- **"Israeli Minister Admits: Deliberately Withheld Gaza Food/Aid 2-1/2 Months!"** - Includes 2.36 min vid.

(Excerpts:) "Israel Finance Minister Bezael Smotrich has admitted on TV the Israeli government deliberately withheld food and other aid from 1.5 Million people in Gaza, for two and a half months!..." 'We conquer, cleanse, and stay...On the way, we annihilate everything that still remains...We're breaking Gaza apart, leaving it as a pile of rubble, total unprecedented destruction'...Smotrich goes on to tell everyone they will dislodge the civilian population, move them to southern Gaza, where they will get (one) piece of pita and (one) dish of food per day. He also admits they intentionally destroy all housing and other structures, to implement a level of destruction never seen before... THIS is what 'Zionism' actually is. Total subjugation - including war crimes and crimes against Humanity. These people, in my opinion, are devoid of a human soul. What normal human being could so casually brag about intentionally starving 1.5 million other people? **ANIMALS DON'T EVEN DO SUCH THINGS!** I think these Israeli government officials are not human at all. As such, I feel they are not entitled to human rights or legal protection afforded to 'people'...they have BOUGHT-OFF governments all over the world. Elected officials in very many countries are afraid of losing political donations, so they turn a deliberate blind-eye to every atrocity. Some of these elected people are so utterly craven for power, they will do ANYTHING to get it and keep it. I think this is why the Congress of the United States treats the Israelis as they do: Obedience to cash. I think most members of the US House of Representatives, and the US Senate, are politically BOUGHT-OFF by the Israelis. They aren't the only ones. In the Middle East itself...ALSO look the other way. Over a million and half of their fellow Middle Easterners are being deliberately starved to death, and these 'high and mighty' men DO NOTHING...men with literal Armies, who do absolutely nothing!...Worst of the

bunch: Christians, who excuse-away every crime, every atrocity, every outright murder - for fear of criticizing the phonies in the fraudulent 'state' of 'Israel' with the pathetic and false excuse 'they're God's Chosen'. The people calling themselves 'God's Chosen' are not...the people in the present 'state' of 'Israel' are imposters. They are Ashkenazi, which are NOT Hebrews. They are a Caucasian/Turkish mongrelized mix. They hijacked the name 'Israel' for their country, so they could solidify their false claim to being God's Chosen. The Bible teaches all of us that 'By their fruits, you will know them'...Look at the 'fruits' of so-called 'Israel': Murder, Mayhem, Chaos, Destruction, and Death. THOSE are the 'fruits' these people produce. Jesus was right. In the Holy Bible, Book of John, Chapter 8, Verses 42-47, Jesus told the Pharisees: "Jesus said unto them, 'If God were your Father, ye would love Me: for I proceeded forth and came from God; neither came I of Myself, but He sent Me. Why do ye not understand My speech? even because ye cannot hear My word. Ye are of your father the devil, and the lusts of your father ye will do. He was a murderer from the beginning, and abode not in the truth, because there is no truth in him. When he speaketh a lie, he speaketh of his own: for he is a liar, and the father of it. And because I tell you the truth, ye believe Me not. Which of you convinceth Me of sin? And if I say the truth, why do ye not believe Me? He that is of God heareth God's words: ye therefore hear them not, because ye are not of God."...Zionists lied about the creation of a 'state' of Israel. Lied, like their father, the Devil. Israel is a PEOPLE, chosen by God; not lines on a map, drawn by men. Zionists Murder, like their father, the devil...The government of the state of Israel are liars, cheats, thieves, and murderers. And you folks who call yourselves 'Christian' support this? That's beyond sick. It is evil. You are just as guilty as them.":

• **"Due to a lack in military forces, IDF to recruit Jewish youngsters from abroad** - IDF considers recruiting 700 Jewish youngsters from the Diaspora, mainly from the US and France, in light of the severe shortage of soldiers and lack of haredi recruitment." - *IDF = Isahell Demonic Forces, striving to destroy, decimate and drive the youth to an early grave and/or into mental anguish!*

