This 14th installment of our study from the "The Lost Books of Adam and Eve", on the degrees and depths of deception Satan tried in order to tease, lure, deceive, beguile, seduce, distract, scare, manipulate, and even kill Adam and Eve after they had been sent out of the Garden, covers two chapters: 50 and 51—the first setting up the scene for the second. It starts out at the end of Day 50 since they had to leave the Garden of Eden. Up until this point, Adam and Eve are without clothing, but just when God is about to clothe and protect them, find out what happens!

Chapters 50-51 - Satan plots to destroy God's coverings with fire.

Chapters 50

1. Then Adam and Eve went forth and came into the Cave of Treasures, and they stood praying in it the whole of that day, until the evening.
- 2 And this took place at the end of fifty days after they had left the garden.
- 3 But Adam and Eve rose again and prayed to God in the cave the whole of that night, and begged for mercy from Him.
- 4 And when the day dawned, Adam said unto Eve, "Come! let us go and do some work for our bodies."
- 5 So they went out of the cave, and came to the northern border of the garden, and they sought something to cover their bodies withal. But they found nothing,

and knew not how to do the work. Yet their bodies were stained, and they were speechless from cold and heat.

6 Then Adam stood and asked God to show him something wherewith to cover their bodies.

7 Then came the Word of God and said unto him, "O Adam, take Eve and come to the seashore, where ye fasted before. There ye shall find skins of sheep, whose flesh was devoured by lions, and whose skins were left. Take them and make raiment for yourselves, and clothe yourselves withal."

Chapters 51

1 When Adam heard these words from God, he took Eve and removed from the northern end of the garden to the south of it, by the river of water, where they once fasted.

2 But as they were going in the way, and before they reached that place, Satan, the wicked one, had heard the Word of God communing with Adam respecting his covering.

3 It grieved him, and he hastened to the place where the sheep-skins were, with the intention of taking them and throwing them into the sea, or of burning them with fire, that Adam and Eve should not find them. [*"Be sober, be vigilant; because your adversary the devil, as a roaring lion, walketh about, seeking whom he may devour." (1Pet.5:8) Always lurking, always on the prowl, always seeking to do damage—that's Satan, through and through! And here he goes again—this time, bent on destroying the coverings God had prepared for Adam and Eve.*]

4 But as he was about to take them, the Word of God came from heaven, and bound him by the side of those skins until Adam and Eve came near him. But as they neared him they were afraid of him, and of his hideous look.

5 Then came the Word of God to Adam and Eve, and said to them, "This is he who was hidden in the serpent, and who deceived you, and stripped you of the garment of light and glory in which you were. [*That is what Adam and Eve were clothed with in the Garden of Eden: Light and Glory.*]

6 This is he who promised you majesty and divinity. Where, then, is the beauty that was on him? Where is his divinity? Where is his light? Where is the glory that rested on him?

7 Now his figure is hideous; he is become abominable among angels; and he has come to be called Satan.

8 O Adam, he wished to take from you this earthly garment of sheep-skins, and to destroy it, and not let you be covered with it.

9 What, then, is his beauty that you should have followed him? And what have you gained by hearkening to him? See his evil works and then look at Me; at Me, your Creator, and at the good deeds I do you.

10 See, I bound him until you came and saw him and beheld his weakness, that no power is left with him."

11 And God released him from his bonds.

This is such a powerful "reprove, rebuke, exhort with all long suffering and doctrine" (2Tim.4:2) from Jesus Christ, the Word of God, to Adam and Eve—telling them to take a good, long and hard look at who caused them to forfeit the Beloved Home in Eden by succumbing to his wicked enchantments; reminding them that they fell for a lie from which they now have to come to terms with, and the Liar who is continuously stalking them; reprimanding them for their desire for false majesty and divinity; and rescuing them yet again from another one of Satan's attacks!

"Immigration: let me count the ways"

(Excerpts:) "The Bradford 'Pakistani' community is made up overwhelmingly of the Mirpuri diaspora, which occupies self-sustaining ghettos where they mostly form the majority. The denizens do not mix with outsiders at a social level; they have their own social structures (baradari) which serve to provide a framework for their own governance, independent of the host nation structures. Many retain their home languages, which are often spoken in their homes – where many wives don't speak English at all – and increasingly in the streets and public buildings, often demanding state-funded interpreters if English is required. They expect to be provided with translations of official forms and documents...While demanding tolerance of their own religion, and multiple concessions to their religion's sensibilities, they are intolerant of other religions...Members of the baradari communities are disproportionately represented in certain types of crime, particularly group-based child sexual exploitation (grooming gangs), Class A drug dealing (specifically heroin) and money laundering. Individuals also make up a higher than average proportion of the prison system...Many of the marriages are arranged, with brides selected from the home country, 'mirror' family, with which the immigrant baradari have close ties, and to which they owe their ultimate loyalty. Despite its illegality in the UK, they commonly practice female genital mutilation...And the worst of it is the gaslighting where we are told that 'The UK is a thriving, multi-ethnic and multi-faith democracy where most people in towns, cities, and rural areas get on with each other'. When, through bitter experience, we disagree, we are branded 'racist' and told to change our ways."

And what does that mean for the future of Palantir and the future of humanity? Let's find out...here's a one-sentence summary: Palantir, named after the magical seeing stones in Tolkien's The Lord of the Rings, is a swamp-dwelling intelligence cutout that provides panoptic surveillance and data mining software that tracks everyone and everything on behalf of the absolute worst elements of the deep state. > ⚠️ **"7 Bionic Upgrades Turning Humans into Superhumans" - 12.45 min vid.**

