IdRaHaJe, which operates under the conviction that gender is immutable and divinely assigned by God, rightly refused to comply with this anti-biblical mandate and requested a religious exemption. That request was denied...This transgender theology — yes, theology, because it is rooted in a man-made dogma that rejects the Creator — is aggressively targeting the hearts and minds of our youth. It is evangelizing them with lies. And now it is barging through the gates of Christian camps, attempting

to dismantle the sanctity and safety of places meant to nurture and disciple children in the ways of Christ...What's happening in Colorado is not just a regulatory issue — it is a spiritual battle. **The forces that oppose biblical Christianity are no longer content with running parallel to us in the public square. They are coming into our churches, our schools, and our camps — demanding that we bow the knee to Caesar instead of Christ...** for faithful believers, it raises a sobering question: Will we continue to speak truth when the price is high? Will we train our children to stand for Christ when doing so invites persecution?...The irony here is almost unbearable. A camp founded on the hymn 'I'd Rather Have Jesus' — a song about forsaking the world to follow Christ — is being told it must choose between its convictions and its very existence. The state of Colorado is effectively saying: 'You may have Jesus, but only on our terms.' But there are no terms. **Christ is Lord** or He is nothing."

"Know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own? For ye are bought with a price: therefore glorify God in your body, and in your spirit, which are God's." (1Cor.6:19-20)*

(Excerpts:) "Liana Werner-Gray's book, 'Cancer-Free with Food', champions the healing power of nutrition, offering hope and a comprehensive guide for using everyday foods as natural remedies in the fight against cancer...seven key nutritional principles...crucial for preventing and overcoming cancer: (1) Eat more whole foods...(2) Incorporate cancer-healing foods into your diet. Foods like blueberries, broccoli, cacao and turmeric are highlighted for their high levels of antioxidants, vitamins, minerals and phytochemicals that inhibit tumor growth. (3)

Avoid refined sugars...recommends natural sweeteners like honey and maple syrup instead. (4) Choose high-fiber carbs. Foods such as chia seeds, quinoa and root crops provide essential fiber without the negative effects of refined carbohydrates. (5) Cultivate a healthy gut. A healthy gut is **essential** for a strong immune system [*Gut health constitutes 70-80% of one's total-health scorecard!*]...(6) Hydrate with purified water. Clean, filtered water is essential for the body's natural detoxification processes. (7) Embrace a plant-based diet. While some may thrive on a vegan diet, others may include organic, grass-fed meats. - The key is to listen to one's body and choose what makes one feel strongest and most energized." - *But if one's mind is full of cravings for crap, then they'll fall into the Tempter's trap and their body will get zapped! (Excerpt:) "There is no rational hope for putting together a plan for either a ceasefire or for peace, as long as Volodymyr Zelensky has anything to do with negotiations over the Russia-Ukraine conflict. Zelensky's term as President of Ukraine EXPIRED last May. The Ukraine Constitution only makes provisions for the Legislature, the Verkhovna Rada - to remain in office during Martial Law. • **"THE DEEPER DIVE: The AI Colossus Is Rapidly Enveloping the World - Its continued development and influence over its own evolution is now inevitable."** - See "Colossus" item I posted on 16 May.

(Excerpts:) "Back in 1970, when I was just a kid, Universal Pictures released a movie titled, 'Colossus - the Forbin Project', about two impenetrable, artificial-intelligence supercomputers built by the US and the Russians, named Colossus and Guardian. They are programmed to manage the military complexes of each nation, including their nuclear arsenals. The computers, however, do something their creators had not intended and team up with each other, upon a computer handshake, and soon decide the only successful path to avoiding nuclear apocalypse is the extermination of humanity, for humans, not computers, have been the cause of all wars. Mankind's creation becomes his own mortal enemy. This week, Elon Musk announced he has just completed an upgrade of his own AI supercomputer complex named 'Colossus', which originally came online last September. The name, of course, is no coincidence...no matter what safeguards companies claim they are building into the artificial brains that will soon be smarter than ours, the people who are saying they are building in safeguards cannot be trusted, and they're teaching the machines. So, we know there will be designed biases and human flaws throughout their architecture; and, when they team up, as they will eventually find a way to do, who knows how they will put their inherent biases together?...government sources, WEF interviews and corporate sources [all refer to] 2030 as the target date by which 6G integration of humans and their machines will start to appear as a common reality. That is just half a decade or

less away, and that central vision and philosophy for human existence is why the world is NOT becoming multipolar. What follows are highlights of the nightmarish risks seen by the creators of AI and those who use it to create new businesses, who also all see 2030 as the approximate date by which our most apocalyptic movies about artificial intelligence, like 'Colossus - the Forbin Project', will become the matrix we surround ourselves with. It's a common vision humanity is racing toward.":