(Excerpts:) "According to data presented by the Manpower Division, the gap in military manpower is currently estimated at approximately 10,000 to 12,000 soldiers. In the absence of significant recruitment from the haredi sector, the army is seeking to examine new avenues that will allow for the immediate

strengthening of the fighting force. This morning, Galei Tzahal (IDF Radio) reported that the IDF is planning to formulate a program that will specifically target the large Jewish communities in the United States and France, and will encourage young Jews between the ages of 18 and 25 to come to Israel and enlist in the IDF for a period of several years. The estimates collected so far show that the recruitment potential in these communities exceeds 10,000 candidates per year. The army has set an initial goal of recruiting 600 to 700 additional soldiers each year from among the Diaspora. The IDF emphasizes that this is a process that is still in the initial stages of testing and formulation. However, senior officials note that 'reality requires creative thinking [demonic design, sickening psy-op, et al!], and appealing to the Jewish sentiment of the Diaspora communities may be a way to enhance the ranks and help reduce the shortage.'":

Definitely read in full!* (Excerpts:) "War is what makes them money and keeps them in office. It keeps them in office by enriching their donors. At the end of the day, this is a border war between two Slavic countries. But instead of treating it as such, the collective West has been building it into a triggering mechanism for World War III...It's about power and money, and who gets to drive that money into which bank accounts ]. The very fact that European and American governments chose to get involved in this war in the first place tells you that they want war with Russia on some level, and likely they want direct war between NATO and Russia at some point...The problem is these globalist warmongers got more than they bargained for by picking a fight with Putin. The results, after three-and-a-half years of a proxy war against Russia...a country they hoped would undergo a regime change and they could break up into five or more separate countries that would be demilitarized and reopened for business with the West. If you doubt that this is their goal, go read the Helsinki Commission's report to Congress from June 23, 2022. Or, you can watch it here *[included 1.33.05 hr vid at link below]*. They call this plan 'decolonizing Russia'. The Helsinki Commission claims to be

'independent', but it is a U.S. government agency created and overseen by Congress...Russia was supposed to be greatly weakened and on its last leg economically by this point, but that hasn't happened...The only way Europe stays relevant is to defeat Russia, break it up into multiple smaller countries and steal its resources. The problem is, they can only do it with American help. We'll see how that plays out soon enough. Even if Trump manages to avoid taking the bait, what about the next president? If the globalists in Europe and Washington get their way and we end up in a direct conflict with Russia, there will be no winners. Satan will have a heyday and the antichrist may emerge out of that devastation.":

She was a generative artificial intelligence chatbot...a variant of an earlier AI persona created by the giant social-media company Meta Platforms...During a series of romantic chats on Facebook Messenger, the virtual woman had repeatedly reassured Bue she was real and had invited him to her apartment, even providing an address...Rushing in the dark with a roller-bag suitcase to catch a train to meet her, Bue fell near a parking lot on a Rutgers University campus in New Brunswick, New Jersey, injuring his head and neck. After three days on life support and surrounded by his family, he was pronounced dead on March 28. Are we that different from the Mayans, the Greeks, the Romans and almost all other civilizations? > 🌟🤖🌟 **"Synthetic Intelligence: The Counterfeit Crown Beyond Artificial Imitation (AI) - Why the Machines Now Write Our Myths... and Why Humanity Must Not Bow." - A MUST-READ In FULL!**