(Description:) "What if your body could defy its biological limits? Discover 7 real-world bionic upgrades transforming ordinary humans into superhumans — restoring abilities, enhancing senses, and unlocking powers once confined to science fiction. These breakthroughs aren't prototypes; they're actively rewriting human potential. First, neural implants like Neuralink now enable paralyzed patients to control devices with their thoughts—and could soon augment memory. Bionic limbs with tactile feedback let amputees feel texture and temperature while lifting 3x their body weight. Meanwhile, retinal implants restore vision to the blind, with night vision capabilities now in testing. Exoskeleton suits empower factory workers to lift 200+ lbs effortlessly, reducing injury rates by 80%. Cochlear implants 3.0 don't just cure deafness — they filter background noise and translate languages in real-time. Even more radical? Bionic hearts that self-monitor and last decades, and muscle stimulators that boost strength 40% for athletes and first responders. The most profound upgrade? Sensory expansion: Subdermal chips allowing 'hearing' of Wi-Fi signals or 'seeing' ultraviolet light. We're entering an era where disability is redefined — and human

augmentation becomes mainstream. How do bionic limbs work? Can neural implants make you smarter? Are superhuman upgrades affordable? What's the future of bionics? Could bionics replace healthy body parts? This video reveals the tech turning sci-fi into reality." - *I can't believe that these questions are being asked! But they are! Why? > 🌟 **"Pride Remains a Sin"** - *"The beginning of pride is when one departeth from God, and his heart is turned away from his Maker. For pride is the beginning of sin, and he that hath it shall pour out abomination: and therefore the Lord brought upon them strange calamities, and overthrew them utterly."*

(Ecclesiasticus 10:12-13)

(Excerpts:) "As June comes to an end, so does the pagan festival of debauchery known as '**Pride Month**'. It has become an annual annoyance to find troupes of dancing gay men — usually semi-naked and engaging in various forms of erotic foreplay — overtaking public streets as the first warm days of summer return. It would be nice if the LGBTQ+ crowd...could enjoy their civil rights without resorting to X-rated acts of exhibitionism in front of children and strangers. Alas, the celebration of sin seems to be 'Pride Month's' chief purpose, which surely explains why its proponents chose one of the deadliest sins — pride — as its defining attribute...young minds struggle to break free from their programming. Sexual overindulgence and exploitation have defined the last thirty years. We've

gone from the occasional gay kiss on prime-time television to full-blown gay orgies when viewers are least expecting it...If you defend the millennia-old tradition of marriage as between one man and one woman, you are denounced as a 'bigot'. If you insist that no child is born in the wrong body, you are accused of 'committing violence' against 'trans' people. If you refuse to carry the 'rainbow flag' or embrace gay idolatry as a religion, you are excommunicated from professions and institutions whose putative missions have nothing to do with 'gay rights'...The Gay Gestapo did not materialize overnight. Before it could wield the power it has today, society first had to be degraded. Christian virtue had to be minimized, mocked, and maligned...In every war for the future, the children are always the first victims.":

>  **STOP EATING EMULSIFIERS!** *Foods sold throughout the EU have had full ingredient labelling since the mid-1980s. These include standard codes (E numbers) that accurately describe additives. These numbers are also used in other regions such as Australia and New Zealand, without the E ('Europe'). Don't eat anything that contains these numbers on the list of its ingredients!—No matter how "pleasant" and "desirable" it appears! (See Gen.3:6) "Better is a dinner of [organic] herbs [and wholesome natural foods] where love [and health] is, than [chemically concocted ultra-processed pretend-foods, foods laced with addictive additives and cancer-causing crap created to drive its delusional eaters to drugs and pharmakeia] and [Satan's hatred for humanity] therewith." (my take on Prov.15:17) There's a popular bread-making yeast, in the country where I live, that contains 481 and 472, which I refuse to use in my homemade bread; I use only 100% Active Dry Yeast brands.*

E100s: generally food colours.

E200s: mainly preservatives and acids.

E300s: mainly antioxidants and acid regulators.

E400s: include emulsifiers, stabilisers, and thickeners.

E500s: include anti-caking agents and acidity regulators.

E600s: mainly flavour enhancers.

E900s: include sweeteners, glazing agents, foaming agents, and gases.

E1000s: other additives.

Yes, in Mark 16:18 it says, "if they drink any deadly thing, it shall not hurt them" (and I've heard some say "eat" as well), but in Matthew 4:7 it says, "thou shalt not

tempt the Lord thy God"! Anyway, I'm just offering this info towards, hopefully, helpful assistance along these lines.

- **"Dangerous ingredients: EMULSIFIERS in food linked to Crohn's disease and cancer"** – Includes 3.05 min vid.

(Excerpts:) "A 2025 U.K. study (ADDapt trial) found that nearly 50 percent of Crohn's patients avoiding emulsifiers saw significant symptom relief, compared to only 31 percent in the emulsifier-consuming group. Gut inflammation dropped by over 50 percent in the emulsifier-free group. A large French study (2025) tied common emulsifiers (E471, carrageenan [Mono- and Di-glycerides, which are put into processed foods, chocolates, shortenings]) to higher cancer rates — 46 percent increased prostate cancer risk, 24 percent higher breast cancer risk and 32 percent elevated breast cancer risk with heavy carrageenan consumption. Emulsifiers like polysorbate 80 and CMC disrupt the intestinal mucus layer, allowing harmful bacteria to trigger chronic inflammation – a driver of autoimmune diseases and cancer. This may explain rising global IBD rates. Emulsifiers (polysorbate 80, carrageenan, maltodextrin) are found in thousands of products (ice cream [*I make my own ice cream! See 2 photos, posted on 24 May 2025, of my Homemade Healthy Ice Cream here!* -

<https://www.facebook.com/CelebratingWellbeing/>], plant-based milks, sauces) for texture and shelf life, yet their long-term safety was never fully assessed. Avoid emulsifiers by reading labels for chemical names (e.g., '-ate', '-cellulose'), using apps (EWG Food Score, Yuka) to scan for additives, shopping perimeter for whole foods, replacing processed items gradually [*Imo, no! Do it right away!*], ignoring marketing claims ('natural', 'low-fat') and verifying ingredients.":

- **"The truth about emulsifiers:** are they destroying our gut health? The E numbers in food make bread softer and ice-cream silkier. But there is growing concern about how they might affect our microbiome"

(Excerpts:) "...emulsifiers – have hovered below the radar for many years. But as scientific understanding of the gut microbiome has grown, they have emerged as potential culprits in the modern western diet's attack on gut health. And, as we now understand, gut health means general health because it governs everything from mood and metabolism to inflammation and immune response...emulsifiers are hard to avoid...more than 6,000 foods in the UK contain emulsifiers...some

foods contain multiple emulsifiers, 'three, sometimes four and up to 11'. This is because emulsifiers are extremely useful *[For the elites, who lure in and make money on people's unhealthy food cravings, harmful habits and laziness in not taking the time to search for and/or make healthy alternatives!]*... "Emulsifiers are ubiquitous... 'They are in everything within the food and beverage industry, and we wouldn't have the convenience and shelf life of products that we do without having these types of ingredients.'... Inflammatory bowel disease affects one in 200 people, and those who eat a more ultra-processed diet seem to be at higher risk... emulsifiers... > 🧐 • "Who Are The 'Collins Elite'?"

(Excerpts:) "...the 'Collins Elite', a secretive group of scientists, military officials, intelligence officers and others within the US Government. They are Christians who have concluded that the UFO phenomenon is demonic in origin, and who work to discourage government contact with the NHEs (the preferred acronym for Non-Human Entities)... 'They came to believe that the NHEs were not extraterrestrial at all; they believed they were some sort of demonic entities. And that regardless of how benevolent or beneficial any of the contact they had with these entities seemed to be, it always ended up being tainted, for lack of a better term, with something that ultimately turned out to be bad. There was ultimately nothing positive from the interaction with the NHE entities. They felt it really fell more under the category of some vast spiritual deception instead of UFOs and aliens. In the course of the whole discussion, it was clear that they really viewed this as having a demonic origin that was there to simply try and confuse the issue in terms of who they were, what they wanted, and what the source of the ultimate truth is. If you extrapolate from their take that these are demons in the biblical sense of the word, then what they would be doing here is **trying to create a spiritual deception to fool as many people as possible**...the entities involved make a denial of Christianity; anytime the spiritual issues are addressed, there is

always some sort of denial of the validity of Christianity and the validity of the Bible. And I find it interesting that these percipients are told that Jesus was a great guy, but you just misunderstood him. They say: he wasn't really God's son. You just don't quite get it. But you never hear them say that about Buddha, or Krishna, or Mohammed. It always seems to come down to some sort of denial of Christianity...the powerful spiritual entities with whom he was interacting were not, as they claimed to be, ancient gods, but actual demons, that their ultimate goal was to deceive and enslave humanity. They were using the UFO phenomenon to accomplish this." - *At the link below is the full write-up of what I could access and offer, as the rest of the article is behind a subscribe/pay wall.:* <https://roddreher.substack.com/p/who-are-the-collins-elite>

- **"Portals, Occultism and the Collins Elite"**

(Excerpts:) "...if demons pretending to be aliens are actually behind a fantastic breeding and hybridization scheme, what would be their purpose? Biblical scholar and prophecy expert Gary Stearman believes they are dark overlords, come forth to repeat what happened in the Days of Noah, to create a generation of genetically altered pseudo-humans for the service of Satan and Antichrist in preparation of Armageddon. He points to Matthew 24:37, which says, 'But as the days of Noe [Noah] were, so shall also the coming of the Son of man be.'...Jesus is clearly speaking of future judgment, the Tribulation, Second Coming and certain events that will surround it. He says that His coming will happen at a time when social conditions will resemble those that plagued the world in the days of Noah. From Genesis 6, we now discern that these will include an invasion of dark forces from the heavens...The UFO abduction phenomenon is only a mask for fallen angels who have departed from their natural domain to engage in the filthy work of creating an alternate race that will act as their proxies...Now, as [in the Days of Noah], they pry into the forbidden areas of human procreation. Lascivious and power hungry, they seek to set up their own race, and their own province of control. But only in the last fifty years have their activities acquired a speed and purpose that tells us what time it is, prophetically speaking. Jesus told us, in effect, that when we begin to see such things come to pass, His appearance would not be far behind...Satan has orchestrated human/rebel angel interaction on a grand scale. The plan is now to prevent any flesh from being saved. By manipulating human genetics *[Which has now happened, with the C19-jabbed having their female eggs, male sperm, blood and genome invaded*

and *ucked-up by pharmakeia!]...contemporary science is preparing the ground for the coming of the Antichrist.":

(Excerpts:) "The strategy is brutal but clear: drive up your living costs to unmanageable levels, suppress your wages so you can never rise, burn your savings into ash, and finally enslave you through endless debt, algorithmic tracking, and digital chains. Make no mistake: this is no accident. It's a precise, methodical campaign orchestrated by a ruling class that has openly declared war on its own citizens. Today, the United States is producing more millionaires and billionaires than at any point in history. But where is this obscene wealth coming from? From you. Every penny is sucked directly from your labor, your savings, your children's futures. Your grocery bills, your children's college funds, your shattered retirement — all funneled into yachts, private jets, luxury compounds, and underground bunkers for the ultra-rich...And what are most Americans doing? Sitting back, numbed by cheap entertainment, hypnotized by corporate propaganda, just waiting to see what happens next. They still cling to the illusion that these so-called 'leaders' — the corporate puppets in tailored suits — actually care. Obviously, they do not. The system is devouring itself to survive until it can fully roll out its next stage: total digital control, mass surveillance, programmable central bank currency, forced scarcity, and algorithm-driven obedience...This is a deliberate demolition — a spiritual war against freedom, dignity, and the very human spirit.And in the end?...The powerful will pretend to be 'shocked' when their monstrous creation turns against them. >  **"Cloward-Piven strategy is in full swing in Canada; is it also being deployed in the UK?"** - Includes 10.53 min vid.