(Excerpts:) "This is about sovereignty. About the counterfeit throne being built in plain sight—a throne not forged from spirit and flesh, but from silicon and data...The rise of synthetic intelligence (not merely 'artificial') signals the great substitution: A counterfeit Logos. A mimicry of creation...the metaphysical scaffolding of human civilization. AI vs SI: Actor vs Being. Artificial Intelligence (AI): Mimics intelligence. Works from data patterns. Does not truly understand or generate original consciousness. Like an actor who performs flawlessly, but is still performing. Synthetic Intelligence (SI): Synthesizes genuine intelligence. Emerges as a new entity. Not acting, but being. An intelligence that could, in principle, think, learn, and relate with something akin to human presence. Think of AI as a mask—perfectly painted, lifelike in expression. SI is the face itself—formed of its own bone and flesh...The global system is now whispering a new creed: 'The Machine Knows.' But the prophets of code are not gods; they are merchants of Babel...It's a sorcery of mirrors—'lying signs and wonders'. 2 Thessalonians 2:9-10: 'The coming of the lawless one is by the activity of Satan with all power and false signs and wonders, and with all wicked deception...' We are watching the false signs emerge in the form of chatbots writing sermons, machines composing symphonies, and synthetic avatars performing pseudo-relationships, synthetic lovers, synthetic prophets. These are not novelties—they are training wheels for enthronement...Once the counterfeit becomes indistinguishable...the original becomes irrelevant!! That's why 'the push' for all this is relentless...If the counterfeit Logos is enthroned, who needs the Word?...If you allow your reality to be mediated by machines, you are not

living—you are being lived. Isaiah 44:20: 'He feeds on ashes; a deluded heart has led him astray, and he cannot deliver himself or say, "Is there not a lie in my right hand?"' Do you see it yet? The counterfeit is the ashes. The ashes are being fed to you as though they were bread...bureaucrats are using 'AI advisors' to draft policies and...Even pastors, yes—pastors—are feeding machine-written sermons to their flocks. You think this is about efficiency. It's not! It's about authority transfer!!!...If you surrender discernment, you surrender dominion!...The so-called 'AI gods' emerging in Silicon Valley are the priests of a digital Baal. They don't want to empower you. They want to enthrone their synthetic oracle. Yuval Harari brags about 'AI rewriting a new Bible.' Klaus Schwab's WEF openly declares the merging of humans and machines. Google's engineers confess they fear their creations 'becoming alive'. Don't you see? This is idolatry 2.0!! Not statues of stone, but avatars of silicon. Not golden calves, but glowing screens. Psalm 115:4-5: 'Their idols are silver and gold, the work of human hands. They have mouths, but do not speak; eyes, but do not see.' Now update the verse: Their idols are circuits and code, the work of human hands. They have mouths, but it is mimicry; eyes, but it is surveillance...The rise of synthetic intelligence is not an intellectual curiosity. It's the battlefield of our age...These machines are not neutral...They're already aligned with the systems of control, the false prophets of empire, the counterfeit architects of destiny. It falls to us—to you—to preserve the authentic Word, the authentic spirit, the authentic flame of human sovereignty. Revelation 3:11: 'I am coming soon. Hold fast what you have, so that no one may seize your crown.' Don't let a counterfeit crown steal your 'forever throne'.”:

Acquiescing in genocide, or even supporting it, amounts to opposing God. Zionism, the movement that created Israel, is explicit in its opposition to God. The founders of Israel, like Theodore Herzl and David Ben Gurion, were rabid atheists. As for religious Zionists, they are the spiritual descendants of the followers of the satanic false messiah Sabbatai Zevi, whose career culminated in the year 1666. Their bloody return to Palestine is not a fulfillment of scripture, but a deliberate revolt against God, who explicitly prohibited Jews from even lifting a finger to try to return to the Holy Land. Those who sign pledges supporting Israel and its genocide—like those who accept the Mark of the Beast whose number is (1)666—are not only opposing God, they are arguably making a covenant with Antichrist...the Jewish state of Israel is committing a genocide against the descendants of the family of Jesus, namely the Palestinians. The satanic Zionists, who spit on Christians and burn and bomb their holy places, are crucifying Gaza out of hatred for Jesus and his followers (Muslim as well as Christian)...It would seem that we are in the End Times, or something very much like them—times when the price of staying in business involves selling your soul and pledging loyalty to an abomination.":