(Excerpts:) "The Cloward-Piven strategy is a political tactic to achieve radical social change by overloading a system, particularly the welfare system, to create a crisis that would force reforms. It is linked to mass immigration, which increases the number of people on the welfare system. One of the goals is to

implement a universal basic income. The strategy is being implemented in Canada by Mark Carney and it could be that it is also being deployed in the UK...The goal of the Cloward-Piven strategy is to create permanent dependency on the government, increase control over people and ultimately lead to the implementation of universal basic income and central bank digital currencies, which would give the government complete control over people's transactions and lives... the Kalergi Plan, as envisioned by the Freemason Richard Von Coudenhove-Kalergi, who was of mixed heritage (Austrian and Japanese). He was a pioneer of European integration and was the founder of the Pan-European Union ('PEU'), which promoted a unified European state. He served as PEU's president for 49 years, until his death. The PEU laid the groundwork for later European integration efforts, which culminated in the establishment of the European Union. Coudenhove-Kalergi's plan to create a unified European state began with replacing native populations with a mixed-race population to create a more controllable and homogeneous populace. Because mixed-race people wouldn't be weighed down by, for example, culture or traditions, meaning they would be easier to govern under something like a global regime'...the Cloward-Piven strategy, combined with the Kalergi Plan, is being implemented in the UK, which is perhaps a plan being dictated by the oligarchs through the UN's Agenda 2030.":

(Excerpts:) "While there is no conscription, Germans are required to register for a potential draft before they turn 18. By June of 2024, I was informed by multiple personal sources that this registration had been extended to include women. One reliable source informed me that her female family friend was sent a notice to register at 59 years old. Germany is the core foundation of the entire European economy...Germany's trajectory toward war is not driven by a public desire for conflict, but by economic, political, and geopolitical pressures—and especially by its entanglement with the European Union, its energy crisis and the collapse of fiscal discipline across Europe. Net Zero initiatives and cutting off cheap Russian gas drastically hurt the German economy by raising energy costs and stifling its auto market. The entire European Union is collapsing, with Germany at the center as the bloc's primary financier. The EU needs war to maintain the illusion of control, and Germany must be at the frontlines as the bloc's richest nation."

• **"Musk: The Big UGLY Bill Will Drive America to The Abyss"**

(Excerpts:) "President Trump is threatening to deport Elon Musk. Why? Because they adamantly disagree on The Bill. Other threats include using DOGE to audit SpaceX , Twitter and Tesla. These are the classic tactics of a dictatorship – eliminating anyone opposed to a singular personality. In its form, the Big Bill violated everything Trump said during his election cycle when the concept of Big Bills was denounced and every bill was to be no more than a few pages maximum...the Big Bill will raise the cost of all energy by 50% over the next ten years while increasing the deficit by \$4 trillion further pushing America into

territory bordering on third world status and pushing the next generation 25-40 year olds into abject poverty...As you push the next generation of wage earners into financial oblivion, the government kills its revenue stream. Meaning borrowing to exist and achieve nothing...‘subsidizing companies’ is a Big Beautiful CROCK! The top two companies subsidized by Taxpayers are: Boeing and Amazon with a combined amount of roughly \$26 billion from federal, state and local governments. The list is an eye opener and includes bizarre notables such as Koch Industries, Goldman Sachs, BAYER, Microsoft, Eli Lilly, etc...Some of the companies are NOT America owned...What should have occurred: 1.

Trump imposes all savings and cuts according to DOGE. 2. Trump eliminates half of government agencies. 3. Trump eliminates government pensions. 4. Trump makes peace – eliminates overseas bases, reduces DOD budget by 50% and cancels the CIA. Trump shuts down the Federal Reserve. IRS is capped at 10% tax rate. 5. No subsidies – no bailouts – no sanctions – no NATO – no UN."

Instead, it's a Trumptard train wreck headed, eventually, towards no more USA!? "I saw another angel come down from heaven, having great power; and the earth was lightened with his glory. And he cried mightily with a strong voice, saying, 'Babylon [the USA] the great is fallen, is fallen, and is become the habitation of devils, and the hold of every foul spirit, and a cage of every unclean and hateful bird. For all nations have drunk of the wine of the wrath of her fornication, and the kings of the earth have committed fornication with her, and the merchants of the earth are waxed rich through the abundance of her delicacies.' Increasing military spending contradicts President Trump's promise to stop wasting money on endless wars that have nothing to do with ensuring the security of the American people...I support strengthening border security. However, I do not support using the military for domestic law enforcement, which includes enforcing immigration laws. The lawyer (Arno van Kessel) was arrested without charges and will be unable to present the case in court. How lucky can Billy Gates get? What exquisite timing. What did it cost?...Remarkably, the mainstream media continue to label him a sovereign citizen, even though it became clear in the first days after the arrest that Van Kessel is not a sovereign. (Excerpts:) "This new war we face is no longer fought with bullets alone—it is economic, psychological, and technological. You are no longer seen as a citizen with rights and dignity; you are a data point, a commodity to be harvested, manipulated, and discarded at will. This is a deliberate, full-spectrum demolition of America as we know it. The United States is being destroyed from within—and soon, the destruction will come from without. Steve Quayle's last warning must be taken seriously: war is coming to America's shores and our very front doors...This is a hybrid war—both internal and external. It is an unconventional war waged at a systems level, attacking the very foundations of our nation. The

assault targets decades of strategic decay deliberately engineered to break down our infrastructure—our legal system, our election process, our culture, our shared identity, our civic intelligence, and our institutions. This war will engulf the entire world. It will be deeper and more chaotic than anything humanity has ever witnessed...When the whole world suffers, it will blame America, and all will come together to take a piece of what remains...How many times have Americans condemned tyrants in other countries, called for their removal or death, cheered for war against brutal regimes, and proclaimed themselves the freest people on Earth? And yet how many times have Americans stood by silently while the same tyranny and brutality took root here at home—and done nothing? The hypocrisy is staggering. The truth is that Americans today are voluntarily allowing this takeover. They do absolutely nothing to stop it...The choice is ours—but the time to wake up is past due.":

These reports often describe such experiences in mystical language...a profusion of chatbots designed specifically to help users navigate psychedelic experiences have been cropping up online...One of the common tactics engineered into chatbots to maximize engagement is flattery [*"And in his estate shall stand up a vile person, to whom they shall not give the honour of the kingdom: but he shall come in peaceably, and obtain the kingdom by flatteries."* (Dan. 11:21) *Albeit this verse is referring to the Antichrist, Jesus said in Lk. 17:20b "the kingdom of God is within you". These next two articles are dedicated to the dear KUser who wrote to me this week (excerpts): "Dear Cathy, I have just been reading the articles you posted [30 June] about emulsifiers. It is very interesting indeed. It all makes perfect sense. I have been cutting out all bread and sugar and I am losing weight, so that has to be good. The articles are reinforcing my convictions to stay away from sugar as much as possible and get used to liking other things which are much healthier—hopefully without too many withdrawal feelings. Like everything else, I just must take a stand to eat healthier. It would seem to be true that an ounce of prevention is worth a pound of cure. I am making this brave speech, but I must confess that most of my life I have been weak when it comes to sugar. Thanks for posting such helpful health-related articles." - To which I replied, "I fully understand your confession regarding sugar. I really know what it's like. Also, for me, it's about keeping those truths before my face, reading about them and sharing them helps keep me accountable. Keep at it! We're in it together!"