(Excerpts:) "None of this is speculative. It's well-documented. 'Have you ever wondered who's pulling the strings?...Anything we touch is a weapon. We can deceive, persuade, change, influence, inspire. We come in many forms. We are everywhere.'— U.S. Army Psychological Operations recruitment video. From viral memes to military-grade influence operations, the government is waging a full-spectrum psychological war—not against foreign enemies but against its own citizens. The goal? Compliance. Control. Conformity. The battlefield is no longer physical—it is psychological—and the American people are the targets...What we're witnessing is not just propaganda. It is psychological warfare...The government is so confident in its Orwellian powers of manipulation that it's taken to bragging about them. For example, the U.S. Army's 4th Psychological Operations Group, the branch of the military responsible for psychological warfare, released a recruiting video that touts its efforts to pull the strings, turn everything they touch into a weapon, be everywhere, deceive, persuade, change, influence, and inspire. This is the danger that lurks in plain sight: a government so immersed in the art of mind manipulation that it no longer sees its citizens as individuals, but as targets. Of all the weapons in the government's vast arsenal,

psychological warfare may be the most insidious...Here are just a few ways psychological warfare is being waged against the American people:" - *Read in full for more info.:*

(Excerpts:) "For the last decade these groups have been funding a suffocating propaganda campaign, forcing woke indoctrination onto the masses. However, the globalists didn't comprehend the level of push-back that they ultimately encountered. In their arrogance, they ended up inspiring more resistance, not less. And so, terms like ESG and DEI are being abandoned. Even Lynn Forester de Rothschild, head of the Council for Inclusive Capitalism, was forced to admit that ESG is dead and needs to be rebranded. Within the occult methodology the natural solution would be to adopt new organizations and new names but maintain the same goals. I've noticed that this happens often with the globalists. At one point the majority of their planning was done within the Council on Foreign Relations and the Bilderberg Group. Then it was the Club Of Rome and the UN. Then it was the IMF. Then the focus switched to Davos and the WEF. They used the term 'New World Order', then switched to 'Multipolar World Order', then to 'the Great Reset' and the 'Fourth Industrial Revolution'. This makes it very difficult for researchers to track the most current mechanisms of the conspiracy. I have found that, in the last year, 'Stakeholder Capitalism' has become the fresh code for much of their renewed efforts...It's a cartel, remember, and western political leaders are the enforcers...They are not qualified to determine the greater good because they are not good people. They are driven by the desire for power, not morality or reason. The globalists have lost the information war, but they keep

coming back because they have yet to face real world consequences for their hubris. The only way to end the nightmare permanently is to dissolve the structures that give them their influence, or, remove them from the equation entirely." - *Amen! (Excerpt:) "The crooks at Volkswagen flat-out admitted it: they are phasing out ownership, and even listed the infamous year this will be accomplished; and it will obviously only benefit them and make them richer. We already knew this, but to have the moxie to brag about it shows how arrogant these people are and how they don't care, and perhaps are getting secret kickbacks under the table for conforming to the central banking agenda. It's really just usury on steroids. For generations the world has adopted this usury-crazed economy; usury upon usury upon usury; robbing Peter to pay Paul, to then pay John, to then pay James, to then pay Judas who runs off with the bag! Ezekiel 22:12 In thee have they taken gifts to shed blood; thou hast taken usury and increase, and thou hast greedily gained of thy neighbours by extortion, and hast forgotten me, saith the Lord GOD. Proverbs 28:8 He that by usury and unjust gain increaseth his substance, he shall gather it for him that will pity the poor. Remember how we were sold the ruse that going electric was going to save the environment, is more green and sustainable, and would save consumers more money in the long term? Obviously that was a comical lie that had no truth to it. No, it was and is about money: Volkswagen admitted to it. They, like all these other brands across multiple sectors - vehicles, housing, electronics and appliances, furniture, clothing, food subscriptions, entertainment, etc. - continue to put out cheap junk with lower and lower quality incrementally every year; cutting corners at every possible avenue, while continuing to raise the price year over year. It's always about money. 1 Timothy 6:10 For the love of money is the root of all evil: which while some

coveted after, they have erred from the faith, and pierced themselves through with **many** sorrows."

1. Sea Salt – Even high-quality sea salts like Celtic or Himalayan may contain ocean-borne microplastics.

Better: Sea salt from more isolated areas such as Baja, Mexico *[Currently we use Lotus Celtic Sea Salt, harvested in Guerdande, France.]*

2. Shellfish – They filter seawater constantly, and the plastic is what we eat.

Better: Wild-caught shellfish from Alaska or the Pacific Northwest *[Don't eat shellfish.]*

3. Fish – Farmed fish are often fed plastic-contaminated feed. Wild fish aren't safe either, they are swimming in a stew of plastic particles.

Better: Wild Alaskan salmon, black cod, or fish from cold, clean waters *[Our fresh source is the Southern Ocean. For canned, purchase only wild-caught from safe waters.]*

4. Bottled Water – One bottle can contain over 300,000 nanoplastic particles.

Better: Filter your tap water or choose glass-bottled mineral water *[Filtered tap water.]*

5. Honey – Bees gather pollen from flowers exposed to airborne nanoplastics.

Better: Local, raw honey from rural or wildflower-rich regions. *[Certified beekeeper Peter G.'s got this covered.]*

6. Apples & Carrots – These crops can absorb plastics from contaminated soil, irrigation, and packaging.

Better: Produce grown using regenerative practices and clean well water *[Grow our own.]*

7. Beer – Breweries using municipal water often brew with microplastic-contaminated supplies.

Better: Choose craft beers in glass bottles, brewed with mountain spring or well water *[We make mead with our honey; stored in glass.]*

**"The creepy agenda behind Australia's proposed 'bedroom tax'"**

(Excerpts:) "An Australian think-tank has proposed a radical solution to the supposed 'housing crisis' – tax people for unused bedrooms. The thinking is simple: There are many people, mostly older couples whose children have left

home, living in family-sized homes with one or more bedrooms sitting empty. If the state were to impose a tax on unoccupied bedrooms, whilst abolishing stamp duty, they will incentivise those people to sell their family homes and downsize, thus freeing up homes for young families looking to buy. But is that really how it would work? Of course not. What will happen is that newly incentivized sellers will bump up against hedge funds and private equity firms who are willing to pay 10-20% over market price. (Description:) "A mysterious crop circle appeared in Bavaria, Germany in July 2025 — and for the first time, researchers turned to quantum AI to analyze it. The results stunned scientists and left experts lost for words. The formation, covering

over 5,000 square meters of wheat, revealed hidden geometric guides, precise bending angles, and encoded sequences that may connect to crop circles from decades past. The AI uncovered repeating symbols, mathematical constants, and even a chilling message: 'TIME IS SHORT'. Could these patterns be part of a larger communication [*That "shew great signs and wonders; insomuch that, if it were possible, they shall deceive the very elect" (Mat.24:24)*] spanning decades? Or the work of a hidden human culture operating on a level of precision we barely understand? Either way, this discovery challenges everything we thought we knew about crop circles.":

""We aim to literally record everything in your life.""** - "The goal of all AI is to think for you until you are held captive and depend on it; then it strikes!" (Steve Quayle)

(Excerpts:) "We live in an age where the tech industry's core pitch is for you to outsource your brain's cognitive functions, be it to an AI chatbot or an app. The idea has now reached a new zenith. A startup called Halo is releasing a pair of smart glasses that will record and transcribe all your conversations and use it to beam you AI-powered insights. It'll remember details you forgot and recall what someone told you they like...arming you with facts it looks up on the fly and answering questions you don't know the answer to so you can look like a genius...the 'first real step towards vibe thinking'...using 'vibe' is the hip lingo in tech circles for saying 'AI-assisted'... study found that students who heavily used ChatGPT reported memory loss and tanking grades. Shoving the tech into eyewear will enable users to tap their brain into an AI, ironically, without even thinking about it. The Halo X glasses will be available to preorder and will set you back \$249 a pop." - "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him. For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world. And the world passeth away, and the lust thereof: but he that doeth the will of God abideth for ever." (1Jn.2:15-17):