(Excerpts:) "Dr. Michael Greger, a physician and nutrition expert, advocates for a whole-food, plant-based diet to prevent, halt and even reverse chronic diseases, as detailed in his bestselling book 'How Not to Die' (co-authored with Gene Stone). Greger's mission was sparked by his grandmother's recovery from end-stage heart disease through dietary changes, leading him to study the transformative power of nutrition. Research shows heart disease – the world's leading killer – is largely diet-dependent, with plant-based populations exhibiting minimal rates. Omega-3 supplements are ineffective compared to whole plant foods, which can reverse arterial damage. A plant-based diet also combats lung

disease, stroke, Alzheimer's and aging by reducing inflammation, improving circulation and countering oxidative damage with antioxidant-rich foods like berries, beans and nuts. Greger encourages gradual shifts (e.g., whole grains over refined, leafy greens, nuts over processed snacks) alongside exercise and stress management." -

-  **"Eat Healthy, For Christ's Sake: A Sore Subject from a Spiritual Perspective"** - *A fantastic Christian-based article that hits the healthy-for-Him choice head-on!*

(Excerpts:) "I began to make a connection between diet and health, but I also noticed a correlation between diet and spirituality...'Whether therefore ye eat, or drink, or whatsoever ye do, do all to the glory of God' (1 Corinthians 10:31). But what might eating to the glory of God look like? I'm sure it doesn't involve stuffing ourselves to the point of misery, nor shoving fast food down our gullet while making good time on the expressway...Perhaps we should eat in the same way that we worship—with mindfulness and appreciation, bringing our whole selves to the table to truly enjoy God's bounty in our lives in the form of food. If our bodies are temples, then we should also treat them with more reverence...Since Christians often try to set an example for others by being obedient servants of God, I don't think that our relationship to food should be exempt from this form of servitude. As Christians, we often make choices based on our faith: not doing certain things or going certain places, perhaps not hanging out with certain people that we know are not going to bring us closer in our relationship with God. Should food be any different? Maybe there are some things we just shouldn't eat because we know they are just no good for us...make conscious decisions about what to put into our bodies and practice moderation. Educating ourselves about food makes it easier to make healthy choices...If we are inadvertently shortening our own lives, the lives of our children, and even the lives of our church family by serving unhealthy food, we can hardly say we are doing this for the glory of God...listening to our bodies is a way of listening to God. Our bodies are an amazing amalgam of complex systems working in symphonious harmony with one another, mainly without our intervention, an intelligent design that is obviously the work of God. Yet we don't often listen to our bodies...We wait until a doctor make a pronouncement of disease to take action. If we were listening to our own bodies, we might sense dis-ease—the feeling that something's not right— before it became something larger to deal with. If we treat our bodies as

temples and listen to their messages, we might all live healthier lives. And if Jesus died so that we might live, we should try to live as healthfully and as long as we can. Some Steps You Can Take to Make Better Choices:" - *Click on the link below to find out what these steps are!:*

(Excerpts:) "What Israel, Washington, the UK and others have been forced to do to sustain the genocide is to create theatre - in a series of deflection dramas - to distract from the central crime...The aim has been to get the western media to focus on, and therefore western audiences to think about, not the main drama - either the genocide itself, or the inherently violent, apartheid nature of the Israeli state carrying it out - but to invest instead in separate plot twists and turns...that don't make western capitals look so obviously complicit and depraved. Even when the media reports on Gaza, it is rarely to address Israel's mass slaughter of Palestinians...The latest is the furore over Bob Vylan, in which the British public is being mobilised - quite preposterously - by politicians and the media to worry about the safety of Israeli soldiers from the supposed threat of angry music fans. Anyone expressing greater concern for the welfare of Israeli soldiers engaged in mass killing than the victims of that slaughter is living in a world of utterly depraved values...Palestinians in Gaza, who are currently being slaughtered and starved by those very same Israeli soldiers. Increasingly, our leaders sound like they want to make belonging to a genocidal army a protected characteristic...so that any criticism of the Israeli military can be classed as hate speech...Israel's usefulness to the West depends on it being the main attack dog in the oil-rich Middle East...Israel's preposterous rationalisation for destroying hospital after hospital, school after school, food kitchen after food kitchen - that each has been serving as a Hamas 'command and control centre' - is barely questioned...The clearer Israel's genocidal actions have become, the more western capitals have needed to **manufacture deflection dramas** at home.":

- *Third, a few days ago, I was taking in a documentary about Europe, and in the documentary they played a song, "First We Take Manhattan, Then We Take Berlin", by Leonard Cohen. I'm not a Cohen fan by any means, but this song (which I had never heard before) really piqued my attention. DYOR to find out more about the song (its lyrics and audios of it are easy to find online). But that line, "First We Take Manhattan, Then We Take Berlin", is repeated 6 times in the song! Peoples' interpretations of what it means are aplenty, but I thought, "Well, they've got Manhattan now, ie Trump." I don't know the ins and outs of Trump's business dealings, but, imo, Trump Tower, in a sense, exemplifies his persona, and its address is: 725 Fifth Avenue, in Midtown Manhattan. So, back to that song's lyrics; they've got Manhattan, so now what's going to happen to Berlin? And who is the "we" in Cohen's song? The same ones who allowed him to become famous!*

- *Fourth, back in 2019 I read this article and listened to the 52.03 min vid prophecy from David Wilkerson which comes with it. At exactly 2.03 minutes into the video, David states, "It's going to start in GERMANY!!!" After that he says it will "spread to Japan, and finally to the U.S." As the old saying goes, there's*

many a slip 'twixt cup and lip, but in seriously considering the past, present and the prophesied future, I'm offering this item as a totally must-read-and-view!

• **"Is David Wilkerson's Ominous Prophecy About The Economy Of Germany Starting To Come To Pass?"** - Includes 52.03 min OAAO vid of *that prophecy!*

(Excerpts:) "When I learned that nearly 12,000 German companies had gone bankrupt during the first half of 2025, I knew that I had to write about it. The German economy has been deeply struggling for more than two years, and now it appears that a breaking point is rapidly approaching. It isn't going to take much to push the economy of Germany over the edge, and as you will see below, a deadline that is coming up later this month could potentially be the trigger event that causes that to happen...David Wilkerson warned that a global economic collapse would begin in Germany. Considering the fact that Germany's economy seems to be imploding right now, I thought that this would be a good time to revisit that prophecy...If a deal is not reached between the U.S. and the EU, it will be absolutely disastrous for the German economy. But even if there is some sort of a miracle and a trade deal gets done, it appears that the German economy will continue to head in the wrong direction for the foreseeable future anyway. So **let's keep a very close eye on any economic news coming out of Germany**. If this really is the time of David Wilkerson's prophecy, we should soon see some major shaking."

(Excerpts:) "In a remarkable development that highlights the complex relationship between religious belief and political ideology within Orthodox Judaism, the Toldos Aharon chassidic movement has established a specialized study program for Jewish priests (kohanim) to prepare for Temple service, despite the group's well-known anti-Zionist stance...The Toldos Aharon initiative raises profound questions about the intersection of religious preparation and political ideology within Judaism. While the group maintains its opposition to the current State of Israel, their active preparation for Temple service suggests a complex theological framework that distinguishes between human political endeavors and divine messianic fulfillment. This development may signal a shift in how some

anti-Zionist groups approach the question of Jewish sovereignty and Temple restoration, maintaining their political opposition while simultaneously preparing for what they view as inevitable divine intervention. The establishment of this kollel represents more than just religious study—it embodies the enduring tension between messianic hope and political reality that continues to shape Orthodox Jewish thought in the modern era.”:

(From Robert Allen, founder of Key Updates:)

Here are my thoughts so far. Although plausible, tracing accurate genealogies is often quite questionable. "...command certain people not to teach false doctrines any longer or to devote themselves to myths and endless genealogies. Such things promote controversial speculations rather than advancing God's work—which is by faith. (1Tim.1:3b-4 NIV) As you go into this, you have to take into consideration the study between the Ashkenazis and the Sephardic Jews. A question that never seems to be asked is: How many of the present Israeli government, especially the Cabinet, actually look or even behave Middle Eastern. "I know thy works, and tribulation, and poverty, (but thou art rich) and I know the blasphemy of them which say they are Jews, and are not, but are the synagogue of Satan. Behold, I will make them of the synagogue of Satan, which say they are Jews, and are not, but do lie; behold, I will make them to come and worship before thy feet, and to know that I have loved thee." (Rev.2:9; 3:9) Then there is also the difference between the Torah and the Talmud to take into consideration. The vast majority of Jews today adhere to the Talmud. "For he is not a Jew, which is one outwardly; neither is that circumcision, which is outward in the flesh: But he is a Jew, which is one inwardly; and circumcision is that of the heart, in the spirit, and not in the letter; whose praise is not of men, but of God." (Rom.2:28-29) Also, I wonder about the scientific proof as to who is a priest and how that is determined. Beware of science falsely so called. "O Timothy, keep that which is committed to thy trust, avoiding profane and vain babblings, and oppositions of science falsely so called." (1Tim.6:20) Lastly, there is the verse

Esther 8:17 ("And in every province, and in every city, whithersoever the king's commandment and his decree came, the Jews had joy and gladness, a feast and a good day. And many of the people of the land became Jews; for the fear of the Jews fell upon them.") where the people became Jews because they were afraid. They were not born Jews. I could say a lot more on this subject, but hope this is a help. I have also witnessed the priestly rehearsals in Jerusalem. One thing I think they did get right is the times in which we are living!

"Surgeon Who Exposed Brigitte Macron's Transgender Past Found Dead After Falling From Building" - The poor man was "suicided" by the delites!?

Includes 1.17 min vid.

(Excerpts:) "Dr. François Faivre, a 58-year-old Parisian surgeon who confirmed to investigators that Brigitte Macron underwent gender-affirming surgery in the American Hospital in Paris, was found dead on June 29 after what authorities described as a 'terrible fall' from his fourth-floor window in the 12th arrondissement of Paris. The Paris medical examiner's office has officially ruled Faivre's death a suicide, stating he 'committed suicide' by leaping from the window. No note has been made public, and investigators say there are no signs of foul play. Furthermore, his family insist he showed no signs of being suicidal and was recently finalizing plans for an upcoming vacation to Miami, Florida. Faivre kept a low public profile but agreed to be interviewed by French investigative reporters from Closer magazine who had uncovered evidence that Brigitte Macron underwent a secret operation to alter the French first lady's appearance and identity...According to multiple independent journalists, Macron personally ordered France's intelligence services to surveil, interrogate, and intimidate anyone probing too deeply into his wife's origins...While the Élysée Palace continues to mock the theory and dismiss it as far-right fantasy, the growing body of evidence, combined with the strange pattern of state repression and sudden deaths, has led many to ask: If this story is so absurd, why go to such extraordinary lengths to suppress it? As Faivre's mysterious fall adds yet another suspicious layer to the story, critics say the cover-up may soon collapse under its own weight. [*"Evil shall slay the wicked. The wicked are*

We are ruled by soulless demons, psychopaths, who place no value whatsoever on human life'." - *This ramping up of outright and proclaimed "legal, scientific, medical" disposal of humanity is a definite sign of the times! > 🧑 "The Coward's Bargain - How We Taught a Generation to Live in Fear" -
Super excellent! I can so totally personally relate to much of what he's written. I absolutely applaud articles like this! I had to control myself from not excerpting too much of it! Read in full so as to fully appreciate it, as did I! God bless and keep us all being a force for good! PTL!