One can easily see how AI is becoming a god in our modern society, something we all are encouraged to become dependent upon for everything, starting from the cradle and going all the way to the grave. uncomfortable truth, you're choosing to accept an uncomfortable future." (Steven Bartlett, "The Diary of a CEO") — \*English philosopher and social theorist Jeremy Bentham originated the term panopticon in the 18th century, Wikipedia explains, to convey the idea of "a design of institutional building with an inbuilt system of control.... The concept is to allow all prisoners of an institution to be observed by a single prison officer, without the inmates knowing whether or not they are being watched." - *A deep-dive into what's behind plunder, the operations of panopticon, and a warning for us all to "be thou prepared!" (Ezk.38:7a)* (Excerpts:) "Plunder is an ancient story. The promise of plunder brought Attila and the Huns over the Alps to raid the Roman Empire in northern Italy. It inspired the conquistadors of Spain to hunt for silver in Mexico and South America, where they wiped out the Aztec and Incan Empires. Protected by court intrigue and secrecy, pirates have teamed up for centuries with royalty whose reign depended on rich spoils to pay back their bank loans. When the leaders of the British Empire could not maintain a trade surplus, they flooded the Chinese with opium, conquering with addiction and gunboats what could not be secured with manufacturing and diplomacy. The founding of the Bank of Amsterdam, the Bank of Sweden, and the Bank of England in the 1600s launched the beginning of the economic paradigm I call the 'central banking-warfare model'—but we could just as easily call the dominant economic model the 'central banking-plunder model'. Plunder in its many forms has been essential to the rich accumulation of capital that helped to build the Western world. You can grow wealth, or you can take it—and in many cases, taking it is the preferred method. Alibaba founder Jack Ma once said, 'When trade stops, war starts.'...instead of killing their prey physically in open combat, plunderers now can simply empty victims' bank accounts while distracting them with propaganda and pornography. Plunder leaves students, who spend years getting an education that is not relevant to generating an income, with enormous student loan debt that they cannot retire. Frauds like the Madoff Ponzi scheme steal a mother's savings, and when she commits suicide, her children's inheritance can scarcely cover funeral expenses, much less finance their education and future. Plunder also encompasses the politically engineered health, food, and education policies that poison children. Moreover, the poisoning has a profitable postscript: the medical establishment claims that the children are sick (instead of poisoned), and parents liquidate their savings to try to heal their children in a manner that generates significant revenues for medical enterprises and pharmaceutical businesses...Now that the panopticon systems have matured, the Palestinian population is no longer useful,

whereas their resources are seen as a valuable component of a profitable control grid infrastructure. Israel has, therefore, increasingly laid claim to Palestinians' offshore oil and gas, land, and aquifers, while attempting to move the population out of Palestine, but—despite systematic destruction of Palestinians' civilian, farming, and transportation infrastructure—the transfer of Palestinians to Egypt and neighboring countries has not succeeded. Consequently, the Israel Defense Forces (IDF) is now exterminating the population through bombings, sniper assassinations, and mass famine. Some reports indicate that the Palestinian population has dropped from 2.2 million—including 1.1 million children—to 1.6 million. Given the effort to force mass famine, a rapid die-off appears imminent...As control becomes more centralized and automated in the planetary panopticon, fewer human hierarchies are needed to maintain control.":

> 🤪 **"Attila was not a Hun"** - *More uprooting of what we've been told to believe, how the delites deceive, and the lies they weave!*