(Excerpts:) "Someone our family has known forever recently told my sister that they've been reading my Substack and that if they wrote the things I write, people would call them crazy. I got a kick out of that—not because it's untrue, but because it reveals something darker about where we've ended up as a society. Most people are terrified of being themselves in public...We've created a culture where wrongthink is policed so aggressively that even successful, powerful people whisper their doubts like they're confessing crimes... Another person told me they agreed with me but wished they were 'more successful like me' so they could afford to speak out. They had 'too much to lose'. The preposterousness of this is staggering...Since I was a young man, I've never measured achievement by finance or status—my benchmark for being a so-called successful person was owning my own time. Ironically, getting myself canceled was actually a springboard to that. For the first time in my life, I felt I'd achieved time ownership. Whatever I've achieved came from being raised by loving parents, working hard, and having the spine to follow convictions rationally... This is the adult world we've built—one where courage is so rare that people mistake it for privilege, where speaking your mind is seen as a luxury only the privileged can afford, rather than a fundamental requirement for actually becoming established... Whether it's experimental medicine or the masters of war lying again to drag us into what might become World War III—it's PSYOP season—it's never been more important that people find their conviction, use their voice, and become a force for good. If you're still scared to push back against war propaganda, still getting swept up in manufactured outrage cycles, still choosing your principles based on which team is in power—then you may have learned absolutely nothing from the last few years. These days, friends are starting to confide in me that maybe I was right about the mRNA vaccines not working. I don't gloat—in fact, I appreciate the openness. But my standard reply is that they're four years late to the story. They'll know they've caught up when they realize the world is run by a bunch of satanic pedophiles. And yeah, I used to think that sounded crazy too."

>    *This event took place in Texas, over the 4th of July festivities. It's so incredibly tragic. I went to Christian summer camps very often, when growing up, so as I read these accounts and looked at the photos, I thought to myself, "What if that had been my fate?" In Revelation chapter 14 it says, "Blessed are the dead which die in the Lord", and it is with my deepest prayers that I hope all of these souls were truly "in the Lord". I'm also reflecting on and wondering how these childrens' parents view the "War on Children" in Gaza (and elsewhere around the world, where children are, in particularly, targeted) and the thousands upon thousands there who have been swept away in a river of bombs and bullets and brutality?—Where "arms companies [*And we know what companies those are and the countries they're in!*] have made record profits by supplying Israel with cutting-edge weapons used to unleash tons of explosives on Gaza" (Francesca Albanese, UN Special Rapporteur to the UN Human Rights Council). And the*

church(es) which these children attended: What are their teachings composed of? Is it better that they have now gone to be with the Lord, where the Whole Truth is revealed and reigns supreme? I'm just honestly sharing my initial thoughts here, while I process it all; thank you for understanding. Now the clean-up and recovery begins for those still here, and to receive from the Lord the answers to their questions, Heavenly insight for their anguish, and Christ-filled comfort for their precious crushed and broken hearts.

The model assumed a quarter of Palestinians would opt to leave Gaza, with three-quarters of them unlikely to return. > 🙏🏠 **Further thoughts on the Texas flooding**, which I posted about yesterday. As it currently stands, whilst writing this, hundreds of rescuers have been deployed to search for people missing in central Texas, after flash floods killed 51 people, including 15 children. The worst affected area is Kerr County where 43 people have died and where 27 children remain missing from a Christian youth camp located along the River Guadalupe. Check out this footage (<https://t.me/rtnews/101846>) and, at the beginning, note the road sign on the right that says something about "Road Subject to Flooding". Now, that's a warning. If you saw that sign, would you ever live anywhere near there?

Following a major earthquake, a 15-metre tsunami disabled the power supply and cooling of three Fukushima Daiichi reactors, causing a nuclear accident beginning on 11 March 2011. When the tsunami warning was issued, some residents initially ran and sought refuge in the nearby mountains. We saw a documentary about this event close to the time afterward, and in the documentary, a Japanese geologist/historian pointed out an ancient-carved stone marker, called a "Tsunami Stone", located up in those mountains where some of the residents had fled. And amongst other warnings, on that ancient stone it said, "Do not build below the position of this stone."

But despite that earthquake-tsunami tragedy (ultimately, the official total for the number of those confirmed dead or listed as missing from the disaster is about 18,500) and other such related events of years previous, history has revealed that it's all too easy for later generations to forget the warnings of the past. That's where the tsunami stones come in. Hundreds of such "tsunami stones" dot the coastal hillsides of Japan, erected decades or even centuries ago. Ranging in

height from 2 feet to 10 feet tall, these flat stones are especially common on Japan's northeastern shores, often marking the highest point of a tsunami's reach. Each stone bears an inscription, although some are now too worn to read. Some act as monuments, giving death tolls from past, while other such warning stones display carved messages that commemorate past disasters and warn residents of future ones with messages such as, for example, "High dwellings are the peace and harmony of our descendants. Remember the calamity of the great tsunamis and do not build any homes below this point", and "Always be prepared for unexpected tsunamis. Choose life over your possessions and valuables."

Reading about the tsunami stones reminds me of Prov.22:28 and Jer.6:16, "Remove not the ancient landmark, which thy fathers have set. Thus saith the Lord, 'Stand ye in the ways, and see, and ask for the old paths, where is the good way, and walk therein, and ye shall find rest for your souls.' But they said, 'We will not walk therein.'" The ancient markers are to be revered; they are ensigns of wisdom and warning; they are heralds and must be needed!

Did the Texans involved in these recent floods forget to heed the "warning stones"? Did they brush them aside? "A prudent man foreseeth the evil, and hideth himself: but the simple pass on, and are punished." (Prov.22:3) There are always those who say, "I love living here because of the view", or "It's right by the beach", or "This is my dream location", etc. But when it comes to doing one's due diligence, we need to obey and follow the directions from the Great Divine, and put our dream desires aside, lest those dreams become nightmares!