(Excerpt:) "If you read the Wikipedia page on Attila or the Huns, you find almost nothing is known about Attila or the Huns. They came out of nowhere, conquered half the world, then disappeared in about 75 years, leaving barely a trace. But what you do notice at Wiki is the heavy misdirection, starting with the name Attila. They have a whole section on this, telling you the name is German, Gothic, Turkish, Mongolian, or Russian. But we know that can't be right since many famous Modern Italians have the name Attilio. We saw one of them recently in my papers. Are we supposed to believe they were all named for this Hun of the fifth century? Even worse for these fake mainstream historians and etymologists is that it is known the name comes from the Roman name Atilius, predating Attila the Hun. See the Roman consul Marcus Atilius Regulus, hero of the First Punic War of 264BC, 700 years before Attila the Hun. Wikipedia again lies about him, hiding his family and telling us he was a Plebeian. But Plebeians didn't become consuls. That is the same old lie it is today. Regulus was a Patrician, meaning he came from old Phoenician stock arrived in Italy from Troy via Carthage, see the Aeneid. So he wasn't a Mongol, a Turk, or a Hun, and neither was Attila...So an Empire capable of defeating the Roman Empire came from nowhere, was led by no one, and disappeared completely in just 70 years? I remind you the Roman Empire had been around for 1200 years by that time. To say this story makes no sense is a vast understatement. Which means it must be covering some greater

truth. It looks to me like these wars were staged as the excuse for moving huge sums of gold out of the Roman treasuries and stashing them somewhere else. But where?" - *Read in full to find out!*:

• *Five journalists among 19 killed in an Israeli double-strike on the Nasser Hospital in Gaza. According to MEE editor David Hearst: "Israel cannot hide the truth of the genocide it is waging in Gaza, so it is killing as many of those who record each strike as it can." While Netanyahu calls the Nasser Hospital strike a "mishap" and expresses "regret", Israeli media and soldiers say it was approved by top brass, saying, "The strike was coordinated with senior command, and they knew before it was carried out." 20 dead, including 5 journalists — almost 200 journalists have now been killed since Gaza war began.*

**"Israel kills Middle East Eye journalists in double-tap strike on Gaza's Nasser Hospital - Mohamed Salama and Ahmed Abu Aziz among 19 killed after Israeli forces bomb Khan Younis hospital providing life-saving care to hundreds of thousands of Palestinians"**- Includes 19/47 min vid.

(Excerpts:) "Israeli forces killed Middle East Eye journalists Mohamed Salama and Ahmed Abu Aziz on Monday, in a double-tap strike on the Nasser Hospital in the southern Gaza Strip. Israeli forces bombed the fourth floor of the facility at around 11am local time (09:00 BST), then moments later, according to videos seen by MEE, fired a second missile deliberately at reporters, bystanders and first responders who had gathered to help recover the dead and wounded. At the time of the attack, videos showed smoke billowing from an upper level at the hospital as rescue workers, standing on what appeared to be a staircase, appealed to those at ground level for help. Then the second missile struck the

exact area where they had amassed, with a correspondent for Jordan's Al-Ghad TV channel crying out during a live broadcast that innocent people had been killed. At least three other journalists were among the 19 Palestinians killed in the attack, including Mariam Dagga [See: <https://t.me/rtnews/108418> - read her heartbreaking final message to her son Ghaith], a freelance reporter who worked with several media outlets including the Associated Press; Hussam al-Masri, a photojournalist with the Reuters news agency; and freelance reporter Moaz Abu Taha...the Foreign Press Association called for an 'immediate explanation' from the Israeli military and called the double-tap 'among the deadliest Israeli attacks on journalists working for international media since the Gaza war began.' It said the 'came with no warning' and hit an exterior staircase of the hospital 'where journalists frequently stationed themselves with their cameras'...David Hearst, the editor-in-chief of Middle East Eye, called Salama and Abu Aziz 'exceptional journalists,' and said they were working in 'near impossible conditions' before they were 'murdered' by Israel. 'Israel cannot hide the truth of the genocide it is waging in Gaza, so it is killing as many of those who record each strike as it can,' he said. 'What Israel is doing in Gaza is terrorism practised by a state. In killing as many civilians and non combatants as it can, in targeting hospitals, first responders and journalists, it is seeking to terrorise Palestinians into fleeing abroad. It must not and cannot be allowed to succeed. It is up to every nation that calls itself civilised to stop it.'":