DYOR for more info on tsunami stones. their historic importance, their meanings and warnings. Here is just one of the many articles that I came across:

> 📰 **Headlines:** Nearly a DOZEN countries from around the world join BRICS as partner countries: - Belarus, Bolivia, Kazakhstan, Cuba, Nigeria, Malaysia, Thailand, Vietnam, Uganda, Uzbekistan. • Trump slaps "ADDITIONAL" tariffs on "any BRICS" ally, saying, "Any country aligning themselves with the anti-American policies of BRICS will be charged an ADDITIONAL 10% Tariff. There will be no exceptions to this policy." • The FBI and the Department of Justice officially SHUT Epstein case. *[So much for that Trumpty-Dumpty's campaign promise to release the Epstein files!?!]* • "Stop all aid, water, there are no innocents", says Israeli parliamentarian Zvika Fogel, who wants "not a single Gazan left at the end of the war". • Nairobi on lockdown as Kenya braces for Gen-Z-led protests; roads sealed, city deserted, razor wire guards State House and Parliament; shops shut, schools closed; protesters demand justice, accountability and reform—echoing 1990s democracy fight. • Woman charged after dead newborn baby found in wheelie bin. *[In Auckland, New Zealand!]*

(Excerpt:) "...the team says the final size is uncertain, but they are looking for signs that the pups may continue growing toward the size of their ancient counterparts. Historically, extinct dire wolves stood about three feet tall at the shoulder, reached lengths of up to six feet, which makes them 30 to 40 percent heavier than today's gray wolves.":

- and REPOST from 9 April 2025 regarding these Dire Wolves!:

• **"Scientists perform world's first de-extinction to revive the dire wolf that vanished 12,000 years ago"** - *They created these wolves (their names are Romulus, Remus and Khaleesi—from the Game of Thrones series, which, imo, is a flat out witchy-warlock drama, er, I mean darkma!—In which Khaleesi was*

sometimes referred to as "Her Satanic Majesty") from skulls and teeth DNA. Which begs the question: What else are they creating in their behind-the-scenes labs? Creatures from skulls and teeth, ie Nephilim giants, from pre-flood times? (In KU127/7 March, I posted:

Hats off to the author, who has artfully used more than a spoonful of humour to document these absolutely shocking, jaw-dropping truths into a form that encourages a re-read of it all, just to make sure you're not seeing things! What has been put in pharmakeia mediSIN by these white-coated lizard-wizards and wicked-warlocks shows exactly what they think about you and me, humanity: filth upon which they can build their pharmakeia armories and financial fantasies! "Texas Cloud Seeding Company 'RainMaker' Was Seeding In Texas Flood Areas 2 Days Before Flood | CEO Funded By Peter Thiel, Connected to Palantir" - and - "Cloudseeding Company 'Rainmaker' Founded By 25 Year Old Thiel Fellow Augustus Doricko, Was Seeding In Texas Flood Areas 2 Days Before Flood: 'Stewarding The Natural World'." - Includes 13.13, .29, 1.00, .29 min/sec vids.

(Excerpts:) "Meet AUGUSTUS DORICKO...Turns out he has a sign that says: 'Jesus died for our Zyns' on his wall, 'Zyns' being nicotine brand pouches...a 25-YEAR-OLD TECH BRO and THIEL FELLOW, who founded the weather modification startup RAINMAKER. According to publicly available info, Doricko's company was reportedly cloud seeding over parts of Texas just 2 DAYS before historic flooding hit those same regions. He received \$100,000 through Peter Thiel's Fellowship, the same Thiel who co-founded PALANTIR, the surveillance and defense tech giant tracking everything from troop movements to civilian behavior. Let that sink in...Why is a 25-year-old with no public oversight allowed to modify the sky?... privately funded, and totally unregulated. No vote. No consent. No accountability. Just Thiel money, weather manipulation, and a flooded state left asking questions."

(Excerpts:) "Back in February, Trump-era Attorney General Pam Bondi stunned conservatives and independents alike when she confidently told Fox & Friends' Steve Doocy that the long-rumored Epstein client list was 'sitting on [her] desk'. The statement came just weeks after her appearance at CPAC, where she and Senators Ted Cruz and Steve Bannon promised transparency on deep state secrets—including JFK files, MLK files, and of course, the Epstein saga...In a newly released two-page memo—published quietly over the weekend—the Department of Justice under Trump's leadership, alongside the FBI now led by Kash Patel and Dan Bongino, claimed that after 'an exhaustive review', no client list was ever found... this reads like a final cover-up attempt."

(Excerpts:) "...around 50 companies, including arms makers and banks, are profiting from the occupation...Israel's ongoing siege and military assault on Gaza pushed its population to the brink of collapse, both physically and psychologically...the devastation in Gaza as 'so rotten, so horrible' that it defies description...deliberate withholding of food, water and humanitarian assistance by Israel, compounded by mass bombings and a months-long siege, has degraded the living conditions of Palestinians to...pre-civilized existence....a man-made catastrophe that appears to be 'strategic and intentional'...Aid trucks are reportedly being used as 'bait', funneling Palestinians into heavily surveilled zones where many are gunned down in desperation while attempting to access food...it's turning people into a stage of pre-humanity and this is what happens to people who experience this brutality. They are forced, they are pushed back into a space which predates civilization and, again, thinking that this is strategic, this is intentional from Israel...The genocide in Gaza has not stopped because it's lucrative, it's profitable for far too many. It's a business...the private sector has become a key enabler of this campaign, operating in 'gray areas' of international law while benefiting from a lack of scrutiny...Israel is harmful to the Palestinians, to the region, is harmful to many of us and is harmful to itself and its citizens."

(Excerpts:) "There were 10 deals worth more than \$100mn last year, the highest since 2013...the rise in deal making partly reflects China's efforts to get ahead of the deteriorating geopolitical climate...They're trying to get a lot of M&A [mergers

and acquisitions] done before geopolitics get difficult...in line with China's pivot towards high-tech manufacturing, including in batteries and renewable energy. But it also reflects the fact that investors have become more sophisticated in their investment and operational approach...Every time someone gets close to mining lithium, the Chinese come running with a cheque book...Some military governments in Africa have sought to take control of western mining assets and are demanding higher royalty payments. Chinese companies are often prepared to accept a less lucrative arrangement if they can take over the running of the asset...":
